Girl Improving.
Little Frieda Scheisel, recently treated for hemorrhagic purpura, is doing as well as her physicians can expect, and hope for her recovery is expressed. The disease is very rare, the patient bleeding from every mucous membrane in the body. The hemorrhage is due to an insufficiency in the capillary walls to hold blood, which will not clot, due to lack of calcium salts. Fresh blood serum is imperative and must be made fresh. Dr. George Cathey has had several years special work in preparation of serums and vaccines, and his past experience in this line of work has been invaluable in this case. Drs. Hamilton and Cathey, who have this case, feel that heroic method of treatment is giving the girl the only chance she has, as seventeen out of eighteen patients suffering with this disease die.

INDIAN HELD ON CRUELTY CHARGE

BILL JONAH ACCUSED OF BEATING HORSE TO DEATH, AND GRAND JURY PROBES WHILE BILL IS INCARCERATED

Charged with beating a horse to death, Bill Jonah, an Indian from the reservation, is in the county jail, and the facts in the case are up to the grand jury for consideration.

Jonah left Klamath Falls yesterday, headed for the reservation, leading the horse behind his wagon. Deputy Sheriff Lloyd Low happened along the Fort road last night, and after finding the horse dead, he was informed by telephone linemen working nearby that the Indian had been beating the horse when he passed them. The officer apprehended the Indian further along the road, and at a hearing before Justice of the Peace Gowen last night, Jonah was bound over to the grand jury.

ROSEBURG MERCHANT BRINGS LAW AND EQUITY ACTIONS AGAINST FORT KLAMATH PEOPLE TO COLLECT ACCOUNT

An equity action was also filed, the defendants in this being James and Mary Dixon. OLD SKELETONS FOUND ON ISLE

AT LEAST SEVEN HAVE BEEN TURNED UP BY PLOW IN THE CLEARING OF LAND ON ISLAND IN LAKE EWAUNA

H. Quillitch of the West Side grocery is beginning to think that he has a graveyard on his hands, for in the preparation of the land on the island below the fair grounds for planting, no less than seven human skeletons have been found. These have all been turned up in plowing by Charles Beck, who is employed by Quillitch in clearing the land.

According to Quillitch, the shape of the skulls resemble the heads of white people more than the Indians to be found here, and he is at a loss to account for the presence of the remains on the island. There are two skulls in perfect condition, even to the teeth, and the skeletons are of various sizes, evidently the remains of men, women and children.
