

British Invasion of Bulgaria Is Beginning

CHARGE GERMANS WITH WHOLESALE SERB MASSACRES

AUTROCITIES WORSE THAN IN BELGIUM CLAIMED

Valleys Made Deserts by German Advance—German Civilians Fired From Houses, Which Authorities Denied—50,000 British Begin Invasion of Bulgaria—Russians Will Strike From North.

United Press Service GENEVA, Nov. 5.—Swiss newspapers charge the Germans with more frightful barbarities in Serbia than they perpetrated in Belgium. Wholesale massacres are alleged. The Germans claim that the civilians fired from their houses, which is denied by the local authorities. The once rich Morava Valley has been made a desert by the passing of the invaders. The town of Morava is ruined, and corpses are scattered thickly.

United Press Service ATHENS, Nov. 5.—Two divisions of 40,000 Britishers each are on route from Salonika toward Bulgaria. More will start at once. It is believed the plan is to divert the Bulgarians from Serbia by a formidable invasion. It is surmised that the allies have arranged for the Russians to strike Bulgaria from the northwest.

United Press Service BERLIN, Nov. 5.—It is reported that the Bulgarians defeated the French northeast of Prilop, in Serbia. Part of the Frenchmen were routed and part captured. From all indications the allies' great movement to checkmate the Teutons on their march to Constantinople is at last under way. Frenchmen are trying, with what small armies they have in Serbia, to check the Bulgarian advance there, but today's news indicates that the great war drama of the Balkans will be fought in Bulgaria. The English, 80,000 strong, have begun an invasion of Bulgaria. Russia will strike from the north. Whether the Teutonic steam roller can advance in spite of this resistance is at present the greatest issue of the war. The fact that the allies will devote their strength to a Bulgarian invasion indicates that Serbia must fight her battles practically alone. That means—in spite of the outcome of the Balkan movement—a dreadful fate for Serbia. Today Swiss reports charge the Germans with atrocities that resembled the Belgian tactics. The reason behind their acts is the same—to leave the invaded nations in such a state they cannot possibly be of aid to Germany's enemies.

United Press Service PARIS, Nov. 5.—It is announced that the fighting between the French and the Bulgarians has been progressing in North Babrovo since Wednesday. The Bulgarians are entrenched near Krivok, on the Nish-Salonika railway, within 200 yards of the French. Nish is still withstanding the siege by the Austro-Germans.

Hunting Game. The Grifth boys of Fox Valley are busy moving grain to this city.

German Finance Chief

Professor Dr. Halferich, chief director of the Deutsches bank of Berlin, the largest financial institution in Germany, and now minister of finance, is the architect of Germany's war financial system. He is the man who has negotiated the enormous loans during the war, and in Germany is being hailed as one of her mighty men.

INTEREST SHOWN KLAMATH DISPLAY

EXHIBITS AT PORTLAND SHOW ATTRACT ATTENTION, BUT BECAUSE OF HANDICAPS FEW TROPHIES ARE WON

Thinks look dark for Klamath county in regards to taking any big trophies with their exhibits at the Portland Manufacturers and Land Products show. While the display consists of the very finest grains and vegetables procurable, the lack of a Klamath representative at the show, and the impossibility of giving the Klamath display much attention because of the work required at the Klamath booth, Klamath runs a slim chance for anything more than a few prizes in smaller displays. The particularly dry year was another handicap. Few enormous vegetables as are usually found in great abundance, could be obtained, and the best of these had to go to the Klamath booth. Mrs. Shook of Portland was kind enough to arrange the Klamath display. Otherwise this section could not have had a display at all. Prizes have already been awarded, but the Commercial Club was unable to learn as yet what trophies fell to her share. The exhibit was decidedly worth while, however, even though Klamath did not repeat her triumph of last year by taking sweepstakes. Thousands saw the displays, and much interest was manifested in Klamath. Klamath literature was distributed, and there was such a demand for it that the supply soon ran out. More is being sent today.

TWO MEN HANGED IN CALIFORNIA

LOUIS HUNDY DIES AT SAN QUENTIN AND EARL LOOMIS AT FOLSOM—FIRST DEATHS OF THE DEATH PROGRAM

United Press Service SAN QUENTIN, Nov. 5.—Louis Hundy was hanged at 10:10. He died game. Thirteen minutes after the trap was sprung he was pronounced dead.

United Press Service FOLSOM PRISON, Nov. 5.—Earl Loomis of Los Angeles was hanged at 10 o'clock. The drop fell half a minute after 10, and sixteen minutes later he was dead.

He declined the attention of a minister in his last hour. These two deaths are the start of California's death program. More men, convicted of murder, will die in the next few weeks. The program is not as long as was expected, because in all probability several death sentences will be commuted to life imprisonment.

LIFE ENDANGERED; OPERATION SAVES

JESSE SUMMERS STRIKEN WITH SERIOUS BRAIN DISEASE—IS OPERATED UPON, AND RECOVERY IS LIKELY

A few days ago Jesse Summers, the 14-year-old son of Sam T. Summers, complained of sickness and a headache. Nothing serious was thought of the matter, however, until yesterday morning, when the boy found that he was unable to keep his feet on rising from bed in the morning. He was attacked by what nearly resembled a convulsion.

Doctors were summoned, among whom was Dr. Fisher, the eye, ear nose and throat specialist. On examination it was found that the boy was suffering from empyema, or a gathering of the white corpuscles just above the eyelid, against the brain. An operation was necessary at once to save the boy's life.

He was taken to the hospital and the poisons drained away. Today he is resting easily, and unless there is a serious setback, his recovery is almost certain.

Mrs. Chas. McGowan is on the road toward rapid recovery, after an operation for appendicitis a few days ago.

The baby son of Agent May of Chilquinn still continues his fight for life and the outlook is very hopeful today. The digestive organs are beginning to resume their normal functions and the doctors are quite hopeful.

"Nerve," Is the Doctors' Verdict United Press Service LOS ANGELES, Nov. 5.—"Nerve." That was the verdict of the doctors at the receiving hospital in the case of Miss Bobbie Barrett, a chorus girl, burned on both arms by the explosion of an alcohol lamp. The young woman slipped gloves over the burned arms and appeared in her act last night. After the show she had the burns dressed.

Returns Home. J. Frank Adams and family came in on the local last evening from a visit to the mountains.

SCHOOLS TO GET BOOK SHIPMENTS

7500 WORTH OF BOOKS DISTRIBUTED TO GRADE SCHOOLS OF COUNTY IN PROPORTION TO NUMBER OF STUDENTS

Seven hundred and sixty dollars worth of books are being distributed today to the district schools of Klamath county by Fred Peterson and assistants. The shipment of books, including text books, reference books, story books, etc.—in all about 2,000 volumes—arrived a few days ago.

Each grade school student is allowed by the school book fund 25 cents worth of books. Thus each school receives its share of books in proportion to the number of students. As the average price for the books is little above 25 cents, it means that every school in the county will have a good nestegg for a library.

Such books as mythology, collections of literary gems, poetry, novels, such as "Rebecca of Sunnybrook Farm," etc., are included in the list, as well as text and reference books. The volumes were all selected with great care from the list made out by the state board of education.

JAILBIRDS WILL PLAY FOOTBALL

FAST AND NORTH TANKERS AT SEATTLE FORM FOOTBALL TEAMS—SHERIFF WILL GIVE PRIZE

United Press Service SEATTLE, Nov. 5.—Thanksgiving day's football match between the University of Colorado and the University of Washington promises to be eclipsed by the football battle between county jail prisoners. Jail Superintendent Hally has hung up a prize for the winning team. Men of the north tank will take the field against those of the east tank.

The contest will be waged in the jail yard, and the men accepted the promised opportunity of shaking the kinks out of their legs with cheers of delight. Deputy Sheriff Jimmy Bruce is coaching the east tank team and Deputy Wayne Sutton, the latter a University of Washington star, is training the north tankers.

Porpoise Is Playful United Press Service REDONDO BEACH, Nov. 4.—That a playful porpoise climbed into their skiff and sat in the rear seat while they fished, was the declaration of Police Captain Halls, Chief Hyland and Julius Kruelcher, the latter of Indianapolis, upon their return from an angling trip. This is the prize fish story of the season here.

Mill Shuts Down. Thursday evening about 5:30 the sawyer of the mill at Algoma clipped off the last board of this season's run, and as the woods camps recently closed, there remains in running only the box factory.

Home Again. C. T. Oliver and wife, who have been on an extended visit to the lake, have just returned, and give credit to Klamath county's booth and the opportunity.

New Railroads Will Open Up a Vast Territory

Here is shown the proposed Oregon, California and Eastern railroad lines, which will connect up all the present lines in Eastern Oregon, which will give to Portland a new and direct all rail line south through Central Oregon to Nevada, California and the East. By the construction of 600 miles of railroad a territory will be served as large as the state of Ohio, which it is believed can be just as highly developed. What Mr. Strahorn considers one

of the most important links in the new enterprise is the line between Bend and Klamath Falls, giving the Klamath country its first direct connection with Portland. It is probable that this piece of road will be built first. Agricultural experts estimate that there are over 5,000,000 acres of farming lands tributary to the proposed lines, while more than 50,000,000 feet of white pine timber will also be opened up, and the region is already a large producer of cattle, sheep and horses.

FEW CRIMINALS WORK IN KLAMATH

CITY BASTILE ALMOST EMPTY OF MALFACTORS—SINCE DEPARTURE OF HOOPER ALL QUIET. BOOTLEGGING DORMANT

All's quiet in Klamath criminal circles. According to the policemen and the sheriff's office, the city bastille is almost empty of bad men, and since Hooper departed for foreign parts, everything has been quite peaceful in the county and city. Bootlegging and selling liquor to the Indians has almost ceased because of the recent prosecutions. Of course there are the customary number of wanderers and inebriates that seek shelter in the jail these cold nights, but after the state goes dry even this diversion will be eliminated.

As a rule, according to the sheriff and the chief of police, the inmates of the falls are a quiet sort that wouldn't get away if the gate was open. There are a few furniture breakers, however, and Chief Baldwin attributes their unwillingness to the fact that so many bottles are passed in through the bars to the prisoners. This will continue until December 31st, too, as the city council refused to appropriate funds for fixing up a wire screen on the grounds of economy, and that only two months remain

a screen the thirst of the inmates could be slacked by means of straws. The petty thievery in cellars, etc., has been mostly discontinued, and the police force hopes that it will be entirely so when some of the burned-out lights on the dark streets are replaced by good ones. It is thought that most criminals have gone south for the winter.

NEW WAREHOUSE IS GOOD THING

FARMERS AND BUYERS EXPRESS THEIR APPRECIATION OF NEWLY ESTABLISHED ENTERPRISE ON SIXTH STREET

One of the recently established enterprises of this city is the Farmers' Warehouse company, located on Sixth street, at the railroad spur, which has at that point a warehouse with a capacity of 45,000 bushels of grain. The building is a fire proof structure, containing three floors and a large hydraulic elevator, which is used in conveying the products from one floor to another. Abutting the spur track is a spacious platform for convenience in loading. The idea of this concern is to place in storage the products of anyone who wishes to hold for a better market, and as this institution is licensed and bonded under the laws of the

CONSTANTINE TO DEFY WAR PARTY; ALBANIA RISING

KING OF GREECE FIGHTS TO KEEP NATION NEUTRAL

Albania Faces Revolution—Ensaad Pasha, Governor, Would Permit Serbs to Pass Through Nation to Escape Bulgars and Austro-Germans, But People Oppose—Serbian Armies Nearly Surrounded.

United Press Service VIENNA, Nov. 5.—The Serbian army is nearly surrounded. It is announced that General Koovra has junctioned his army with the right wing of the Austrians from Vinsgrad, tending to cut off the Serbs retreat toward Montenegro. Since Albania is opposing the passage of the Serbians into that state, the situation of the main Serbian army is desperate.

United Press Service ATHENS, Nov. 5.—King Constantine apparently means to defy the war party. It is believed the king will dissolve parliament instead of reappointing Venizelos premier. The result may be that Zaimis, although he resigned, must continue in office at least two months. Meanwhile Greece will be neutral.

United Press Service ROME, Nov. 5.—Albania is on the verge of uprising. The troubles are due to the attempts of the Serbs to cross the Albanian frontier to escape the Bulgars and the Austro-Germans. The people are unfavorable. Ensaad Pasha, who claims to govern Albania, is willing to let the Serbians cross.

BRYAN SCORES WILSON SPEECH

SAYS DEFENSE PROGRAM UNCHRISTIAN—THE BREACH BETWEEN WILSON AND BRYAN WIDENS

United Press Service WASHINGTON, D. C., Nov. 5.—William Jennings Bryan said that he "read President Wilson's speech on defense at the Manhattan Club of New York with sorrow and concern." "He's doing what he believes is his duty," said Bryan, "but I feel it is my duty to dissent. "The plan he proposes isn't only a departure from our traditions, but a reversal of our national policy. It is a false philosophy."

Bryan declared the preparedness program violated Christianity. Everyone believed that Wilson's speech widened the breach between Bryan and Wilson. Even a split in the party wouldn't deter Bryan from attacking what he believed to be wrong, leading democrats say.

Four Americans Killed United Press Service WASHINGTON, D. C., Nov. 5.—Consul Varathos of Danzig reported that four Americans were
