KLAMATH FALLS, OREGON, FRIDAY, JULY 2, 1915

Price, Five Cents

FIVE BRITISH SHIPS SUNK IN ONE BIG HAUL

HIGHEST COUP SINCE THE SINKING OF THE LUSITANIA

Steamer Walsbury Sunk Off Coast at Castleton—Carried Sugar—After Leaving Cuba Warning Discovered Painted Inside Hold, State Members of the Rescued Crew—Held Ship Would Not Reach England.

United Press Service LONDON, July 2.—The British steamers Caucasian, Inglemoor, Walsbury and the schooner Walsbury were reported here today sunk last night by German submarines. It is stated that this is the largest single haul since the sinking of the Lusitania. The schooner Walsbury, which was sunk off Castleton on the coast last night, had been warned, according to members of the crew who were rescued. They state that shortly after they left Cuba a warning painted in large letters on the inside of the hold was discovered, which said: "You have a cargo of sugar for England. You will never get there."

CHAMBERLAIN SPEAKS TONIGHT

SENATOR CHAMBERLAIN LOOKS INTO MATTER OF ANKENY CANAL PROJECT

Senator Chamberlain and Judge Kramer of Portland, a law partner of the senator, were taken over the Klamath Irrigation project this morning, accompanied by J. G. Camp, project manager, W. A. Deibel, local postmaster, and Will Baldwin of the Baldwin Hardware company. The party left this morning, and were taken through the Tule Lake country, Sand Hollow district to the Lost River dam and back to the headgates at the Upper Klamath Lake. The Ankeny canal was also viewed.

Senator Chamberlain is making an extended tour over the state, especially of the interior sections, and is viewing the various irrigation projects in the state. He is investigating the Ankeny canal matter with a great deal of care with Project Manager Camp, and it is possible some provision will be made for the settlement of this trouble between the city and the government, a case now pending in the circuit court over the canal.

Senator Chamberlain was much impressed with his trip over the project, and at the progress that has been made here, as was also Judge Kramer, who was surprised at the magnitude of the project.

They will remain in the city tonight, leaving for Crater Lake tomorrow, being accompanied by a party from this city. Tonight at 8 o'clock Senator Chamberlain will speak in the court house park. Persons desiring to meet him will find him at the White Palace hotel.

One Hundred Forty-Six at U. of O. EUGENE, July 2.—The attendance at the University of Oregon summer school will largely exceed that of last year, when 145 were registered, in the opinion of A. B. Tiffany, registrar. At the close of the first day last year 75 were registered, as against 145 last Tuesday, or more than the total of all last year.

Those attending this year are largely advanced students, including many college graduates and teachers. Professor Chubbly, head of the education department of Stanford University, lectured Tuesday.

President Wilson and Colonel House

Copyright, Underwood & Underwood

President Wilson paid a visit to Colonel E. M. House, his close friend and unofficial envoy to Europe, at the latter's home at Roslyn, Long Island, five days ago. Colonel House has just returned from abroad, and the president's visit was for the purpose of hearing the colonel's report on conditions there. The president was in the latter's home at Roslyn, Long Island, five days ago, and consented to pose with Colonel House for the photographer.

DANCE IN THE AVIATOR SINKS STREET--HURRAH! SUBMARINE U-11

CAN YOU IMAGINE IT? THE HIGH CLASS STUFF ONLY SPILLED IN METROPOLITANS--WHEN? TONIGHT

Listen to that band. Hear it playing right there on Main street. Look here, John; what they doin' there? I really believe that that there couple is going to sing a few right out in the street in front of the whole crowd.

What is this, anyway? Belgian fancy dancers or what? Look a'there! There goes another couple, and another—Gee whis, I guess this is some regular celebration. Everybody doin' it. And right in the street, too.

Hear that music? Ain't it great? I just can't keep my feet still, even if I am gettin' old. Gosh, this is just like old times. I wish I was young again, and could do that there high and sing like we used down on the farm.

Member the old bars, where we used to do all them fancy steps to the smell of new mown hay, the lowing of the herds and the bleat-bleat of the sheep. Say, these here dances don't look much like the old ones, but by golly, the action is there alright. Almost as good as a circus.

Say, John, let's get out and try it, just once. I know they'll laugh, but so are we; so what's the difference. They ain't got nothin' on us. Just once, and then we'll go home.

12 p. m.—Well, John, I declare, I am gettin' just a wee bit tired, and if we're going to get up and see them races in the morning I guess we had better be goin' home. And they say it's goin' to be done agin tomorrow night. We'll be here.

Handit Knocked From Machine United Press Service LOS ANGELES, July 2.—A bandit jumped on the running board of Edward Bennett's automobile today and yelled "hands up!" Bennett, steering with one hand, slugged the highwayman with the other until he tumbled from the machine and rolled in the dust on the North Main street bridge. When the police arrived all they found was a number of the bandit's teeth, lying where he had spit them out.

A. J. LYLE OF THE HOSPITAL IS THIRD CANDIDATE

OUTLINES HIS PLATFORM FOR FOURTH CELEBRATION IS OFFICIALLY OPENED

Promises 100 Cents Value for Every Firecracker and Torpedoes Announces Dollar Expended—Favors Plain Clothes Police in City of This State. Wants a Non-Salaried Board of Public Works Commissioners—He Would Take Over Cemetery.

To the Citizens of Klamath Falls: After due consideration, I hereby announce my candidacy for the office of mayor of the city of Klamath Falls in doing so, I feel that I am competent to fill that office, and, if elected, will see that the business of the city is well looked after.

I will see that the city of Klamath Falls gets 100 cents value for every dollar expended. I will see that the laws are strictly enforced, as they should be, and will pledge myself to the enforcement of same to the letter. I will see that equal rights to all and special privileges to none are given.

I will be at the office at regular hours for the transaction of city business.

The police department has been a bone of contention for some time. I will say that if elected, I will appoint men who will be just and fearless, and who will see that the laws are properly enforced, and I will know that the best end of the town, as well as the east end, is properly policed. I am in favor of the plain clothes man to that of the uniformed officer. The uniform of a policeman gives a crook or criminal who might be in town a chance to "spot" him, and that handicaps the uniformed man in doing good work. In a town of this size, I favor plain clothes men for police duty.

I will state that I am in favor of a non-salaried board of public works commissioners, which will have supervision over and make recommendation to the city council for all improvements.

I am also in favor of the city, if possible, taking over the cemetery, and that same be put under the supervision of a board of park and cemetery commissioners. Something should certainly be done regarding our cemetery.

I am also in favor of immediate action in regard to the Ankeny canal. I believe there is a method which can be followed which will eliminate this nuisance.

I am in favor of a proper system of sanitation, and will see that the sewers and drains are properly looked after, and that other improvements for the benefit of health conditions here are made.

I am in favor of a road which will

RACES ATTRACT CROWDS TO SIDE LINES ON STREET

THE GLOSTERIOUS FOURTH IS HERE. INDIAN RACES TONIGHT AT SEVEN O'CLOCK—LARGE CROWD EXPECTED TO BE HERE TOMORROW—BUILDINGS ARE DECORATED—PIG WILL BE SHAVED.

The big celebration started off this morning nearly on time, and from then until noon there was not an idle moment. Much interest was displayed in the track, and humorous events staged on the Main street and the city is beginning to fill with visitors. Several hundred people lined up along the sidewalks to watch the races. Firecrackers and torpedoes were heard from all parts of the city which is Young America's opening of a Fourth of July celebration.

Due to the softness of the pavement it was deemed necessary by the committee in charge of events to change the roller skating races to a boys' bicycle race and a boys' running race, which were held today and will be held tomorrow. The tug-of-war was postponed until tomorrow because of the failure of the outside teams to arrive today, and will be held tomorrow on schedule time.

The Indian races scheduled for this morning will be held tonight, starting at 7 o'clock and preceding the other events on the program. The failure of the train to arrive this morning before noon from Kirk prevented the Indians from being here on time. However, they arrived this afternoon and will be ready tonight.

A \$1 can of M. J. B. coffee was put up this morning for the first man making a home run in the baseball game this afternoon by A. A. Mitchell of the M. J. B. Company, who is in the city. A pound of their best tea was also placed for the first three-bagger secured.

Everything is in readiness but the final touches on the cooking of the meat for the big barbecue, and the committee is prepared to feed between 2,000 and 3,000 people at the court house park tomorrow at noon. Hundreds of pounds of M. J. B. coffee have been donated by this company for the barbecue, which has arrived and is being prepared for the crowds. Joe Howard arrived last night from Redmond, and is assisting George Watt in the preparation of the meat, which is an interesting sight in itself. The furnaces have been located on Spring street, just off Sixth street. It is necessary to cook the meat forty-eight hours or longer to properly pro-

cess the meat.

Wife of New Secretary of State

Mrs. Robert Lansing

Mrs. Lansing, wife of the new secretary of state, is well equipped for the leadership of the cabinet circles in social affairs. The social duties are not new to her, for her father, John W. Foster, was secretary of state during the Harrison administration. Mrs. Lansing is a striking and unusual woman. Much of her husband's success is attributed to her business and rare tact.

CRATER LAKE TIMBER OFFERED

2,120,000 FEET IS BEING ADVERTISED FOR SALE FOR NOT LESS THAN ONE CENT PER THOUSAND FEET FOR THE BEST

(Herald Special Service)

PORTLAND, July 2.—The forest service is advertising for sale 2,120,000 feet, board measure, of timber, about 90 per cent of which is western yellow pine and the rest is sugar pine, Douglas fir and white fir, all located upon the Crater National forest in Southern Oregon.

The tract, which is called the Malone Springs area, is more particularly described as in Sections 10 and 11, Township 35 south, Range 6 east, Willamette Meridian, near Upper Klamath Lake. No bid less than \$2.35 per thousand feet for western yellow pine and sugar pine, and 50 cents per thousand feet for Douglas fir and white fir will be considered.

According to the terms of sale, the timber must be cut conservatively, so that the forest may be perpetuated, and so that the roadsides will not be made unattractive to the many vacationists who summer in the region. It is the expectation that the logs from this area will be hauled on horse trucks to Crystal Creek and then towed across Klamath Lake to the mill.

Would Rather Walk

United Press Service LOS ANGELES, July 2.—Rather than be bored with Pullman car, Nicholas Hoffman, his wife and son, started on a stroll to San Francisco, carrying their belongings in a push cart.

An Effective Robber

United Press Service LOS ANGELES, July 2.—Mrs. J. Cooperman spotted a burglar early today by dashing a bucket of boiling water in his face. He was just climbing through the window when the steaming water hit him.

SUBMARINE WAR CAUSES FEARS FOR THE LINERS

ADRIATIC SAILED WEDNESDAY, AND WARNINGS RECALLED

Tips to Big Vessels Which Sail for Britain Are Recalled in Recent Reports of Submarining on Large Scale—Believed Warnings Sent to Strike Terror to Ship Owners—The Adriatic Said to Be Protected.

United Press Service

LONDON, July 2.—Coincident with the renewal of submarine warfare by the Germans on a large scale, British vessels leaving America are being tipped off and warned against submarines similar to the warnings received by other vessels before sailing. Fears are felt for the safety of the liner Adriatic, which sailed Wednesday, and warnings issued before she sailed recall the warnings issued shortly before the Lusitania left port.

The admiralty has not commented, but precautions have been taken to protect the ship after she leaves the war zone. Officials here state that they believe the tipping system is instituted by the Germans in one of von Tipton's plans to strike terror to the hearts of large ship owners.

United Press Service

NEW YORK, July 2.—The Admiralty today issued a warning to British ships that the Adriatic, which sailed from New York Wednesday, is being tipped off by the Germans.

It is denied that she carried contraband of war, and it is asserted that Germany would have no reason for sinking her. Premier Borden of Canada is aboard the ship, in company with eight American passengers, including F. H. Lake and wife of San Francisco.

LAKE COUNTY PROJECT DONE

IRRIGATION SYSTEM WILL FURNISH WATER FOR FIFTY THOUSAND ACRES—EXTENDS INTO CALIFORNIA

LAKEVIEW, July 2.—After being under way for six years, the system of the Goose Lake Valley Irrigation company is now completed with the exception of running a few laterals, and water is now ready for 50,000 acres of land in Lake county, Oregon, and Modoc county, California.

Irrigation and intensive farming are making a garden out of the valley, which is partly in two states. The project covers an irregular valley about ten miles wide by twelve miles long.

It extends along the west shore of Goose Lake, which is about ten miles wide, and extends across the California line.

The reservoir, which is under way in circumstances, will hold water to irrigate the entire project for two years without being replenished. It is filled by water from Drews Creek, fed by springs and snow. The valley has been transformed into a great lake by the construction of dams.

United Press Service

LOS ANGELES, July 2.—A mysterious fire started from the top of a school building in Los Angeles at 7:25 p. m. today. At 10:30 p. m. the fire was under control.
