HOW CAN PEACE TERMS BE FIXED?

THE interesting talk of possible peace in Europe is good to read. It may lead to a truce for the winter, but the terms on which a real peace can be secured seem impossible to reach at present. There will be such demands on the part of Great Britain and Russia on the one hand, and Germany on the other, that we cannot see how a real, lasting peace can be reached, or how the situation which really caused the war can be changed.

And Germany will meet this with just as stubborn demands. However, a truce will be welcome, for the longer it may be continued the less anxious will any of the powers be to renew the struggle.

It would seem that a reconvening of The Hague congress would be the only way to handle the matter. That congress might formulate a code which all the powers could subscribe to, and by the terms of the code settle questions which cannot be settled by direct negotiation.

Some very broad and very subtle statesmanship will be needed in the immediate near future. That The Hague tribunal affords the best means to make and secure a lasting peace is the more probable when we reflect that while the hates engendered by the war are most vindictive and fierce, still the knowledge that some millions of brave men have been killed and maimed during the past year, that half the homes of Europe and the British Isles have been made desolate through unspeakable sorrow and loss, and that all Europe is on the verge of bankruptcy because of it, will, despite the anger and hate, have their effect and cause men to be anxious that any repetition of the horrors inflicted shall be made impossible.

Scattered Shots WHEN ALL other German spies get kitched, we suggest Mr. Mackenon. He could pass as a Scotchman, and a bra' gid 'em a' that, eh Jock?

EVEN THE DOGS around town are beginning to have a dreamy, far-away look in their eyes. They know that fall season is almost here, and the droll geese and the ducks on their whistling wings are almost ready to start south.

IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS SIGN YOU HAVE BEEN EATING TOO MUCH MEAT

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and clogged. You must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy and full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once, or get from your pharmacist about four ounces of Jad Salts; take before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia water drink. (Adv.)

What the War Moves Mean

By J. W. T. MADON (Staff Correspondent United Press)

NEW YORK, Sept. 17.—Great Britain may become a protectionist nation. She intends to establish a precedent among belligerents by attempting to meet war expenses from taxation, instead of by loans. The new duties, it is believed probable, will remain a permanent institution. Up to the present time the belligerents have been fearful that added taxation would cause a revolt. Germany announced, as an apparently fixed policy, that she would continue to fight on borrowed money. Hitherto Great Britain also has conducted her part in the war by means of vast loans. But the public criticized this procedure, and demanded that taxation supersede this form, in order that posterity might not be crushingly burdened by taxes to pay interest on these great loans.

It is reported that Great Britain intends to raise a half billion dollars by means of taxes. Many sources must be tapped in order to meet so great a drain. The most fruitful of these, however, are customs duties. This method presents a means of raising money both quickly and steadily, while at the same time providing a way whereby the burdens of the tax are distributed more or less evenly among consumers. Then again, the burden does not appear to the consumer to be a tax. He pays it in the regular price of his goods, without stopping to realize that as he does it he is really meeting a tax.

DRINK HOT TEA FOR A BAD COULD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Sub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

Just received some good duck blotters. See Chilcote.
