LITTLE CHANGE BEING MADE IN COUNTY BUDGET

OUR DEFICITS ARE BEING CLEARED OFF

County Court Is Struggling With the Task of Apportioning Money for Running County Next Year. Levy Will Be About the Same as This Year, and Total to Be Raised Will Be About \$408,448.

Preparatory to submitting the budget of expenses to the taxpayers of Klamath county, the members of the county court are struggling valiantly with the tiresome job of deciding just how much money will be required to operate each department of the county government for the year 1916. While the job is not definitely finished, it is understood that the amount to be raised by taxation for Klamath county's school, road, official and other expenses will be about \$403,443.

This is about the same as last year's budget, and the members of the court believe the tax levy will be practically the same. Some reductions have been made in some funds, and other estimates have been raised, but in the main the changes in figures are slight.

A new fund the court will provide is one of \$18,000 for paying accrued interest on outstanding warrants. Toward redeeming outstanding warrants an appropriation of \$50,000 is made. An increase of \$2,000 is made in the road fund appropriation. Last year this was \$58,000, and in this year's estimate it is placed at \$60,000.

A similar increase is made in the new courthouse fund, which the budget in course of completion places at \$60,000. The money raised last year went to paying off the unpaid warrants against the new courthouse fund.

Another new fund the new budget creates is one of \$3,500, to be used by the prosecuting attorney's office in gumshoe work and other activities that may be necessary in "upholding the criminal law." This year's budget also provides \$2,300 for paying off the amount still due on the paving around the courthouse block, which has been delinquent for some little time.

The county's fees for state fire patrol are also delinquent. An item of \$113 is included in the estimate to pay this up to date.

ROLL CALL FOR ELKS TONIGHT

FIRST ANNUAL WILL BE PULLED OFF WITH A WHOOP AND A BANG. SMOKER, VAUDEVILLE AND FRED ON TAP

The roll referred to is the annual roll call of the lodge. It is the lodge's roll call of the lodge. Summons has been sent to every member of the lodge to answer tonight, and those who cannot be present in person by reason of being out of the city will respond by letter.

The entertainment committee of the lodge has seized upon this opportunity to prepare some special social stunts. There will be a smoker, some vocal and vaudeville numbers by local and outside talent, and refreshments will be served.

SAY SUBMARINE SHELLED VESSEL WHEN IT HALTED

Allegation Made That Austrian Div-er's Commander Deliberately fired into Helpless Passengers and Then Torpedoed the Ancona. Britons Score Government for Not Getting Past Gibraltar.

ROME, Nov. 11.—Whether shells from an Austrian submarine slaughtered the helpless passengers on the Italian-American liner Ancona while the vessel was trying to escape capture is a matter yet to be determined. Investigation is being made by the government.

According to a Tunis dispatch, the officers of the vessel declare they halted the ship as soon as commanded to. The captain says he was not ordered to stop by the submarine until after the submarine fired on the boat. He alleges that after the engines were stopped the Austrian boat continued shelling the ship, injuring many passengers. He says that many passengers were killed while in the lifeboats from the force of the torpedo explosions.

While reports differ a little in detail, all agree that the Ancona was subjected to a withering shrapnel fire, and that the bombardment took a bloody toll of life.

The exact casualties may never be known. The most reliable sources say, however, that 300 have been saved, and that the loss of life is close to 300.

LONDON, Nov. 11.—It is understood that the admiralty has ordered the navy to take action to end the Austro-German submarine activity in the Mediterranean. Much criticism is voiced for the failure of British forces and forts to prevent the undersea craft from passing Gibraltar.
