A BLOW AT WORSHIP

THE WRITER is not a Christian Scientist. Neither is he in any way informed regarding the principles of the society, except that it is based largely upon the belief that many of the ill the flesh is supposedly held to be but vagaries of the mind, and that the cultivation of will power and the creation of beautiful thoughts will tend to alleviate the greater portion of these. It is just this form of Christian science, applied to business affairs throughout the United States that has resulted in the killing off of what promised to be "hard times," and in the improvement in business in almost every line.

In the California legislature, there was introduced Saturday a bill aimed to make the ministrations of Christian science practitioners illegal. There is every reason to believe that this will be defeated in the assembly, for the bill is one that is aimed at religious freedom, and there is certain to be a storm of protests raised throughout the Golden State as a result. Even should it pass the Legislature, there is reason to believe that it would still stay off the statutes of California, for far more than the Webb anti-alien land bill and similar discriminating measures, this one aims directly at the Constitution of the United States, yes, even at the first settlements by the Pilgrims, who crossed the waves to an unknown land that they might practice their religious beliefs as they saw them, and whose sons over a century later, severed allegiance to England, and granted to everyone in the United States the right to worship the Creator as they wish to.

Scattered Shots

WHACHA KNOW about this April weather in February?

ANY DAY NOW would be good for the good ship "Street sweeper" to make a cruise of the bitulithic.

BUT IF ALL OF the houses were numbered, and the sidewalks properly cleaned, it wouldn't be necessary, Madam, for you to traipse down to the postoffice.

IN A COUPLE of more days like today, we'll need a jitney boat service.

THE TRUTH of the old saw "Everything comes to him who waits" is again borne in the case of the Lower Klamath lake marsh land settler, who is to be granted a homestead filing after twenty years of delay.

FEBRUARY is also the month in which women talk the least. It's two days shorter.

P. S.—The foregoing was written early this morning. The rain has frozen in falling since then.

IT'S GRANDMOTHER'S RECIPE TO
BRING BACK COLOR AND LUS-
TRE TO HAIR

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea recipe are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin, have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight, and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. (Paid Advertisement)

SOME MINOR WAR NEWS FROM EUROPE

LITTLE STORIES FROM THE FRONT THAT ARE COMING IN THROUGH THE CAPITALS OF THE NATIONS NOW FIGHTING EACH OTHER—SOME ARE TRIVIAL, BUT ALL ARE INTERESTING AT THIS TIME.

United Press Service
COPENHAGEN, Feb. 1.—Stow-aways anxious to get back to the Fatherland and join the troops at the front are constantly arriving here. When the Danish steamer Esrom recently came in one of the three stow-aways aboard, who had been compelled to work as stocker, revealed himself as a German prince, as they were being paid off. Presenting his wages to the other stokers, he said: "I want to thank you boys for your kindness to us when we were working together. I'm not by profession a stoker, and have not been used to this kind of work. As a member of a German princely house, I want you to know that this is one of the happiest days in my life. Now I can go and help to teach these British a lesson!"

And with that the trio departed for the frontier.

LONDON, Feb. 1.—"We have had a scrap in the trenches; a serious one." That is the laconic manner in which Captain W. L. Brodie, of the Highland Light Infantry, described the deed which won for him the Victoria Cross.

PARIS Feb. 1.—M. Tattergrain, a well known painter, is ready to admit that one can have too much realism. Recently he conceived the idea of painting the bombardment of Arras in his Paris studio—and in order to get color he arranged with an Arras refugee, named Vasse, to carry out a number of experiments in the studio with the object of getting a vivid idea of shell fire. Unfortunately, some two pounds of gunpowder exploded by accident, while preparations for the experiment were proceeding, and the explosion wrecked the studio.

ROME, Feb. 1.—All foreigners now residing in Italy are being subjected to the most rigid surveillance on the part of the public authorities. When the time comes for Italy to carry out its present plans of intervening in the war for the purpose of retaking the two provinces of Trieste and Trent as well as a portion of the Dalmatian coast, she does not propose to have her efforts handicapped by the presence of any incoherent-looking strangers who might in reality be spies. All Germans and Austrians now in Italy are being watched with especial care, and every effort made to ascertain whether or not their alleged reasons for being here are the actual ones. In addition to this surveillance the minister of foreign affairs is also preparing a list of the foreigners whom Italy deems it will be desirable to expel the moment that hostilities become certain.

Holland Ships Gardens Here
United Press Service
SAN FRANCISCO, Feb. 1.—Ten carloads of rhododendrons, clipped conifers and bulbs for the Panama-Pacific International exposition here just arrived from Holland. This is the third large shipment from the Netherlands, and will complete the beautiful Holland gardens. It includes cone-bearing trees of more than a dozen species, 700 rhododendrons of different varieties and many rare sorts of magnolias, acubus and smaller shrubs. Many of the conifers have been clipped and trained into fantastic shapes, such as monuments, globes, corkscrews, birds and pagodas.

PORTLAND LETTER

Last week's market opened steady to strong in all classes. Prime steers sold at \$8.00, cows at \$6.50 and other grades in proportion. Market closing steady.

With the beginning of \$6.50 Monday, which was 15 cents over the close of last week, hogs have maintained this level, although all other American markets have shown a decided weakness. North Portland prices are highest by 10 cents.

The strength of the sheep market was able to bring somewhat increased receipts. Prices have advanced and lambs reached \$7.50, ewes \$5.75. Outlook strong.
