CRATER LAKE TOURISTS KICK

MAY COME TO SEE LAKE, BUT ARE ADVISED HERE THEY CAN NOT GET THROUGH—WOULD BE WONDERFUL TRIP

Reports have come to this city that many people are being sent here from San Francisco and other points along the way, expecting to be able to drive all the way to Crater Lake.

Owing to the heavy traffic this year, which has already surpassed all previous records for this time of year, and bids fair to break all former records, it has been suggested that those in charge of Crater Lake use every means possible to clear the road to the lake or furnish some means of transportation as soon as possible, so that the visitors can go up.

Snow along the route would make the trip much more inviting, and would be a novel experience to ride up from here in the middle of summer and pass through lanes of snow, or over it, to the rim, and is said to be at the present time one of the most beautiful trips imaginable.

BUSINESS MEN PLAN SESSION

FOURTH OF JULY PLANS AND SUPPORT OF NEW COMMERCIAL CLUB AS WELL AS OTHER MATTERS TO BE DISCUSSED

The Business Men's Association will meet Wednesday night at eight o'clock p. m. at the city hall. This will be the last meeting before the 4th of July and final arrangements will be made and the committee wants all the members to be there and help this along.

In addition to this routine, it is rumored that a very lively session may develop. A number of the members are inclined to think that the business men do not take enough interest in local politics and the organization may take a hand as a body in straightening out the middle into which conditions have been thrown.

The question of support of the proposed Commercial club will also be taken up. Here again there is said to be rumors of decided opinions both for and against such a club and there may be some interesting talk.

The president announces that all members may be sure that they can talk freely, for he has barred any visitors or reporters from this meeting, which will be for members only.

FOREIGN OFFICE NOT DESIRING INTERFERENCE

NO EXPLANATION OFFERED FOR SUSPENSION

Believed That Anti-American Feeling Expressed in Publication on Lusitania Incident is Reason—American Colony Considers Suspension Significant—Von Tirpitz Formulating Germany's Reply.

United Press Service

BERLIN, June 22.—(Ackerman)—The foreign office here desires to avoid anything that will likely interfere with the peace situation in the United States. This is the interpretation placed on the suspension of today's session of the Deutsche Zeitung.

No explanations are offered, but it is believed that the publication of Count Reventlow's anti-American views on the Lusitania incident in regard to German-American relations is the reason.

The American colony here considers that the suspension of any action is most significant. Von Tirpitz is formulating suggestions for Germany's reply to the American note. Von Jagow is analyzing Gerhard's data as he gathered it in the United States.
