Munition Plants at Bethlehem Burned

Munition plant of John A. Roebling's Sons of Trenton, N. J., burning in \$1,000,000 fire. Munition shop of Bethlehem Company burning in \$4,000,000 fire.

These great munition plants, among the very largest in the country, were burned within twenty-four hours, the machine shop No. 4 of the Bethlehem Steel company in Pennsylvania, and the other the wire shop of John A. Roebling's Sons in Trenton, N. J. In the Bethlehem plant there were some 800 guns almost ready for shipment to the allies in Europe. The loss there was placed at \$4,000,000. The Roebling plant was making wire for the allies, to be placed in front of trenches to prevent charges by the German soldiers.

SAN FRANCISCO, Nov. 19.—Miss Ramona Block of Los Angeles wins. She bet friends that she could beat the Pullman company rules against carrying dogs on one of Mr. Pullman's cars. Using a specially constructed valise, she succeeded in getting her \$1,000 dog, Little Babe, through safely. He will be entered in the exposition banch show November 29th.

What the War Moves Mean

By J. W. T. MASON (Written for the United Press)

NEW YORK, Nov. 19.—A sudden and unexpected development in the Balkans, to which Premier Asquith mysteriously attributed Earl Kitchener's trip, has been revealed as King Constantine's resolve to intern the allies if they return to Greece from the Balkan fronts.

While Greece consented to the landings of allied forces at Salonika, she does not want Greece to become a battlefield. Apparently, she has notified the belligerents that if they carried the fighting into Greece, they would be interned.

The situation thus developed is the result of unprincipled men trying to run alternately with the hare and the hounds. Greece at first desired the allies' presence because she feared a Bulgarian attack. Yet now she wants to keep out of war. Hence, both she and the allies find themselves in a dilemma.

Until doubts as to the benevolence of Greece are cleared away, great danger will attend the development of any major offensive in the Balkans, with Greece as a permanent base.

The allies cannot well force operations on a big scale, running at the same time the chance of reverses which would turn them back to Greece and at the same time face the risk that, in so turning, they would be interned.
