PENN CAPITAL IS ALL DRESSED UP

HAS SPENT THREE MILLION IN TRANSFORMING NEGLECTED CITY INTO MODEL ONE—HAS THREE-DAY CELEBRATION

HARRISBURG, Pa., Sept. 25.—Harrisburg has been celebrating for three days. Back in 1901 Harrisburg discovered that as a city it hadn't much to brag of except being the state capital, and that it scarcely deserved that honor. Only a mile or two of paved streets, no parks worthy the name, no playgrounds; drinking water heavy with coal dust and disease germs—everything, in fact, just about what it ought not to be.

So Harrisburg borrowed \$1,000,000 and proceeded to dress up. Later it made other loans, until the aggregate was \$2,421,000, while that much more was spent by individual property owners paying for improvements in front of their real estate.

The city has more than seventy miles of paved streets, mostly sheet asphalt; far more than 1,000 acres of public parks, most of which it owns outright; a plant which filters all water used in the city; summer playgrounds and swimming pools for children; a summer camp for children; tennis courts and golf links for the adolescent and adults, and a river front and river basin which has been improved in a manner unique in the entire world. The plans originally made in 1901 have been completed, which is the wherefore of the three-day celebration ending today.

SHERIFF ARRESTS ALLEGED THIEF

SUPPOSED ROBBER OF BOOT-BLACK MAKES VAIN ATTEMPT TO ESCAPE—CAUGHT NEAR STATE LINE

Once again the alleged robber of Jordan, the bootblack at Fitzpatrick & Bean's barbershop, is in custody. Yesterday evening he was left in Sheriff Low's custody by a policeman, but there was a misunderstanding all around, because the prisoner didn't know the man watching him was the sheriff, or the sheriff wasn't aware that he was supposed to watch the prisoner.

But when the man ducked around the corner and escaped, the sheriff got a little "sore," as one court house official expressed it, and went right out after him. He chased him all yesterday afternoon, and caught him almost at the California line. And, according to men who know the wildness of the territory, his capture speaks a good word for the ability of the sheriff.

The prisoner was badly frightened when he learned that he had attempted to escape from the sheriff.

Boy Would Be Sea-Dog SAN FRANCISCO, Sept. 25.—Chester Vincent of San Pedro was just a romantic lad who had been reading Robert Louis Stevenson's tales, and decided he wanted to be a skipper. He's heard about sea-dogs—and sea-sickness—and he thought that to become a real salty old sea-dog he must take his sea-legs. He did. He rooked about for four days on the tugs near Crowley's docks here, until unromantic cops gathered him in and tried to communicate with his parents.

LESS THAN WEEK REMAINS TO PAY SECOND HALF OF TAXES TO ESCAPE 10 PER CENT PENALTY—ULRICH

Less than a week remains in which to pay the second half of the taxes in order to escape the 10 per cent penalty, according to officials in the Sheriff's office. The second half has been due some weeks, but many Klamath people have not paid.

"They must be paid on or before the thirtieth of this month," said George Ulrich, deputy sheriff. "The ten per cent penalty will then be attached. Quick work will be necessary on the part of many Klamath people if they escape it. The money must be received at the Sheriff's office by that time."

APPLE CONTEST GROWS IN FAVOR

GROWERS AND PIE-BAKERS INTERESTED IN NOVEL CONTEST HELD BY WOMEN—BOOKLETS TO BE HAD ON REQUEST

The apple contest to be held in the near future is creating quite a stir in the community. A number of women have announced their intention of entering the competition in the preparation of cooked apples, and several growers have stated that they would be pleased to respond to this opportunity to show just what kind of apples can be grown in Klamath county. Folks are just beginning to appreciate the value of the apple. It is nutritious and wholesome, and contains as much nourishment as meat.

Growers will be interested to know that by sending a two-cent stamp to the contest committee they may secure, without charge, a booklet giving information about sixteen varieties of apples grown extensively in the Northwest, stating their eating and cooking qualities, color, flavor and size, and telling when they should be put in storage and how long they may be kept there.

The committee will also furnish booklets to women who wish same, giving over fifty recipes for cooking apples. If the women read the recipes they will surely want to display their accomplishments in the apple culinary art at the contest. These booklets may be secured by calling at the library, or will be mailed if stamp is sent.

Donations of suitable prizes are being received by the committee. These will be placed on exhibition prior to Apple Day.

IF LINERS ARE CONVOYED BY AEROPLANES SUBMARINES MADE USELESS, ACCORDING TO ENGINEER AT CONFERENCE

SAN FRANCISCO, Sept. 25.—If every liner crossing the war zone is convoyed by aeroplanes, the submarines can be rendered all but useless. Professor Lesley of Stanford university said at the naval and architectural engineers conference Thursday.

The submarine is visible from a height, even when it is deep in the sea," said Professor Lesley. "The aviator can see it plainly, while from the deck of a steamer it is invisible. The airship can be the eyes of the navy as well as the army, and will be the submarine's strongest enemy."

10,000 SOLDIERS HAVE PLAY WAR

NEW YORK SHOWS NEW FOLK WHAT A HOSTILE INVASION WOULD BE LIKE—TROOPS ADVANCE TAKES TWO HOURS

NEW YORK, Sept. 25.—Those New Yorkers who were interested in seeing what a hostile army marching into New York would look like, gathered at Van Cortlandt Park today and saw. The army was composed of about 10,000 National Guardsmen from New York city boroughs, and their maneuvers were said to be on the largest scale ever attempted in the United States.

First came the screen of cavalry and the advance guard, followed by the main body of troops, the rear guard trailing all. The men, horses, artillery, ambulances and other equipment occupied two hours in their advance upon the park.

Van Cortlandt looked like an armed camp as early as 10 o'clock. Some of the cavalry and field artillery started operations the night before, giving a demonstration of noise that would probably be heard the night before in case a hostile army actually did invade the city. During the morning there were shows going on in a dozen rings. The engineer corps built pontoon bridges and laid mines, the artillery drilled and fired blank cartridges from behind neighboring hills, one squadron of cavalry gave rough riding exhibitions, twelve ambulances dashed about picking up imaginary dead, and a whole battalion attacked mess in furious fashion.
