PRINCIPLE OF PROTECTION

BY maintaining a blockade, Great Britain has compelled Germany to supply her own needs and has prevented her from spending money abroad.

Shutting out foreign goods and keeping money at home to pay for home labor is the secret of national prosperity.

POOR BUSINESS

SOME time ago, when it was announced that Charles Schwab was about to sell orders for submarines and boats for the allies in this country, such pressure was brought to bear on him by the administration and the press propagandists that Mr. Schwab decided to change his plans.

We now learn that the Electric Boat company, in which Schwab is interested, has contracted to build 550 high-powered gasoline launches at \$40,000 each, and these boats are to be constructed in Halifax.

Thus a contract calling for \$22,000,000 is to be filled outside the United States, and no part thereof will go to American labor.

Moreover, had this contract been carried out in the United States we would soon have the machinery and the capacity to turn out submarines and submarine antagonists—the purpose for which these launches are to be used—greater than that of any other country in the world.

This is another illustration of the administration's short-sightedness.

"There is no country on the globe more able to pay more taxes than the United States," says Secretary McAdoo, and before the democrats are retired from control perhaps no other country in the world will pay as much.

Scattered Shots

"IF YOU buy out of town, and we buy out of town, what in thunder will become of our town?" says a sign on the city editor's desk.

FRED FLEET, the well known Commercial Club guest, flitted away up to Crater Lake today with a delegation of the S. P. officials.

IT LOOKS like Uncle Sam is going to have a mortgage on the rest of the world when the war clouds roll by.

Busch's multimillion men, inflamed with their idolatry of their little, feeble czar, seem to have their simple hearts even more in the conflict since the fall of Warsaw.

THAT POLISHED and popular bandit, Mr. Hooper, is said to be hooping around these parts again—now sojourning with the Indians and now elsewhere.

THESE SEPTEMBER times—brisk and cool in the morning, warm and bright at noon—and the days gold-

ened and the nights sweetened by the ripening grain, are unequalled in the universe.

WE SAW Councilman Mathews bolting around the streets the other day in his old clothes, and after observing him at the council meeting all topped up, as befits a Klamath Falls strategic guide, we didn't know it was him.

RISE IN STANDARD OF ADMISSION CAUSES IMPROVEMENT IN THE QUALITY OF STUDENT BODY AT AGRICULTURAL COLLEGE

(Special to The Herald) OREGON AGRICULTURAL COLLEGE, Corvallis, Sept. 16.—The school year at the Oregon Agricultural College opened this morning for matriculation and entrance examinations.

Owing to the press of registration work it is not possible to make up reports at this time, but every indication points to a record year for enrollment in both the degree and the vocational courses.

Germany has suggested to President Wilson, through Chancellor Bethmann von Hollweg, in reply to an inquiry as to the possibility of making peace, that the United States elicit from England, France and Russia the terms under which they would discuss peace.

DOGS PLAY BIG PART IN THE WAR

ITALIAN MASTIFFS BATTLE FOR MASTERS—RENO, WHO SAVED LIQUENTANT, WEARS MEDAL FOR VALOR

By ALICE ROHR (United Press Staff Correspondent)

ROME, Sept. 8.—(By mail)—Reno is a real dog of war—not one of those symbolical dogs of war which typify the destructive onslaught of conflicting enemies.

The Italian war dogs are largely mastiffs. Reno is a big white "molosco" (mastiff) and is typical of all these faithful four-footed soldiers.

Reno saved his master, a lieutenant, in a hand-to-hand conflict in Cadore. In consequence he is the pet of the regiment.

LIKE th' Irishman sez: "One man's ez good ez another an' a durn sight better." Anyway, one man can't get no better tobacco 'n another ef they both get VELVET. VELVET, The Smoothest Smoking Tobacco, combines the smoking qualities that gave Kentucky Burley its title of "Nature's Pipe Tobacco," with an exclusive VELVET aged-in-the-wood mellowness.

AN EYESIGHT TALK

I wish I could talk to you face to face and urge upon you the necessity of taking every possible care of your eyesight.

Do you know that seventy-five out of every 100 persons have defective vision, and that Eyesight Defects (if allowed to go unremedied) cause defective work, irritation and dissatisfaction, headache and neurasthenia? Are you sure your eyes are perfect?
