

U. S. WARSHIPS ARE ORDERED TO GO TO VERA CRUZ

PRESIDENT SUDDENLY ENDS HIS VACATION

Two Battleships Receive Mailing Orders to Leave This Afternoon for Vera Cruz—Rest of Atlantic Fleet Ordered to Be in Readiness for Departure at Moment's Notice.

United Press Service NEWPORT, Aug. 10.—The United States battleships New Hampshire and Louisiana received their "sailing orders" for Vera Cruz today. They are loading provisions and preparing to sail this afternoon. The Louisiana is the flagship of the North Atlantic fleet. Rear Admiral McLane commanding.

United Press Service CORNHIS, Aug. 10.—President Wilson has decided to end his vacation immediately and return to Washington, presumably on account of the Mexican crisis. It is reported that Admiral McNamee at Vera Cruz requested that he dispatch warships to protect the foreigners in Mexico, and it is understood that the vessels will be ordered south by night if not already done.

United Press Service WASHINGTON, D. C., Aug. 10.—It is believed here that the navy department has ordered the New Hampshire and Louisiana ships to Vera Cruz and the rest of the Atlantic fleet to be prepared.

The trouble over Carranza is deemed imminent. Officials admit that the anti-American feeling is growing in Vera Cruz. Carranza is hastening his preparations to go to Mexico City. It is feared that when he is there and is declared provisional president, a defiance will be issued to America which will be a signal for a demonstration against all Americans there.

Commander McNamee of the gunboat Sacramento has reported that the Carranzistas are holding mass meetings in the streets at Vera Cruz, and are denouncing all Americans and foreigners. Carranza's attitude forebodes a desperate resistance.

The expulsion of Guatemalan Minister Ortega resulted from a quarrel with the Brazilian minister. It is believed that the holding of Henry Francis, American correspondent, is possibly intended to precipitate a crisis. It is reported authentically that the navy department requested the president to send more war ships there, but he did not want to act without orders while the Pan American conference was in session.

United Press Service WASHINGTON, D. C., Aug. 10.—It is reliably stated here that all commanders of the Atlantic squadron have been ordered to hold their ships in readiness for immediate service in Mexican waters.

Man Who Is Pressing the Russians, and His Kaiser

Kaiser Wilhelm

General von Mackensen

Here is the man who did the most toward taking Warsaw and surrounding the great Russian army now in retreat. General von Mackensen is pressing hard on the left flank of the Russians, and has already taken Lublin and Cholm, both far east of Warsaw. He is trying to cut off the retreat of the Russians from the city from which General von Hindenburg is now driving them. This photograph was taken recently while the kaiser was visiting on the eastern front.

BILLS, PERMITS, ORDINANCES, ETC.

CITY COUNCIL DISPOSES OF HOST OF SMALL BUSINESS AND DISCUSES IMPORTANT QUESTIONS AT LAST NIGHT'S MEETING

The bill presented at the last meeting of the council by the Baldwin Hardware company for two prison locks and keys for \$85 was allowed after a committee had investigated the amount and found it to be correct. A building permit was allowed Chas. I. Roberts to erect a sleeping porch on his house on lots 8 and 9, block 9, Paine alley.

F. E. Stahlman tendered his resignation as street commissioner to the council, which was accepted. A liquor license was granted to G. B. Cozad, proprietor of "The Smoke," for the remaining months of the year, until January 1, 1916, when the state goes dry.

The ordinance providing that minors under the age of 18 shall not be permitted in pool or billiard rooms. That they shall be closed from 12 o'clock midnight until 6 a. m., passed its final reading. The ordinance places the final on both the proprietor and the boy.

A remonstrance to the passing of an ordinance regulating and licensing automobiles for hire in the city was filed. The matter of promiscuously cutting the pavement came up for discussion and was referred for investigation in regard to the necessary bond heretofore required, and proposed notification of the city engineer, who can then properly supervise the work. A hole in the pavement in front of the Klamath stable and one on Sixth street were complained about.

BOYS GUILTY OF ROBBERY

MCCARTER MAKES QUICK CAPTURE—GOODS CACHED UNDER HERALD OFFICE—OTHER BOYS THOUGHT IMPLICATED

Policeman McCarter was in possession of one of the boys implicated in the Sugar Bowl robbery, which took place Sunday night, within twenty minutes after he was put to work on the case by Chief Baldwin, and today another boy was taken in charge and "fessed up." The facts of the case were known yesterday, but kept quiet, as it was thought other boys were implicated in the job.

Ted Montgomery and Roy Beach are the boys implicated.

By cutting a screen, rousing in and turning a key, the boys made their entrance into the basement of the Sugar Bowl, and took several dollars worth of stuff, including two bottles of grape juice, two cartons of cigarettes, one of gum, two of crackers, one of Hershey bars. The stuff was placed under the Herald office by the boys.

The Montgomery boy was first approached, and while talking to him Chief Baldwin spied a package of cigarettes of the brand stolen, the supply in the Sugar Bowl basement being the only place in town where they are sold. After a hard sweating he finally broke down and told of the robbery. Their case is under consideration.

Plot to Kidnap Church Head

(Copyright, Harris and Ewing.)

Because of the report of a plot to kidnap Joseph F. Smith, the venerable head of their church, Salt Lake City Mormon leaders arranged to guard him.

"This news is the most startling and unexpected thing I have heard in many years," said Bishop Smith, son of the president of the church. I had no previous intimation that such a plot existed. I am not prepared to say that there is no basis of truth to the plot, but I am positive that it was unknown to me until this minute.

According to reports in Federal circles, three or more outlaws had planned a campaign of crime, from holding up Yellowstone Park stages and blackmailing prominent men, to kidnaping wealthy ranch men, and finally Smith. The same bandits were supposed to have held E. A. Emery in the wild country along the Wyoming-Idaho line, demanding \$6,000 in gold from his relatives. Emery disappeared from his ranch near Idaho Falls.

The recent holdup of New York tourists in Yellowstone Park, when several bandits obtained loot estimated at \$4,000 from passengers in a stage coach, is attributed to the same gang.

CITY DADS START CLEAR OF DEBT

DROP SIXTH STREET PAVING IMPROVEMENT ON RECOMMENDATION OF CITY ENGINEER AND DESIRE TO KEEP OUT OF DEBT

The matter of improving Sixth street was dropped without action by the city council last night, following discussion and inspection for several weeks, on the report of City Engineer Zumwalt that the street would not deteriorate more than 10 per cent in the next winter.

It was found that there is no fund for keeping of these streets in repair, and rather than draw warrants payable next year on a fund to be created in the next budget, which seemed to be the only way of paying for such work, the city council concluded to drop the matter until next year.

It is also desired to test out these streets, oil macadam being an experiment here.

BULGARIA WILL ATTACK TURKEY FOR TERRITORY

IS WILLING TO FIGHT AT ANY COST, IS STATEMENT

Bulgaria Will Attack Constantinople if Serbia Will Cede Serbian Macedonia to Her, Is Statement of Bulgarian Minister in United Press Interview—Demands That Bulgaria Is Demanding Constantinople as Price

By HENRY WOOD (Staff Correspondent United Press) (Copyright 1915)

SOFIA, via Berlin, Aug. 10.—Bulgaria will attack Constantinople if Serbia will cede Serbian Macedonia to her, is the statement made today by V. Radoslavoff, Bulgarian premier, to the United Press. He demanded that they are demanding Constantinople as their price, adding: "Their fears are groundless. There are many international commercial and political responsibilities attached to a city occupying Constantinople's geographical position. They are too great. We will fight for a single end, to extend our frontiers until they embrace the people of our own blood. But that end must be granted us beyond a doubt. If we are asked to fight alone, we are ready. If asked to fight with Greece, Serbia or Roumania on the side of the allies, our willingness remains."

NUISANCE WAR IS DECLARED

CITY COUNCIL STATES DESIRES AND INTENTIONS TO CLEAN UP CITY ON RECOMMENDATION MADE BY HEALTH OFFICER

A campaign for the cleaning up all objectionable and unhealthy substances in this city was declared by the city council last night on recommendation and co-operation of City Health Officer Dr. Trux and Chief of Police Baldwin.

The nuisance ordinance was looked into and found to adequately cover the situation in regard to nuisances, sewer connections, garbage cans and general conditions of the city.

It was the sense of the council that the owners of such places be given written notice where a nuisance exists in the opinion of the health department composed of the city health officer, chief of police and the mayor, and that if it was not remedied to their complete satisfaction in the specified time, they are to be arrested and penalized as the ordinance provides, with not less than \$5 nor more than \$100, or not less than two days nor more than fifty days in jail.

The use of sawdust is highly commended by Dr. Trux for use in covering places where refuse has been dumped. The sewer ordinance covers the connections which are supposed to be made within certain limits.
