

BIG NEW SAWMILL WILL COMMENCE BIG SEASON SOON

PELICAN BAY COMPANY'S PLANT OPENS THURSDAY

Sawmill Which Was Destroyed by Fire Last Year Has Been Rebuilt, With Equipment That Doubles Its Former Capacity—is Now Able to Turn Out Up to 60,000,000 Feet of Lumber a Year.

Thursday morning the new sawmill and planing mill of the Pelican Bay Lumber company will commence operations for the season. F. Hill Hunter, the engineer in charge of the construction, has had men working day and night of late, in order to bring this about.

About eighty men will be employed in the plant to begin with. As there accumulates dry lumber for working in the planing mill, and work in the yard grows larger, there will be employment for close to 125 men.

At present the pond is well filled with logs, and little logging is being carried on. When this supply is diminished, there will be about 200 men employed in the woods and the camps.

After the plant is in full running order it is the intention of President H. D. Mortenson to set aside a day as "visitor's day," to give all who wish an opportunity to inspect the mill, which is the largest in Southern Oregon.

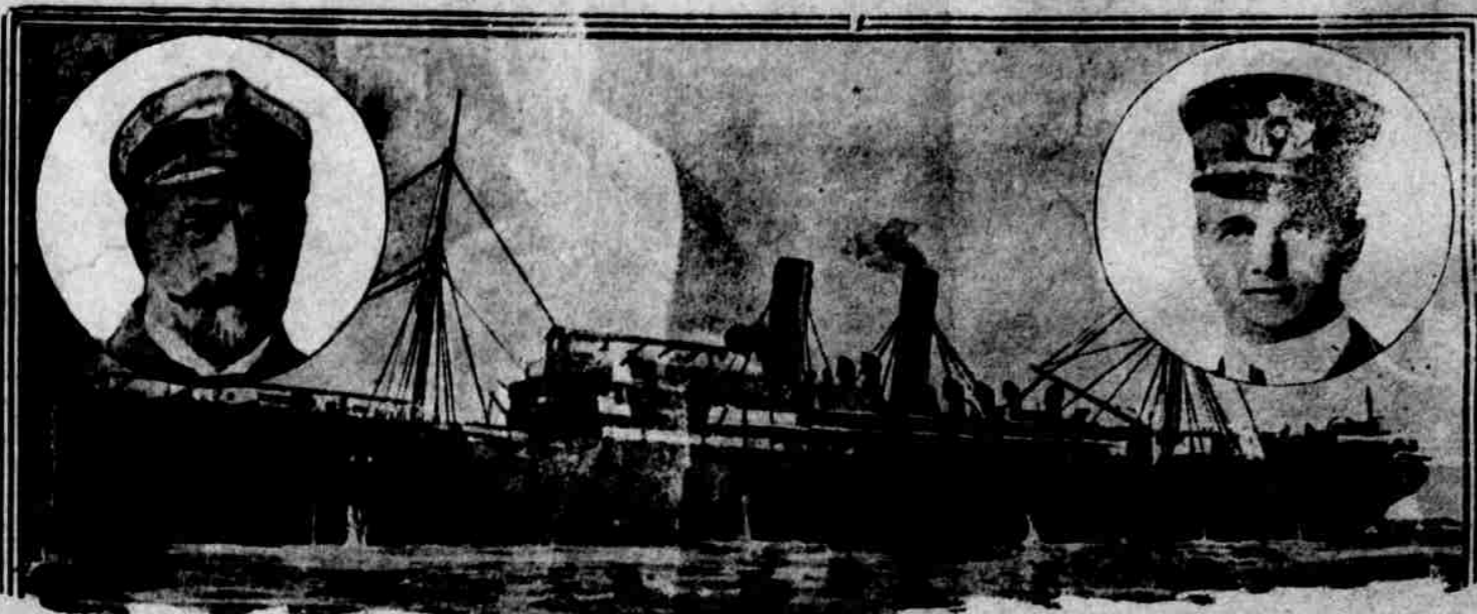

It was less than a year ago, just when the season's run was started, that the Pelican Bay Lumber company's sawmill was completely destroyed by fire. Before the ruins had ceased smoking, the company announced its intention of rebuilding, and since then work has gone steadily forward on the erection of a bigger and more up-to-date lumber mill.

The mill destroyed by fire last year cut 150,000 feet of lumber every twenty hours. The plant that will start Thursday will cut that amount of lumber in just half the time.

A twin band mill has been erected this time. Both are nine foot mills. The logs will be brought into the mill on a single chute, and they will be bucked into desired lengths by a drag saw before they enter the mill. Arm kickers will throw the large logs to the carriage on the left hand side, and the smaller ones to the right hand carriage. Throughout the saw mill, the machinery is complete in every detail.

The sawmill is operated by a 650 horsepower steam engine. The planing mill, which is about 200 yards

German Raider Is Interned at Newport News

This is the Prinz Eitel Friedrich, the German auxiliary cruiser, which last night decided to intern at Newport News until the end of the war, rather than try to escape the British cruisers waiting for her. Before the war this vessel belonged to the North German Lloyd line. She arrived in Newport News with information that she had sunk the William P. Frye, an American ship belonging to Arthur Sewell & Co., of Bath, Me., which was loaded with wheat from Seattle for Liverpool. She had also sunk seven British and French vessels.

Diplomatic authorities in Washington consider the sinking of the Frye an act of wanton aggression so plain-

ly unwarranted that the German government will disavow it quickly. The Prinz Eitel, when it entered Newport News looked battered and worn after seven months on the high seas with no chance to clean up. One side was painted white, while the other was rusty. Her smokestacks and all iron work about her were rusted.

EASTERNERS ARE HELD BY "POX"

FOUR HUNDRED PEOPLE MAKING TRIP THROUGH CANAL TO EXPOSITION ON EAST NEW LINER ARE IN QUARANTINE

United Press Service SAN DIEGO, April 8.—The new Hill steamer, Northern Pacific, arrived at this port today, thirteen days out from Philadelphia, with four hundred notables on board.

The passengers and crew are held in quarantine on account of a mild case of smallpox, and will probably be detained ten days. All on board must be vaccinated, according to the federal and local health officers.

The custom has been started in some Western cities of printing the maiden name of a woman after that of her husband in the directory.

UPP CONTEST IS TOMORROW NIGHT

NINE HIGH SCHOOL STUDENTS ARE ENTERED FOR THE GOLD MEDALS TO BE AWARDED FOR DECLAMATION WORK

Much interest is being taken in the Upp declamation contest to be held tomorrow night at the opera house, when students of the Klamath County High School will deliver elocutionary numbers in competition for the two gold medals given annually by the well known local jeweler, Frank M. Upp.

- List of participants in the Upp declamation contest, including names like Czubka, Glee Club, W. H. Murray, Katherine McAndrews, etc.

ASHLAND WANTS ROAD TO KLAMATH

MEMBER OF COMMITTEE WORKING FOR DEAD INDIAN ROUTE IMPROVEMENT HERE TALKING WITH LOCAL PEOPLE

With a view to getting assistance here for the road the Ashland Commercial Club proposes to have built over the Dead Indian route from Ashland to the Lake of the Woods and Pelican Bay, thus opening Crater Lake, Upper Klamath Lake and other scenic points in Klamath county to Ashland tourists, H. G. Enders, one of the committee in charge of the project, is here from Ashland.

According to Mr. Enders, Ashland people are subscribing from \$25 to \$100 each toward the construction of the road. Besides this, twenty-five or more men have volunteered to do some work on the highway. What Klamath county people will be willing to do toward this project will be determined shortly. There is a possibility of help from the county court, as there is some money on hand from forest reserve timber sales, which is to be used in road building in forest reserve territory within the county, and a portion of the Ashland-Klamath route is through government timber lands.

LOTS OF WRECKS ON EAST COAST

EIGHT VESSELS WRECKED OFF NORTH CAROLINA, AND EVERY AVAILABLE REVENUE SENT TO RELIEF

United Press Service WASHINGTON, D. C., April 8.—The coast guard service has ordered every available revenue cutter south of Boston to proceed to Diamond Shoals at full speed, to aid eight vessels wrecked off the coast of North Carolina.

The schooner Alle Murphy is capsized, the schooner Lizzy Wiley is aground, two unidentified ships are overturned, and another has sunk, while three others are reported in distress. It is uncertain at this time whether or not there have been any fatalities, but it is believed likely. It is the worst disaster known on the Diamond Shoals for many years.

IN TIME OF WAR FRANCE PREPARES FOR PEACE BY REOPENING ITS MILLS, SHOPS AND FACTORIES AT THIS TIME

(United Press Staff Correspondent)

PARIS, March 24.—(By mail to New York)—"In times of war prepare for peace."

This is to be the slogan hereafter of a block in the French chamber of deputies, headed by Deputy Frederic Brunet of the Department of the Seine. Just as France possibly made a mistake in times of peace in not preparing more fully for war, so Deputy Brunet declares she will make even a greater mistake now that she has war if she fails to take advantage of it for a thorough preparation for peace.

With the certainty of a victorious peace only a question of time, Brunet declares France will not only lose a great portion of the advantage that will come with it, but will find her-

GRAND JURY TO MEET ON MAY 3

SUBPOENAS HAVE BEEN ISSUED FOR SOME WITNESSES, AND SUMMONS SENT TO THE MEMBERS OF THE VENIRE

Members of the Klamath county grand jury have received summons to convene May 3. At that time investigation will be made of a number of matters pending that they may be disposed of, so far as the jury is concerned, before the June term of the circuit court, when this grand jury will be dismissed.

LOCAL SCHOOL CHILDREN TAKE UP INDUSTRIAL CLUB WORK WITH MUCH ENTHUSIASM; BIG RESULTS CERTAIN

Many a Klamath Falls mother will have no cause to fear that her son has been drowned at the swimming hole this summer, that he is running around the streets or getting into mischief. These sons, like many of the daughters, will be pretty busy youngsters, gardening, cooking, baking, sewing, potato raising, etc. They have joined the industrial clubs being organized by the state department of education, and if present enthusiasm counts for anything, the rest of the state will have to hustle to win any honors at all at the state fair.

All of the intermediate and grammar grades at the local schools have industrial clubs with good memberships. The boys and girls are much taken up with the project, and have entered a wide variety of industries.

HOLLAND LATEST TO MOBILIZE AN ARMY ON BORDER

(United Press Service)

LONDON, April 8.—Wild reports that Germany and Holland are both moving troops along the Dutch-Belgian frontier, coupled with uncorroborated rumors that Germany is about to invade Holland are coming in from English sources in The Hague, Amsterdam and other cities in Holland.

The London papers are playing up these stories. From neutral quarters it is stated that while public opinion in the Netherlands is greatly concerned over reported attacks upon Dutch shipping, the situation does not warrant the belief that an open break will be the result.

It is reported that the landsturm and cavalry are being massed along the Belgian-Dutch frontier by Germany. These troops are entrenched along a line north of Antwerp.

From The Hague it is reported that during the past fortnight the southernmost Dutch military post near the Belgian line has been reinforced with infantry and artillery. This has been carried on quietly until now the garrison contains a force of 250,000 regulars fully prepared.

(United Press Service)

BLOODY FIGHT ALONG THE MUSELE

BERLIN, April 8.—The French troops yesterday renewed their assaults against the German positions between the Meuse and Moselle. These assaults failed. There were enormous losses inflicted upon the French, and the woods are strewn with corpses.

(United Press Service)

MORE TROUBLE IN ALBANIA

BERLIN, April 8.—Dispatches report a thousand Albanian insurgents attacking Durazzo. They are supported by several field pieces and are shelling the city.

HAS FULL LIST OF ALL BREEDERS TO REBUILD AT SHOVEL CREEK

GLAISYER NOW ABLE TO GIVE VALUABLE INFORMATION LONG THIS LINE TO LOCAL DAIRYMEN, ETC.

County Agriculturist Glaisyer has just received from Professor Powers, head of the department of animal husbandry of the Oregon Agricultural College, a complete list of all the reliable breeders of all classes of livestock that are in the Northwest. Professor Potter also sends advice to local farmers and dairymen to keep close tab on the sales held in Portland and the Willamette Valley when blooded cattle can be purchased cheaply.

The list of breeders will be available to all Klamath county stockmen, farmers, etc., desiring to purchase animals of any strain at the nearest shipping point. This information will be cheerfully furnished by Glaisyer.

Miss Caroline Vierling is president of a big iron works in Omaha.

The noted summer resort at Klamath Hot Springs, which was recently destroyed by fire, will be rebuilt on a much larger scale during the coming summer, and when completed will be one of the most modern hotels in Northern California.

One of the great attractions at this resort is the splendid spring fishing that can be found in Shovel Creek and Klamath River; also the wonderful properties in the Hot Springs.

Noted anglers from all over the state make a point to visit this resort as soon as the fishing of rainbow trout is allowed by law.

Mr. Brown, the manager, has had large tents placed on the grounds for sleeping purposes, and is now using the club room for a dining room.
