

CARRANZA WARNS AMERICA NOT TO INTERFERE THERE

NOTE SENT TO LANSING AND PAN-AMERICANS

Advises Lansing to Cease Mixing in Mexican Affairs—Also Notified Pan American Conference to Keep Countries Out of Conference—Take Course Until One or Other is Triumphant—Names Oliveira.

United Press Service WASHINGTON, D. C., Aug. 11.—General Carranza has sent a note to Secretary of State Lansing, advising him to cease adding to the Mexican troubles, and also notified the delegates from South America to the Pan American conference that they had better keep their countries out of the conference.

As a closing remark he said: "We will continue on this course until one tactics or the other is triumphant."

Minister Oliveira of Brazil, who represents Americans in Mexico City, is criticized as one of the persons who brought greatest evil on Mexico, and who in a certain way is responsible for the present state of our relations with America.

He stated that the constitutionalists are alarmed at the tone of the American press and Lansing's own utterances.

CAN DISPOSAL OF DOGS BE MADE?

CITY ATTORNEY SAYS KLAMATH HAS NO ORDINANCE TO THAT EFFECT—HIGH COURT HOLDS SALEM ORDINANCE ILLEGAL

Klamath Falls does not have an ordinance providing for the killing of dogs impounded, according to City Attorney Greenbeck. A general impounding ordinance provides for loose animals, but dogs are not mentioned, specifically or generally.

The supreme court recently held that impounded dogs could not be killed on account of being personal property, the case coming from Salem. As a result Salem has a new ordinance providing for the notification of the owner before killing, which is believed will make the ordinance legal.

Greenbeck is working over the ordinance, and will revise the old one or submit a new ordinance providing for the disposal of the dogs in this city.

MOVIE FILM GETS MORE SUPPORT

PORT KLAMATH PROMISES COMMERCIAL CLUB \$25 FOR MAKING OF MOVING PICTURE FILM FOR EXHIBITION

Word has been received from Fort Klamath by the Commercial Club that \$25 will be donated towards the procuring of moving pictures of this section of the country for display at the Panama-Pacific Exposition at San Francisco. The donation comes freely, and it is believed that more money can be procured by soliciting.

Bonanza offered \$25 recently for the film. Secretary Fleet of the club is taking the matter up, and within a short time a definite report can be made on the proposition.

The film is to be used in a specially prepared place at the fair for this purpose, and afterwards will be sent over the entire country for display.

It is understood that the water users are to take the proposition up, and it is believed that the money necessary for the procuring of the film will be obtainable in a short time, \$250 being the amount necessary.

A telegram from Phil Sinnott, Klamath's representative at the fair, yesterday stated that he would be willing to give up his last month's salary and return home a month earlier, in order to make sure of the film of Klamath county being put on display at the exposition.

Will Settle the Fate of Mexico

EDWARD SAUREZ, Minister from Chile

DON DOMINGO DE GAMA, Ambassador from Brazil

DON RUBEULO DE NAON, Minister from Argentina

ROBERT LANSING, Secretary of State

Robert Lansing, secretary of state, called a meeting of the three ministers to the United States from the principal South American countries, and the three ranking ministers from Central and South America to a conference for Thursday, August 6th, on the Mexican situation. It was freely predicted that the administration, having abandoned its policy of watch-

ful waiting, intends to compel peace in Mexico. The purpose of the meeting was said to be to convince the South Americans that the United States did not intend conquest of Mexico in whatever forcible measures it took. The ordering of the United States battleships New Hampshire and Louisiana to Vera Cruz is considered significant.

preme at the exposition today. This was their day. Thousands of members of the order poured into the grounds to celebrate the twenty-fifth anniversary of the founding of the order.

KLAMATH ASKED TO SEND THEIR PRODUCTS TO FAIR

THOSE SENT ATTRACT ATTENTION AND ARE GUARDED

Few Persons in County Are Sending Products for Klamath Exhibit at Fair, and These Are Attracting Attention of Visitors—Crowds Are Greatest Now and Season is Favorable for More Products.

(Special to The Herald)

SAN FRANCISCO, Aug. 11.—If Klamath county does not get its share of real advertising out of the Panama Pacific Exposition it will be no fault of Percy Evans of the Sunset Grocery. He has taken upon himself the job of keeping the Klamath booth in the Oregon building well supplied with vegetables, and so well is he succeeding that the displays he sends down are attracting widespread attention and admiration, not only from Easterners, but from Californians and Oregonians as well.

The first addition to the Klamath display in the way of fruit was sent by Mrs. Della F. Arnold in the shape of a quantity of Sir Francis cherries. These cherries proved so tempting that it was necessary to put them out of the reach of admirers—to look at, but not to eat. The keeping quality of the cherries was somewhat of a surprise. The fruit was in the finest kind of condition after being displayed for three weeks.

Within the past few days the Fort country has sent two cheeses from the Loozley factory to the Klamath booth, and Martin Bros. of Klamath Falls and Merrill have further helped by a shipment of the various brands of flour they manufacture. Monday morning a convincing addition to the collection was received, the silver loving cup won for forage crops at the Sacramento Irrigation Congress.

But even with these additions, the display Klamath county has assembled to attract the attention of home-seekers and investors can be flattered exceedingly by being described with the term "mediocre." Before it does the county justice many additions must be made to it—and the time of closing the fair is rapidly drawing near.

With the harvest season at its height, Klamath farmers should have no trouble in getting some excellent samples of grains and grasses to send to the fair, nor should it be hard to find vegetables in Klamath now which will compare favorably with anything entered for competition at the exposition. The Klamath Commercial Club will be glad to forward any products that may be brought in.

More Riots Feared in Colorado

ELDORA, Colo., Aug. 11.—"No men wanted," is a sign that might adorn a certain beauty spot on the hills hereabouts today. All men want to see it very much.

Minus stockings and garbed in scant Greek costume, beautiful young women dance on the green sward.

Of course, there's nothing to speak of when the girls go swimming on Lake Eldora, screened from men's vulgar eyes.

They are worshipping the goddess of beauty in the human form divine up here. In a camp established by Miss Portie Sweet of Chicago and the Misses Marjorie and Charlotte Perry of Denver, disciples of the Duncans, a score or more of society buds from all sections of the country are getting "close to nature."

The camp will break up this week to reopen next July. The weather here in late August is rather rigorous for Greek costume and stockinged prancing.

"We have no use for men on this expedition," said Miss Marjorie Perry before the campers came up here.

United Press Service WASHINGTON, D. C., Aug. 11.—Secretary Daniels has announced that the battleships Louisiana and New Hampshire will join the Connecticut from Cape Haytien.
