

CELEBRATION IS ASSURED; MONEY NEEDED RAISED

WILL BE A THREE DAYS CELEBRATION

Aeroplane Flights, Motorcycle, Auto and Other Varieties of Races, Barbecue, Public Dancing, Baseball Tournament and Patriotic Addresses Are Among the Events Planned for Observance Here.

The three-day celebration July 2, 3 and 4, is now assured, say members of the Fourth of July committee appointed by the Klamath Business Men's Association, who today finished a grand search for the necessary finances for staging the affair.

The plans are still unsettled, but there will be two days of racing, baseball, aeroplane exhibitions, sports, street dancing, parades, music and other attractions. The Fourth itself, coming on Sunday, will be celebrated with patriotic exercises. Congressman N. J. Sinnott has been secured to deliver the principal oration on that day.

SUMMER SCHOOL BEGINS JUNE 7

SESSION OF THREE WEEKS UNDER CAPABLE SPECIALISTS SUCCEEDS THE ANNUAL INSTITUTE IN KLAMATH

The Klamath county summer school, which takes the place of the annual teachers' institute, will begin sessions June 7th, and will continue in sessions for three weeks. There will be special instructors in charge of the work for the teachers, and there will be work in primary school administration with actual demonstrations of methods, devices, etc., advanced grade work, and extensive review work, leading up to the state examinations to be held later next month.

The school work will be held at the Klamath County High School. Arrangements have been made to have the study hours so chosen that the teachers wishing to attend the Chautauqua meeting can do so without neglecting their summer school work.

Prominent Men on the British Cabinet Shakeup

TOP—ADMIRAL SIR JOHN FISHER. CENTER—BONAR LAW. BOTTOM—A. J. BALFOUR.

Reports of the crisis resulting in the complete rebuilding of the British cabinet have it that Winston Churchill, first lord of the admiralty, whose naval policy has been criticized quietly for a long time, was compelled to resign, following the resignation of Lord Fisher, first sea lord of the admiralty. Churchill is chancellor of the Duchy of Lancaster on the new cabinet.

In addition A. Bonar Law and Sir Arthur Balfour, leader and second in leadership of the unionists, were asked to enter the cabinet, that a coalition ministry for the conduct of the war may be formed. The former is secretary for the colonies and the latter succeeded Churchill as admiralty head.

Sweetheart's Diary Saves Him United Press Service ST. PAUL, Minn., May 28.—Norman Lee is a free man today because he has a sweetheart who kept a diary. Lee was charged with passing a worthless check. The state cited a time at which Lee was in company with two men down town. His fiancée, Miss Esther Carlson, young and pretty, appeared with her girlish diary to show that Lee was with her at the time. The alibi worked and Lee was freed.

Lord Fisher, who, it is said, has reportedly disagreed with Churchill, forced the crisis by offering his resignation. Then other disagreements became known.

It was even reported that Lord Kitchener would go to the field in charge of the troops, giving place to Lloyd George as war minister.

TWO INSTALLING PUMPING PLANTS

R. A. EMMITT WILL BRIGADE 1,200 ACRES ON KENO ROAD WITH NEW OUTFIT—HOWARD BOGGS ALSO GETS OUTFIT

More Klamath county acreage is to be brought under irrigation this season by the use of pumping plants. R. A. Emmitt and Howard Boggs are two who are now installing such outfits.

Emmitt's pumping plant will irrigate 1,200 acres of fine land on the Keno road. The pipe is being laid for this, and the motor and pump are on the way from the south. Emmitt will use electric power, furnished by the Kerns plant at Keno.

Howard Boggs, who until recently worked for the Baldwin Hardware company, will put sixty acres of choice Langell Valley land under water this season. He will raise water from a small lake to the higher level, and will use a gasoline engine to operate the pump.

Buys Fine Holstein. A. D. Addison of Mt. Laki has just purchased a fine registered Holstein bull, "Johanna Colantha Butter Boy," from Albert Johnson of Seapoose. His grandsire sold for \$50,000, and for six generations back the cows on both sides of his family have averaged better than thirty pounds of butterfat a week.

England has a woman recruiting officer.

ITALIAN TROOPS WITHIN 18 MILES OF TRIESTE NOW

GRADO IS THE LATEST CITY TO BE TAKEN

Mayor of That City Led the Italian Residents in Extending a Welcome to the Invading Forces—Italian Aviators Are Now Busy—Cadorna Reports His Forces Are Closing in on Goritz.

United Press Service ROME, May 28.—It is announced that the Italian forces have occupied Grado, which is eighteen miles from Trieste.

The mayor of Grado led a procession of the Italian residents of the city, who extended a highly enthusiastic greeting to the Italian army. The garrison there is small, and it surrendered after a short fight.

A big battle is expected at Trentino soon, upon the outcome of which will depend a great deal. The Austrian troops are strongly entrenched there, and the Italians are steadily massing troops for an attack at this point.

General Cadorna, Italian chief of staff, reports his army has occupied Cormons and Cervignana, and is now approaching Goritz.

The Italian aviators are everywhere active.

At Milan last night mobs stormed the Metropole, a German hotel, because of a rumor that from its roof the Teutons were making signals to Austrian aviators.

LAUNDRY'S ROOF CATCHES ON FIRE

CAUSE ASCRIBED BY SOME TO WIRING, AND BY OTHERS TO SPARKS FROM THE CHIMNEY. DAMAGE SLIGHT

Fire caused either by defective wiring or by sparks escaping from the unscreened chimney, broke out on the roof of the building occupied by the Superior laundry this afternoon. It was extinguished after a few minutes' work by the firemen, without the necessity of removing any of the effects from the building.

There was some delay in getting a cart to the fire from the city hall, as several automobiles, etc., passed without stopping to pick up the hose cart.

SPENCER CREEK NOT YET OPEN

RESTRICTIONS AGAINST FISHING IN SPENCER CREEK WILL NOT BE VACATED UNTIL TENTH OF NEXT MONTH

Many people of the county are under the impression that the restrictions against fishing in Spencer Creek have been removed, and that it is now lawful to fish in that stream.

At a recent meeting of the State Fish and Game commission a resolution was passed opening this creek and the portion of Klamath River which was closed last fall, to fishing on and after June 10, 1915. Parties planning to go to Spencer Creek fishing will have to postpone their trip until June 10th, or otherwise they will be subject to arrest for violation of the game laws.

To Be a King, if Poland Is a Nation

Prince Paul Zbawca Riedelski

If the Czar of Russia and other rulers of European nations keep their promises, Poland may become an organized nation after the European war. If so, Prince Paul Zbawca Riedelski will become a claimant for the throne.

The prince has been called the "Polish Pretender," but as the permanent president of the Polish National League is regarded by the Poles as the most likely candidate for the restored Poland, the prince is a naturalized British subject and resides in England. He is in possession of the distinguished order of the Italian Cross of the first class, which is only presented to sovereigns or heads of states.

OPERA HOUSE TO BE WELL FILLED

MUCH INTEREST SHOWN IN THE SENIOR CLASS EXERCISES TO BE HELD THIS EVENING AT HOUSTON'S OPERA HOUSE

There will be a crowded house at Houston's opera house this evening, when the graduation exercises are held. The class of twenty-one pupils finishing their four years of high school work at this time have many friends throughout the county who will attend.

In Dr. George Rebec, head of the department of education at the University of Oregon, the high school faculty have secured a speaker who is known for depth of thought and splendid ideals, with a forceful and impressive manner of delivering these. Dr. Rebec will be the principal speaker at tonight's exercises.

New York Law Institute Election

United Press Service NEW YORK, May 28.—The New York Law Institute today holds its annual election of officers. The ticket, nominated some time ago, that is likely to be successful is:

President, United States Circuit Court Judge E. Henry LaCombs; vice presidents, George L. Ingraham, Alton B. Parker, Thomas H. Hubbard, Egerton L. Winthrop Jr., Alfred E. Henrichs; members of the executive committee, class of 1918, Lewis Cass Ledyard and Robert Ludlow Fowler; members of the auditing committee, Daniel S. Remsen, John H. Parsons and John Henry Hammond.

The Great Central Railway company of England is making experiments in the employment of women as railway porters, to set free men of military age.

Philadelphia has over 13,000 professional women.

SUBMARINES VERY ACTIVE IN WAR ZONE

United Press Service WASHINGTON, D. C., May 28.—Though submarines are still active, officials admit that the United States can do nothing until Germany states her position in a reply to the Wilson note following the Lusitania affair. Unless Germany attacks the United States before the reply is received no action can be taken.

Persons close to the president say he will permit no more quibbling. Naval attaches at Liverpool today began an investigation of the Nebraska affair. Members of the crew are being quizzed by secret service men, and the vessel is to be drydocked to allow an investigation of the extent of the injury received.

If it is proven that the damage was caused by a torpedo, the situation, it is admitted, will be serious.

United Press Service BERLIN, May 28.—Ambassador Bernstorff at Washington has cabled the German foreign office, urging an early reply to the Lusitania message. He cables that since the Nebraska affair, tension is increasing among Americans.

United Press Service LONDON, May 28.—The admiralty announced last night that the British battleship Majestic was torpedoed and sunk off Gallipoli peninsula, while acting in support of the landing forces operating against the Turks. Most of the crew were rescued.

Simultaneously, the steamer Princess Irene was demolished, as a result of a most mysterious explosion, off Sheerness. All of the 300 people aboard her perished, and the boat was entirely obliterated, only fragments of wreckage and pieces of human bodies being found floating about.

There are persistent rumors that a German spy exploded the bomb which sunk the Irene.

Undismayed by the torpedoing and sinking of the battleships Majestic and Triumph, the Allied forces are again bombarding the Dardanelles forts. A simultaneous attack was started on land and on sea, and the French troops are advancing toward Krithia, rapidly storming and taking the Turkish trenches.

United Press Service LIVERPOOL, May 28.—A German submarine damaged the Glasgow steamer Argyllshire. Wireless distress signals sent a number of vessels to her assistance. The Argyllshire was a twin screw steamer 500 feet long.

United Press Service PENZANCE, May 28.—The British steamer Caedby, bound for Cardiff with a cargo of pit wood, was submarined off Cornwall. The crew and passengers landed safely.

United Press Service STOCKHOLM, May 28.—The Danish steamer Fly struck a mine and sunk in the Aland sea yesterday.

UNION SUNDAY SCHOOL FORMED

(Herald Special Service)

MERRILL, May 28.—A union Sunday school was organized recently at the Henley school house with an enrollment of thirty-two. We hope to have

at least fifty as soon as the weather settles.

Officers elected were: T. E. Griffith, superintendent; Mrs. Burt E. Hawkins, assistant superintendent; Miss Julia McReynolds, treasurer and secretary; Miss Ruby Newton, organist.

Brother A. F. Simmons will preach next Sabbath at 3 p. m. Everybody invited. Please come. Sunday school begins at 2 p. m.

Oregon has 30,878 women workers

Builders Active in and Near This City

Work on the \$50,000 Elks' Temple at Main and Third streets has now reached the stage where forms for the basement foundation have been built, and concrete is being poured into them. A concrete mixer and a crew of men are kept busy at this work.

Under J. H. Garrett, a force of carpenters are at work re-shingling the old court house building. Besides this, the circuit court room has been repainted, new benches have been installed, and the whole place made much more inviting for the June term of court, which opens Tuesday.

John Fountain, the court house janitor, has added his share by giving every room in the building a brightening by scrubbing the woodwork, etc., until the old building looks almost like new.

Littler & Schreiner, who have the contract for the erection of Keno's new school house, are now at work. The building is to be a two room, bungalow type structure. F. L. Littler, one of the contractors, was in yesterday for lumber and other supplies, and he states the building will be completed before the term begins in September.

Harry Telford is this week building a garage at his home on Ninth street.

L. B. Applegate is doing a great deal of improvement work at his ranch in the Swan Lake country, and has been hauling much lumber out there.

Bonanza's new hotel building is being rapidly constructed. C. T. Darley is the owner of this, and the structure will have accommodations for a motion picture show house and for a lodge room for the Odd Fellows.

Villa Asks That Men Be Given New Trials

United Press Service TUCSON, Ariz., May 28.—Alleging that five Mexicans condemned to die for murder were unjustly tried and convicted, General Villa has interceded in their behalf, and seeks to put off the execution, which is scheduled to take place this afternoon at the penitentiary at Florence.

This is a matter in which Governor George P. Hunt is unable to act at this time. He has been in favor of abolishing the death penalty, but the voters at the last election voted against the governor's views, and the legislature further restricted his pardoning powers.

Action for a writ of habeas corpus was started today before Federal Judge Sawtelle. At noon, he denied this application, so unless the pardon

board interferes, the men will die before night.

In behalf of the Mexican government, Secretary Bryan sent to the pardon board a request that the men's sentences be commuted from death to life imprisonment. The pardon board is now in secret session on this matter.

The prison guards this morning drew lots to see who should spring the trap to send the men to death. The priests prepared the men for death, the prisoners made their wills, and Warden Sims has announced that he will start the executions as soon as the pardon board gives the order to that effect.

United Press Service FLORENCE, Ariz., May 28.—3 p. m.—The pardon board reprieved the five Mexicans sentenced to death for a period not exceeding nine weeks.
