## RUSSIANS NOT OUSTED FROM GALICIA YET

WAR EXPECTED AT FRONT IN TWO DAYS

Austrians and Germans Are Defeated Before Tarnopol in Attempt to Oust Russians From Galicia—Russians Counter and Forced Them to Retire to the West—Over 200 Officers and 8,000 Men Lost by Teutons.

United Press Service  
PETROGRAD, Sept. 9.—Two German divisions and Austrian brigades of heavy and light artillery were defeated before Tarnopol in an attempt to oust the Russians from Galicia. The Russians countered, driving them westward. The Austro-German losses yesterday were over 200 officers and 8,000 men. Similar successes are reported elsewhere.

United Press Service  
PETROGRAD, Sept. 9.—Czar Nicholas is expected at the front within the next two days. Duke Nicholas left for the Caucasus last night, the Czar accompanying him to the station, where he gave him an affectionate farewell.

## CITY DAD NEARLY GETS PINCHED

INDIAN PASSENGERS IN STATE OF INTOXICATION LEAD TO SEARCH AND BOOZE IS FOUND—TALKS HIM OUT OF IT

Councilman A. D. Miller is congratulating himself and feeling pretty lucky that he is a free man, without any of Uncle Sam's apron strings attached to him at the present time. He might be facing a rather serious charge in the federal court in Portland.

A. D. had to make a trip to the Fort country this week to call on his trade customers, and thinking that he might as well make his expenses or a little better, he secured the passage of several Indians from this city to the reservation.

On the way up a federal officer was met, who noticed that the Indians seemed to be somewhat under the influence of liquor. A search of the car followed, and a quantity of booze was found.

Miller had to do a lot of talking to prevent the officer from placing him under arrest, but he finally managed to convince him that the booze was not in his custody.

Get Deer in Short Time  
J. M. Johnson and R. A. Wilson of the Klamath Falls Creamery returned this morning before noon with a fine five point buck, killed between here and Round Lake. Mr. Johnson was the lucky man. The deer weighed 168 pounds dressed. They left here about 6 o'clock this morning and were back before dinner time.

## Society Woman Is Held for the Murder of Her Husband

(c) Underwood & Underwood.

Mrs. C. Franklin Mohr

Mrs. C. Franklin Mohr a Providence society woman, is the central figure in one of the most remarkable murder cases the country has known. She is now in jail in Rhode Island on the charge of having promised three negroes \$5,000 to murder her wealthy husband and his secretary, Miss Emily G. Durger. Doctor Mohr was shot to death on the night of August 31, while on his way with Miss Burger in an automobile from Providence to his Newport home. He was killed and Miss Burger was dangerously wounded. The negroes, one the chauffeur who was driving the pair, have confessed, and accused Mrs. Mohr. This letter to George Rooke, brother-in-law of Miss Burger, said to have been written by Mrs. Mohr, has been discovered:

"Dear Mr. Rooke—Just a line to ask you to tell your sister if she dares to go into my Newport home she will never come out alive. I am giving her

fair warning, no matter what the outcome may be. I will see it through. I was told about her buying linen at Gladding's (a Providence department store) for Dr. Mohr.

"I do hope you will try and straighten this matter out, and I know you cannot stop her going out to dinner with him. But she will have a sad ending if she keeps on against me.

"My home is being watched, and if I should leave Newport this summer my home will be watched just the same, and should I get word I shall come right on. The world is with me in my sorrow. I am heartbroken."

In trying to learn the exact motive for the murder the police of Providence do not know whether it was merely jealousy or a desire on Mrs. Mohr's part to have her husband out of the way before his suit for divorce could possibly be won, and thus deprive her of a large share of his property.

## ASTORIA MACHINE HIT AT MONTAGUE

TRAIN NO. 16 SMASHES CAR STALLED ON CROSSING AND FOUR DIE ON HONEYMOON TRIP AS A RESULT

MONTAGUE, Sept. 9.—A honeymoon party on route to the exposition, and consisting of A. Y. Anderson of Astoria, his wife and mother, Mrs. Margaret Anderson, and Aaron Anderson, a cousin, were struck by Southern Pacific train No. 16 Tuesday afternoon, at Granada Crossing, six miles from this point. Aaron Anderson and the elder Mrs. Anderson were instantly killed. A. Y. Anderson was still alive when a physician from the train rendered first aid, but he passed away thirty minutes

later, before the train reached Montague. Mrs. A. Y. Anderson lived but a short time longer, dying before she reached the hospital at Yreka.

The party started from Astoria, Ore., where A. Y. Anderson was collector of the port. An eye witness states that the driver of the car evidently undertook to stop his car and reverse when he saw the train almost upon him, and that he killed his engine directly in the path of the train.

The highway at this point makes an abrupt turn, and the approach of a train from the south is not noticeable until a machine is within a hundred feet of the track, because of an intervening tool shed and a row of trees. The impact threw the car against a telegraph pole twenty feet away, while the occupants were thrown from thirty to sixty feet from the pole along the right of way.

Russians Held on Dwina

United Press Service  
PETROGRAD, Sept. 9.—The Russian artillery prevented the approach of the Germans on the left bank of the Dwina River.

## MENACE SEEN IN DISEASES OF VITAL ORGANS

LOCAL TO AMERICA, DECLARED BY DOCTOR

Alarm Sounded by American Public Health Association—Doubling of the Mortality Rate From Disease of Vital Organs Held Matter of Serious Concern—in Ten Years Increases Thirty Eight Per Cent in Some States

United Press Service  
ROCHESTER, N. Y., Sept. 9.—Various alarms were sounded today by the speakers before the annual session of the American Public Health Association, attended by public health officers and medical men from all parts of the United States. Probably the most startling statistics presented were those offered by E. E. Rittenhouse of New York on "Increasing Organic Disease," which, he declared, is the new public health problem.

"The increasing waste of American vitality and life from the degenerative diseases among wage earners and other classes is rapidly reaching the magnitude of a national menace," said Dr. Rittenhouse. "Surely the doubling of the mortality rate from this cause should be a matter of serious public concern."

"In three decades the death rate from the breaking down or wearing out of the heart, arteries and kidneys has increased 100 per cent. In the period from 1900 to 1910 the increase has been as high as 38 per cent in some states, and no less than 17 per cent in every state. In the preceding ten years the increase was 53 per cent among the more than 4,000,000 men in mechanical industries and in the laboring, servant and agricultural classes combined."

The condition described, said Dr. Rittenhouse, is local to America, not being found in European countries.

"There are constantly approximately 15,000,000 Americans in the 'development period,'" said the speaker. "This period ranges from a few weeks to several years in which the disease may be checked or cured. Most of these people are drifting into disease unknowingly. They are uninformed, unwarmed. If the state can afford to fight germ diseases, why not degenerative disease? If it can teach community hygiene to check one, why not individual hygiene to check the other. Action is needed."

Dr. Eugene Lyman Flak of New York said that in 1911, 130,000 persons died of chronic disease of the vital machinery—all preventable or postponable. The figures reflect widespread degeneration, impairment and premature decay, he said. He recommended: (1) Avoidance of physical or mental overstrain (2) moderation in eating, especially of meat (3) avoidance of stimulating, highly seasoned food; (4) abstinence from alcohol and tobacco; (5) regular exercises within the individual's limits.

Peer Lo Needs 'em

United Press Service  
SAN FRANCISCO, Sept. 9.—Because he's got only one good tooth in his head, and feels he needs a real set for the happy hunting grounds, Chief Too-Many-Feathers (and too few teeth) called at the exposition dental congress and asked for some new gold ones. The 50-year-old Indian objected strenuously to the doctors' order for the removal of that last evidence of a once noble set of molars, but finally submitted.

"I need strong ones in the next world," he said, "and I want the pretty shiny ones."

## CITY'S CASE TO BE INVESTIGATED

PUBLIC COMMISSION OF STATE WILL VISIT THIS CITY FOLLOWING HEARING AT SALEM, TO PERSONALLY VIEW SITE

The public utilities commission of the state will make a personal visit to this city, following the hearing to be held at Salem Monday, September 13, on the complaint filed by the city of Klamath Falls against the light and water company to look the local situation over and investigate the charges, according to a communication received by Rollo C. Groesbeck, city attorney.

The visit here will be made in order to hear at first hand the complaints of local people who have registered them with the city officials against the California-Oregon Power company. At the time of their visit any persons who have complaints to make against the company in the matter of discriminations in rates, over charges or other matters will be given an opportunity to appear before the commission.

Mr. Groesbeck will be in Salem to attend the hearing, which is to be held jointly for a number of cities in Southern Oregon, including Medford and Grants Pass, in order to cut down the expense of holding separate hearings over the state. Similar complaints were filed with the commission by the other towns as did this city.

## DEBRIS IS TO BE CLEARED FROM F-4

TWO MORE BODIES FOUND, BUT NOT IDENTIFIED; NO DISPOSITION MADE OF REMAINS; EXPECT TO FINISH WORK TODAY

HONOLULU, Sept. 9.—Two additional bodies were found today in the engine room compartment of the bulk of the United States submarine F-4, which was destroyed in Honolulu harbor on March 25, and which now is in drydock here.

The condition of the bodies was such that identification was impossible. The officials in charge said that they hoped to have the hull cleared of debris today. It has not been determined what disposition shall be made of the bodies recovered.

## LOCAL TALENT TO APPEAR HERE

MOVIE BENEFIT BEING WORKED OUT BY SECRETARY FLEET OF COMMERCIAL CLUB AND LOCAL ARTISTS DESIRED

A big show is being planned by Secretary Fred Fleet of the Commercial Club for the date of the movie benefit that is to be given here in connection with the presentation of the movie pictures now being made for the exposition.

C. R. Miller, local photographer and movie man, has been working night and day with his movie machine and automobile to get the pictures in shape and ready for the fair as soon as possible. It is planned to have them at the fair by September 15th.

In the meantime the benefit will be held at the opera house, which J. V. Houston has offered without cost, in order to help defray the expense of producing the film. In order to provide some attraction other than the pictures, some features will be added to the program, and a number of local musicians will be asked to assist in the benefit.

## HEART OF LONDON AND TRAFALGAR SQUARE REACHED

Negros Confess and Then Deny

Upper—George W. Healis, chauffeur; middle—Ceclil Brown, former stable boy; lower—Henry Spellman.

The three negroes who confessed to having killed Dr. Mohr, but who have denied it now. A new turn in the case has been taken, as they now refuse to talk, and it is believed that high society folk fear the presence of Mrs. Mohr on the stand. They are afraid that old family skeletons may be brought to light, as Dr. Mohr was the family physician of many of the oldest families in the state. The negroes say they have said nothing, and maintain it. It is feared that unseen forces are working to have it hushed up.

Aviators Are Active

United Press Service  
PARIS, Sept. 9.—French aviators dropped six bombs on aviation camps at Modard and Dieuse. French and British aviators bombarded the Ostend camp. German aviators bombarded Nancy and the Plateau Nalzeville, killing several.

## FAMOUS SPOTS SUFFER FROM A ZEPPELIN ATTACK

AMERICANS THERE AT THEIR OWN RISK

Reports Meagre, as Are Concessions by English, But Indications Are That Important Raid Made—Believed the Greatest Event of War and Perhaps History's Greatest Destructive Occurrence—Many Fires Started.

United Press Service  
NEW YORK, Sept. 9.—That German Zeppelins raided London itself is indicated in press dispatches received from England. It is believed that Trafalgar square was reached.

A large portion of the American colony is in that vicinity, as the Metropolitan, Grand and Victorian hotels are popular with Americans, and are located on or near the square.

Last night's attack is believed to have been the most destructive event of the war, and perhaps of history. The extent of the property loss is being censored by England, but many fires are known to have occurred in London.

United Press Service  
CHICAGO, Sept. 9.—The Daily News received a cablegram from their London correspondent which said: "Word and offices safe. All well." The message is regarded as evidence that the Zeppelin attack last night was effective in or near the heart of London, as the Chicago Daily News office in London is located on Trafalgar square, near the St. James Palace, Westminster Abbey, the parliament building and Charing Cross stations.

United Press Service  
LONDON, Sept. 9.—It has been announced by a press bureau here that 108 persons were killed in the raids last night. Twenty known dead were killed in London and 88 wounded. All the casualties were civilians with the exception of one soldier killed and three wounded.

The dead are twelve men, two women and six children wounded, forty-eight men, twenty-seven women and thirteen children.

United Press Service  
LONDON, Sept. 9.—It is announced that two separate raids by air occurred in the eastern counties last night. The details will be given when they are received.

United Press Service  
PARIS, Sept. 9.—Zeppelins bombarded the suburbs of Paris last night. No details have been given out yet.

United Press Service  
WASHINGTON, D. C., Sept. 9.—All Americans are in London at their own risk, in the view taken of last night's air raids in London, according to members of the state department. London is undoubtedly a legitimate city, officials said, and the attack is justified under international law. Foreigners are taking their own chances.
