WHY BUILD NOW?

UNSETTLED conditions brought about by the European war, tariff revision, etc., while they have been disturbing to many lines of business and have been responsible for considerable idleness, have been beneficial to one of the most important and most desirable classes of the people in the nation—the home build-Never before has the man who aspires to have a home of his own een placed at such an advantage.

Realty values are comparatively though there is little need of selling at a sacrifice except in the case of people who for speculative purpos hased more than they could many times the real value of prop-thunder invented work?" arty. While the price of practically everything else has slumped, the price of real estate has only fallen to the level of actual value, only the inflation profit being dropped.

But after the war, when the facories and mills will be running overtime to supply the need of a war wrecked continent, when the Ameri can farmer will be obliged to till every available acre in order to supply foods to the nations across the Atlantic, there will be work for everybody. with wages at a higher mark than at present. The return of prosperity to all classes in this menner will mark an improvement in the price of all commodities, and with the growth in importance of such manufacturing od farming sections as Klameth Palls, there will come a demand for iome building property that will bring about an advancement in the

Now is the proper time to build. The price of Klamath Falls property is as low today as it will ever be, and owners are glad to arrange easy terms for buyers of the right sort The lumber market has been in a deplorable condition for several months, with the prices at rock bottom, and this is also to the advantage of the home builder. The spirit of retrenchment that is causing Big Busine postpone improvements, extensions, etc., as much as possible until there is me settlement in conditions is causing a scarcity of employment, and this feature, if seized upon by the home builder at once means that he can have his home built just when he wants it, without a delay occasioned by the necessary artisans being em-ployed on jobs contracted prior to his

Build now. Such advantages as can be employed now will be gone in a short time.

A "WORN-OUT" BUILDING

OESN'T it make something in you ache when you pass a ballding, residence or business prop-erty, that looks like it had weathered the blasts and reflected the suns of fifty or more fleeting reasons?

There are splotches and blotches all over it; the shingles or pieces of the roofing often our up at the ends like a crank reformer's bair; seglect seems to have covered it with a frayed and tattered mantle; the doors sag, and the windows wink at you with bleary indifference.

Some people live in and try to do business in such structures. No one can live in them; it is not living; it
