CARRANZA TRIES TO REGAIN THE FAVOR OF U. S.

OVERSHADOW VILLA TO DO THIS

Order to Impress Upon Diplomatic Circle That He Is Stronger Than Other Faction Leader, Carranza Has Stripped His Eastern Garrisons in Order to Strengthen His Forces Elsewhere.

United Press Service

WASHINGTON, D. C., March 31.—Carranza is making a most determined effort to show the United States that he, and not General Villa, is the dominating factor in Mexican affairs. Official reports show that he has stripped his forces at Vera Cruz and southeastern points to the lowest ebb. The men taken away have been dispatched to Matamoros, Torreon and Mexico City, to oppose the other factions.

If Carranza succeeds in the present campaign he believes, it is understood that he will expunge the administration view that General Villa is the greatest man in Mexico.

As a result of this determination, the fighting now being carried on in Mexico is deemed more important than any campaign since the Huerta regime.

The French air scouts fly at all times with lights extinguished, except from time to time when for a moment an electric flash is turned on to permit the observation of their instruments. Temperatures taken recently by the night aviators showed that the average is about 11 degrees above zero (centigrade).

As each squad returns to earth after four hours of service its place is immediately taken in the air by a fresh detachment. The service is continued until the approach of day makes observation possible from the earth.

As a result of this and other precautions, "Le Temps" states that the only effect up to date of Germany's Zeppelin threats against both Paris and London has been a great and highly salutary reduction in the municipal gas and electric bills at night.

Italy May Try to Recover Trent and Istria

This map shows the parts of the Austrian empire—Trent and Istria—which Italy is believed to demand as her price for keeping out of a war against Franz Josef. The whole Italian population, according to reports from Rome, seems to be forcing the government to action.

The demands of Italy as outlined today are set forth as follows: To the north she desires the entire province of Trent, bringing her frontier to Venoste, Passirle and Breonle, including the districts of Roveredo, Trent, Bozen Meran, Bressanone and Bruneck. To the east she desires to extend her frontier to the Julian Alps, including the provinces of Goritz and Istria, with the districts of Tolmein, Goritz, Trieste, Pola and Fiume. In addition to this she desires the Dalmatian islands, especially Veglia, Cherso, Lunga, Brassa, Lespa, Curzola, Meleda and Lissa.

The concessions which Austria is believed to be willing to make are insignificant as compared with the demands. It is regarded as probable that under pressure from Germany the negotiations may be extended and Austria may be induced to grant larger concessions than she now is willing to consider, but the belief is generally held in responsible quarters that the extreme Austrian concessions would be insufficient to satisfy Italy.

GRAIN HERE FOR CONTEST ENTRIES

FINEST OATS, WHEAT AND BARLEY OBTAINABLE SECURED BY WATER USERS FOR USE OF THE CHILDREN

President Abel Ady of the Klamath Water Users Association today received word of the arrival of a quantity of fine wheat, oats and barley, to be used as seed by the children entered in the farming contests to be held under the Klamath project this summer. The seed is the best that could be obtained, as the children are to be encouraged as much as possible.

The grain has been turned over to County School Superintendent Peterson, who is arranging to distribute the grain to the entries. Those not entered will also be furnished seed if they enter immediately.

Besides the grain, the Water Users Association ordered the best seed potatoes, sending to Colorado for them. These will be here in a few days, to be distributed to the children entered in the potato growing contest.

All children entered must do their farming under the project, using irrigation. The prizes are three colts, three calves, three pigs and three pens of turkeys.

Evade Anti-Dope Law

United Press Service
CLEVELAND, March 31.—"Hundreds of drug users are buying cocaine leaves in the raw state and brewing from them a concoction that has the same effect as morphine, opium and other drugs, the sale of which is now barred by federal statutes."

Probation Officer Christian, Cleveland's "dope fiend expert," makes the announcement, and says drug slaves here have found a loophole in the law which does not prevent the sale of raw leaves.

Detroit May Buy Railways

United Press Service

DETROIT, Mich., March 31.—The stockholders of the Detroit United Railway company met today in special session to vote on the proposition of selling out to the city of Detroit for \$24,900,000—the amount of the bonded indebtedness of the company. The sale price has been agreed to by both the directors of the company and the members of the Detroit street railway commission, and must now be ratified by the company stockholders and the voters of the city of Detroit.

Consideration of the sale price today by the company stockholders marks one of the final steps in Detroit's long fight for municipal ownership of the street car system. Approval of the sale figures by the stockholders would result in the calling of a special election immediately to obtain ratification from the people.

RATE ON SALT IS LOWERED BY S. P.

REDUCTION MADE IN TRANSPORTATION CHARGES BETWEEN HERE AND SAN FRANCISCO POINTS TO MERT SALT LAKE

Announcement was made today of the reduction of the rate on salt between here and San Francisco Bay points from \$18.40 to \$9.10 a ton. This makes the rate equal to the reduced rate on salt from Utah points.

On account of the livestock here, there is considerable salt shipped into Klamath yearly.

State Solons Still Sitting

United Press Service

ST. PAUL, Minn., March 31.—The Minnesota legislature, which ended its third month today, among other things, voted against committing hari kari. A bill was proposed cutting down the number of legislators to 100 and making them all in one house. The legislature killed it by a tremendous majority.

Although the legislature refused to give the people of Minnesota the right to vote on suffrage, they give them a county option bill. A bill to provide for state wide prohibition failed by a big majority. The legislature was the first non-partisan legislature in Minnesota, it being against the law for any member of it to announce his political faith, either before or after election.

RADER'S LATEST ARTICLE TELLS HOW IT FEELS TO BE ACTUALLY KILLING FELLOW HUMAN BEINGS

By PHIL RADER
(Written for the United Press)

(Copyrighted, 1915, by the United Press)

LONDON, March 31.—How it feels to kill a man is something I cannot adequately describe.

I was so excited I could hardly aim. Through the hole I saw the German standing on the edge of his trench. He had been carrying a huge load and had roared it against his back while he tried to light his pipe.

"Get him! Get him!" said the lieutenant.

I fired and missed. The German struck another man, and merely looked contemptuously at the spot in space where the bullet had whizzed past him. He was forty-five feet away from me, but through the fog I could see only part of his body. I wanted to hit him low, if possible. I aimed again. He was looking back and backed in a circle, like a common man, trying to keep his balance. He threw up both hands and I was aware on his face.

I turned around to look at my trench. We had no more men. I was alone. I had fastened a small mirror to a twig, and was looking at the
