Head of United Press, Just Back From Europe, Does Not Hope for Any Termination of the Titanic Struggle Before the End of 1915.

United Press Service BERLIN, May 3.—It is announced that the Austro-German forces have crushed the Russians everywhere in the fighting in Western Galicia.

Heavy losses were inflicted upon the Slavs in the fighting Saturday and Sunday, according to report. Seventeen hundred prisoners were taken. The defeat of the Russian army extends all the way from the Vistula and Dniester rivers to the Hungarian frontier.

United Press Service AMSTERDAM, May 3.—Kaiser Wilhelm and Prince Henry of Prussia inspected the fortifications and submarine yards at Antwerp Saturday.

This was kept secret, lest the news attract Belgian assassins.

United Press Service NEW YORK, May 3.—Roy Howard, president of the United Press Associations, who returned today after a three months' tour in England, Germany, Belgium, France, Russia and Italy, says that Europe realizes that the present war has developed into something new in history, the siege of a nation.

He says the fight has resolved itself into an endurance contest of indeterminate length. Across the Atlantic, he says, it is generally believed that peace before 1916 is an impossibility.

Thousands Starving Throughout Poland

By CARL W. AOKERMAN (United Press Staff Correspondent)

BERLIN, April 30.—(Via The Hague)—Thousands of war victims in Poland are facing starvation.

A government survey today shows that, in many places, food supplies available will last for only two or three weeks. Relief work is being considered by the imperial government, but the difficulty of purchasing food supplies outside of Germany presents one of the greatest problems in the plans of aiding the starving people in the war ridden sections of Germany's eastern frontier.

The American Red Cross and representatives of the Rockefeller Foundation are in charge of relief committees, endeavoring by every means in their power to feed the needy. After

GOVERNOR NAMES GOOD ROADS DAY

PROCLAMATION CALLS UPON PEOPLE OF THE STATE TO TAKE STEPS TOWARD THE IMPROVEMENT OF HIGHWAYS

(Herald Special Service) SALEM, May 3.—The following proclamation was issued today by Governor Withycombe:

Whereas, Good roads are one of the prime foundations upon which our prosperity is builded; and

Whereas, I am firmly convinced that road improvement is the wisest investment Oregon can make; and

Whereas, Better roads are desirable not only because they are beneficial from a commercial standpoint, but also because they promote social community development and increase our civic pride, and, further, as they are the most valuable kind of encouragement and advertising in the eyes of the stranger who travels through the state; and

Whereas, It is highly desirable to encourage interest in good roads and to foster in every way possible a statewide enthusiasm for the betterment of our highways;

Therefore, I do hereby proclaim Thursday, May 20, 1915 as Oregon Good Roads Day, and call upon all forward looking citizens of this state to devote their energies on that day towards personal improvement of the roads in their locality, and to cooperate, one with the other, in working out road betterment plans. And I further suggest that on that day, so far as practicable, the gospel of good roads be spread in all our educational institutions, and that the school children themselves be encouraged to assume their share of highway improvement; and that especially the women of Oregon organize and take a part in the work of the Good Roads Day, as their interest and assistance will be vital in making it a notable success.

In witness whereof, I, James Withycombe, Governor of the State of Oregon, have hereunto set my hand and seal, this third day of May, 1915.

JAMES WITHYCOMBE, Governor. (Seal)

LIQUOR CHARGES CAUSE AN UPREVAL

Because Officials Label All British Workmen as "Drunkards," Men Whose Work in Repairing Vessels, Etc., is Imperative at This Time, Threaten to Lay Down Their Tools and Go Out on a Strike.

United Press Service LONDON, May 3.—England is divided against itself as the result of the prohibition agitation that has swept the nation.

This comes about as the result of high British officials branding all British artisans and laborers as "drunkards." Admiral Jellicoe, commander of the British fleet, is credited with the following statement:

"Drunk is delaying the repair work on the destroyers and patrol boats. The crews of the army transports are deserting bodily to get drunk."

As a result of this, there is much anger among the working classes. In their indignation, many are demanding reprisals. There is much talk of a general strike by all of the workmen whose work at home is essential to success abroad and on the sea. A German aeroplane flew over Dover today. It was driven away by an aerogun.

The Norwegian steamers Lalla and Baldwin were sunk yesterday.

TROUBLE LIKELY OWING TO WRECK OF U. S. VESSEL

ADMINISTRATION IS MUCH DISTRESSED

Though American Flags Were Promiscuously Painted on Ship, It Was Blown Up Off Scilly Saturday by a Submarine—State Department Also Hears That Accidents Attacked Another Yankee.

WASHINGTON, D. C., May 3.—One of the gravest situations for the United States since the beginning of the war has been brought about by the torpedoing of the United States tanker, Guilflight, off Scilly, in the North Sea Saturday.

The state department received a cable from the United States consul at Plymouth, telling of the affair, and stating that the captain died of heart failure, and that two of the crew were drowned. The other thirty-four were saved, and the vessel, though badly battered, is still afloat. Patrol boats are towing it toward Scilly.

The state department admits that the situation is very serious. The German embassy, usually quick to defend any action on the part of Germany, refused to make any comment upon the Guilflight affair.

Besides this incident, the United States steamer Cushing was attacked by German aviators.

President Wilson declines to discuss these two affairs. It is expected that he will take personal charge, as the incident is the worst that has occurred since the war started.

Secretary of State Bryan announced that the state department would demand a report from Germany on the torpedoing of the Guilflight.

It is believed that Guilflight will try to excuse the this flight attack on the ground that this was to prevent the oil from reaching the allies. This will be as hard to condone as will the attack on the Cushing. Both vessels had the American flags and legends as to nationality painted on both sides.

The state department has instructed Ambassador Gerard to inform the German government of the Cushing attack, and demand more details.
