Fourth Year—No. 2,017

KLAMATH FALLS, OREGON, THURSDAY, OCTOBER 21, 1915

Price, Five Cents

TEUTON ARMIES MOVE STEADILY TOWARD TURKEY

PROGRESS THROUGH MOROVA VALLEY ADMITTED

Bulgarian Cross Frontier in Many Places and Cut Salonika Railway, by Which Allies Hoped to Transport Troops to Aid of Serbia—Only Few French and British Fight Bulgars—Serbian Army in Danger.

United Press Service PARIS, Oct. 21.—Mackensen's Austro-German steam roller is still progressing in the Morova Valley toward Constantinople. The Bulgarians have crossed the frontier in many places. Their main object is apparently to cut the Salonika railroad.

United Press Service PARIS, Oct. 21.—A dispatch from Nish, dated Wednesday, says that the Bulgarians have cut the Salonika railway, by which allied troops must be transported to aid Serbia, in two places. The Serbian armies are precariously situated.

United Press Service BERLIN, Oct. 21.—It is announced that the Bulgarians reached the Sannegar-Kuzajevac railway. The Germans have captured the banks of the Drina from Boelowitz to Borsmued in southeast Riga.

According to an Athens dispatch, the diplomatic corps left for Carat, and the entente minister is stopping at Crajevo.

If the Salonika railway is cut, as is reported, it means that Serbia will be practically helpless in the hands of her enemies. By this road the allied troops were to be transported to Serbian aid. The main battles of the present Balkan theater of war have been about the Salonika railway, between the Bulgarians, aided by a few Austrians and Germans, and the Serbs, aided by small forces of British and French.

If the railway is cut, Serbia will have to fight her battles alone. Already her armies are in a precarious situation. The allies are realizing the immeasurable importance of the present crisis, and according to all indications are trying desperately to send troops to the Balkans to checkmate the Teuton offensive.

Meanwhile the Teuton steam roller moves steadily onward toward Constantinople.

CHARLES ROBERTS WEDS AT DAYTON

MISS JENNIE CARPENTER OF DAYTON, WASHINGTON, BECOMES BRIDE OF WELL KNOWN GROCERY MAN

Friends of Charles Roberts, son of William J. Roberts of this city, were surprised to learn of his marriage on Sunday to Miss Jennie Carpenter of Dayton, Washington. The ceremony occurred at the bride's home at Dayton.

Mr. and Mrs. Roberts left at once for San Francisco on a honeymoon trip. They will make their home in Klamath Falls after their return in early November.

UNITED EFFORT GREATEST NEED

SUCH IS OPINION OF C. M. ONEILL, WHO IS TRAVELING THROUGH THE UNITED STATES IN HIS AUTOMOBILE

C. M. O'Neill, who has been traveling all over the South and West of the United States, has written a letter to Will Lee, in which he compares the regions through which he has passed with the Klamath country. And the other regions don't stack up very well.

"While there are many things we haven't got in Klamath," writes Mr. O'Neill, "yet it's a grand country. Taking into consideration everything we have there, good and bad, I don't know of a single better place to live. I have seen a lot of country and I people in all conditions of life, surrounded by all the vicissitudes of human existence, and for an all-round country, nature has done as much for Klamath as anywhere on earth—But it's up to the people to profit by their own efforts to do what is right, unitedly—and the result will be many times remunerated for everyone in the community."

Free in all the places that I go, men unitedly working together for better things that would be beyond the limits of single or divided efforts, and that is all we need in Klamath county."

HOSPITAL ASSN. IS REORGANIZED

LEWIS GERBER HEADS NEW ASSOCIATION—CAPITAL STOCK RAISED—NEW EQUIPMENT AND IMPROVEMENTS PLANNED

Corporation Commissioner Schulerman has issued a certificate authorizing the Klamath General Hospital Association, with capital stock, fully paid, of \$10,000. This is a reorganization of the old Klamath Hospital Association, with increased capital.

Lewis Gerber is president of the new organization. A. J. Lyle retains his interest, and will remain as manager. Miss R. C. Rogers, one of the incorporators, will be superintendent.

Miss Rogers is a graduate of Bellevue hospital, New York. Before coming to Klamath Falls she had occupied the positions of superintendent of the Walla Walla general training school and also superintendent of the Hoquiam training school for nurses.

Manager Lyle will leave in a few days for San Francisco, to confer with E. B. Ryan, owner of the Blackburn hospital building, relative to an addition to the present building, as under the plans larger quarters will be necessary. New equipment to make this one of the most modern hospitals in the state is planned, and will be ordered immediately.

FALLS FOR FIDO; WOULD KEEP PUP

MEHAFFEY TRIES IN VAIN TO DRIVE WOLLY AND LIMPING DOG FROM YARD—NOW WANTS HIM TO STAY

A little black, woolly puppy dog, with one foot badly bunged up, came limping onto the lawn of E. C. MehaFFEY, on Montgomery street, a day or so ago. Apparently he had fallen or so. He was playful and barked at his friends. Miss Carpenter is a beautiful and popular girl of Dayton, and this marriage was the culmination of a long friendship.

America's Greatest Citizen

IN HONOR OF THE THIRTY-SIXTH ANNIVERSARY OF THE INCANDESCENT LAMP AND THE WORLD'S GREATEST INVENTOR, OCTOBER 21ST HAS BEEN SET ASIDE AS EDISON DAY

Thomas Alva Edison was born in the train, and this ended his career as a newboy.

When he was 7 years old his parents moved to Port Huron, Mich.

Young Edison attended school at Port Huron for just three months, when his teachers gave him up in despair. He was always at the foot of his class. After this short course he studied at home with his mother, and his father added a small sum of money for each book mastered. In the cellar of his home, Edison installed his first "laboratory," where he performed certain chemical experiments. It was to secure money for these experiments that Edison, when he was 12 years old, turned newsboy and began selling papers on the trains of the Grand Trunk between Port Huron and Detroit. Nearly all the profits went to support his laboratory and chemical experiments. And very soon he had installed in the baggage car a small laboratory where he could experiment during his leisure hours of the daily run. Because of an accident in this laboratory, which set fire to the car, Edison was thrown off

the train, and this ended his career as a newboy.

Aside from his laboratory experience with electricity, Edison learned telegraphy by installing a short line between his father's house and the home of a boy friend. Home-made apparatus was used, but the line worked well enough for all purposes. Soon thereafter he began to work as a regular railroad telegrapher. During the next five years Edison drifted all over the Middle States, working as a telegraph operator.

In 1862 Edison printed and published a newspaper, "The Weekly Herald," on the train. The first newspaper ever printed on a moving train.

In 1868 he made his first patented invention, an electrical vote recorder. The application for patent was signed October 11, 1868.

During the year 1870, he sold one of his inventions, an improved stock ticker, for \$40,000. With this money he opened a machine shop near Newark, N. J.

Now began the years of Edison's

(Continued on Page 3)

Rover) just fell over on his side and put up his legs to have his stomach tickled. In fact, he didn't care to rove for a while, at least. And MehaFFEY, who admits he is sort of susceptible to dogs, went into the house for something for Fido to eat.

Fido ate. And still he didn't care to leave. He took absolutely no notice of MehaFFEY's shouts for him to "Shoo!" He just stayed around, waiting for another meal. He ate this meal also at Mr. MehaFFEY's.

But Mr. MehaFFEY's susceptibility to dogs proved his undoing. By the next day he had got over any wish he might have had that Fido should leave him. In fact, he wanted to keep the little woolly dog for good.

Today Mr. MehaFFEY is running an advertisement in the Herald, announcing the finding of the dog. If he is not claimed in three days, the animal is legally Mr. MehaFFEY's. And needless to say, MehaFFEY hopes no one will show up, and from the contented conduct of Fido, it looks as if he hopes so, too.

Returns From Fort. C. C. Jackson recently returned from Fort Klamath, where he journeyed to attend the funeral of Mrs. Jackson, who died in Portland and was brought to the Fort for interment.

KLAMATH DAY AT EXPOSITION SET FOR OCTOBER 29

PLANS FOR BIG JINKS STILL INCOMPLETE

Date Set is Day Before Beginning of Oregon Week—"Oregon" Family Will Work as a Unit to Make Day Success—Throughs Will Be Interfered in This Section as Result of Advertisement—Boosters Present.

(Herald Special Service)

SAN FRANCISCO, Oct. 21.—Well, at last, the momentous question has been settled—for good, it is hoped this time. The m. q. referred to is "Klamath County Day" at the exposition, and unless some further change is made, this will be October 29th, the day preceding Oregon's State Day, when Governor Withycombe is to be one of the dignitaries present, and the state will more than shout to the world its advantages.

There have been state days, county days, city days, favorite drink days, tobacco day, days for the famous and near-famous of every city and hamlet, but, so far, no Klamath County Day. Officially, the world at large has no reason to know that there is such a place as Klamath, aside from its incomplete display of products in the Oregon building. But the kannel show is coming later, and every dog will have his day, too.

The special significance of these days is that they put the place whose day it is forcibly before the people. The products of these sections are shown at their best, the principal men of these communities arise to extol their home town, and prominent men from other sections also arise to impress the advantages of the town upon the people. As the newspapers herald these days liberally, a vast crowd becomes interested in a region who have otherwise possibly never heard of it.

It is yet a little too early to say just what the Klamath Day exercises will comprise. There will be several stunts of note however, as the Oregon Family has volunteered as a unit to help out on that day. With Klamath people from the various bay cities present to augment the people from Klamath, the land "Where Fortune Calls," will undoubtedly be well represented by a live bunch of boosters, who will cause others to awake up

(Continued on page 2)

FARMERS MERGE TELEPHONE LINE

RURAL TELEPHONE COMPANY IS FORMED AND MATERIAL ORDERED—CONSTRUCTION TO BEGIN AT ONCE

Some time ago the ranchers living in the vicinity of Mount Laki, which comprises the district lying between Klamath Falls and Merrill, organized and inaugurated the Reclamation Rural Telephone company. The plans at this time were to install and operate a line throughout this section, and connecting with the central office in this city.

However, time passed quickly by, and as matters were slowly taking form, Manager Robertson of the telephone company here, interviewed those interested in the project with the result that a definite understanding was reached, and enough material ordered to equip twenty-five subscribers.

It is proposed to have the line reach as far south on the west side of the river as O. B. King's place, and probably as far as the Stukel Bridge on the east side of Lost River. In all probability the line will be in operation by the middle of November.

It is the opinion of Mr. Robertson that this is the nucleus of a telephone system that will extend all over the lower valley.

NEW PASTOR ON WAY TO MERRILL

REV. J. THOMAS COWLEY ARRIVES FROM CANYONVILLE TO PREACH FIRST SERMON AT MERRILL SUNDAY

Rev. and Mrs. J. Thomas Cowley arrived last evening from Canyonville, and will leave in the morning for Merrill, where Rev. Cowley will assume charge of the Methodist church. He will preach his first sermon in Merrill on Sunday.

Rev. Cowley is a native of the Isle of Man, and before coming to the United States he was the founder and superintendent of mission work in the slums of Liverpool, England, entering upon that work when only 30 years of age, and remaining six years.

Mr. and Mrs. J. H. Beckley are visitors from Klamath Marsh.

ENGLISH LOSE IN MONTH 44 SHIPS, GERMANS CLAIM

ONLY SIX OF LOST VESSELS AIN MINED

Such is German Official Answer to British Statement That Submarines Had Ceased—Teutons Capture Japanese Ammunition from Russians. French Report Victories and Heavy Loss of German Life.

(United Press Service)

BERLIN, Oct. 21.—It is announced that "the best answer to the British claim that German submarines have ceased their activities is the September record of British vessels torpedoed. It consists of twenty-nine merchantmen, two transports and seven trawlers. Six merchantmen were mined, making a total of forty-four ships destroyed."

(United Press Service)

VIENNA, Oct. 21.—It is announced that vast quantities of Japanese ammunition have been captured from the Russians in Galicia. The Austrians have destroyed the Russian armored train in the Putlovka River region. The fighting in the Kiiki district is unchanged.

(United Press Service)

PARIS, Oct. 21.—It is announced that the German effort to pierce the French lines to the east of Rheims has failed. A violent attack of German troops in close formation followed the bombardment. Three attempts were made on a five mile front.

Artillery and machine guns decimated the Germans. The Germans' night attack on Boise and Givenchy, also to the east of Moncel, were repulsed.

COMMITTEE FOR 'DRESS-UP WEEK'

BUSINESS MEN'S ASSOCIATION TAKES ACTION ON PROPER OBSERVANCE OF DAY TO USHER IN PROSPERITY

A committee consisting of Fred L. Houston, Frank Vannice and K. Sugarman was appointed last evening by the Business Men's Association to arrange for the observance of "Dress-Up Week."

It is planned to hold a general celebration on the streets, with the band playing, either Monday or Tuesday evening, at which time the committee of judges will inspect and award the blue ribbons for the best-dressed windows in each line. The citizens also will have an opportunity to do window shopping and see all the new styles and variety of goods offered by the local merchants. A big public dance will probably be held Friday or Saturday evening. "Dress-Up Week" will commence next Monday.

Wedding Bells.

James Finnell and Golda Caldwell were married yesterday at 3 o'clock at the Methodist parsonage by Rev. E. C. Richards. Only a few friends and relatives were present.

After the simple but impressive ceremony the bride's party returned to the home of the bride's parents in Buena Vista Addition, where the friends of the bride and groom were assembled to a wedding dinner.

F. Brown is registered at American Hotel.

Early V. Hall and J. (Just got in from Washington)

Ashland and Klamath to Clash on Gridiron

Tomorrow afternoon at 3 o'clock will occur the first kick-off of the football game between Klamath and Ashland high schools. The Ashland boys will arrive tonight, and Coach Moteschenbacher has his team in shape for the biggest and best game of the season.

Ashland won the championship of Southern Oregon last year, and expects to do so again. She has a heavy quick and skillful team. The Klamath boys are lighter, and they must make up this handicap with added speed and skill. Whether they can do it or not is a question undecided by the dopsters.

Whether they can or not, all agree that the teams will be evenly matched to such an extent that a hard game of many thrills awaits the crowd at the gridiron tomorrow. Stores will undoubtedly close from 3 to 8 in the afternoon, and a big crowd—big enough to insure the continuance of inter-scholastic athletics for Klamath Falls.

Moteschenbacher's team is in the best of shape, and with the added

Hear Ye! Hear Ye! Dress-Up Week WILL BE OFFICIALLY OBSERVED IN KLAMATH FALLS October 25 to 30
