

# Women Organize for a Hard Suffrage Battle

**United Press Service**  
**WASHINGTON, D. C., Nov. 14.**—In every one of the hundreds of congressional districts in the United States today, the women are in convention framing their local fights to pledge Democratic and Republican national convention delegates to favor national suffrage in the party platforms.

These local conventions are under the general direction of Mrs. Medill McCormick of Chicago, an official of the National American Woman Suffrage association. The suffragists in each district will pledge their support to pre-suffrage delegates. Much time will be spent interviewing candidates. In states where national party delegates are chosen by state convention,

the suffragists will concentrate upon pro-suffrage county delegates. "Suffragists in every state in the union," said Mrs. McCormick, "will make it a point to have big demonstrations in the home town of every candidate for the house or the senate. This campaign launched today is but the minor prelude to the big fight we are going into for national suffrage this winter."

## POULTRY SHOW NOW ON AT FAIR

(Herald Special Service)

**SAN FRANCISCO, Nov. 14.**—Hundreds of entries for the annual show have been made by members of the American Poultry Association, the largest organization of its kind in the world, which is meeting at the Panama-Pacific International Exposition at San Francisco this week.

During the same period the conventions and shows of the American Buff Plymouth Rock Club, the American Buckeye Club, the Buff Minorca Club of America and the National Columbian Wyandotte Club will be held at the exposition, insuring a week of splendid attractions relative to the breeding and care of fancy poultry.

Throughout the latter part of November, pigeon and poultry shows will be held daily, together with exhibitions of prize winning live stock, which includes sheep, cattle and horses.

Farmers find many things of great interest at the exposition these days, and as a matter of fact, most of the out of San Francisco attendance is composed of farmers and agriculturists.

Ark Sails Again.

"Worden's Ark," that relic of the days when the business district of Klamath Falls extended almost a block from Link River, has at last caught the spirit, and has cruised eastward, with M. R. Doty's skids and winches as the propelling power. The "ark" is now anchored at Eleventh and Main streets, and will be remodelled into an up-to-date office building.

## VEHICLES CAN'T STAND ON MAIN

A month from now any autolot or teamster who allows his vehicle to stand in one place on Main street or part of Sixth street for more than twenty minutes is liable to arrest and fine. An ordinance providing this was adopted at last night's council meeting.

The ordinance is an amendment to the vehicle ordinance, and the "move on" zone is Main from Second to Ninth, and Sixth from Main to Klamath. There was some objection voiced by Councilman Doty, who held that the driving of all traffic off of Main street will make the town look more like the Deserted Village than a prosperous, busy little city.

The bill also increased the speed limit from ten to fifteen miles an hour. Vehicles are by this ordinance prohibited from stopping within thirty feet of any street corner, and to comply with another provision, in order to park vehicles where that is permissible, vehicles must run into the curb in the direction of travel at an angle of 45 degrees to the curb line, with front toward the curb.

R. R. Vinson left on this morning's stage for Bonanza.

Secretary of the Navy Daniels lifted from his desk in Washington an ordinary telephone receiver connected with the naval observatory at Arlington, six miles off, while Admiral Usher commandant of the New York navy yard, took up a receiver connected with the Western Electric company in Manhattan, four miles away. Then the aerial received the first official order ever sent over the wireless phone. The conversation of the secretary of the navy and the admiral ran thus:  
 Daniels—Hello.  
 Usher—How do you do, Mr. Secretary?  
 D.—Very well, admiral; how are you?  
 U.—Very well, thank you.  
 D.—You are looking well. Can you hear me distinctly?  
 U.—Yes; very plainly.  
 D.—Your voice sounds very distinct. I want to give you an order over this wire; will you have a stenographer take it down? It is an official message.  
 "Hear Admiral Usher, Navy Yard, New York: Report as soon as practicable after the arrival of the New York, how soon the repairs on her can be completed. (Signed) Daniels."  
 U.—Yes, sir; is there anything more you would like to say?  
 D.—How long will it take before

we can get the California off the ways?

U.—We hope to get that monster off in about thirteen or fourteen months.

D.—Well, you will want another ship in a year, won't you?

U.—Yes; we will be glad to have one in about a year; we would like it a little earlier. We could prepare it much ahead.

D.—Admiral, you have my word. I will try to do that. By the way, admiral, here's a man who has an invention so that you can see over the phone. I can almost see you now. I hear you so plainly.

U.—I can hear you so distinctly I almost imagine I see you.

D.—Well, I wish we could.
