

OF INTEREST TO WOMEN  
BY MARGARET MASON  
(Written for the United Press)

Mamie had a mint of money,  
So she shopping went;  
Bought a beaded brocade bag to  
Carry every cent;  
When she paid up for the purchase  
All her coin was spent;  
Still, although her purse is empty  
She is quite content.

NEW YORK, Nov. 27.—A bag in  
the hand these days is worth what  
you pay for it and that's saying a  
great deal, indeed. They come high  
and they must be held high in order  
to show off wonders of their hand  
made garbure.

Velvet for bags is the material de  
luxe of the moment; and combined  
with metallic embroidery, fur band  
ing and bead work, the result is a  
bag full of tricks.

One exquisite black velvet bag has  
a band of gold embroidery bisecting  
it lengthwise, with a narrow outline  
of skunk bordering that. It is finish  
ed on the bottom with bobbing balls  
of gold beads and drawn up on cords  
beaded solidly in gold.

Plain, but by no means poor is a  
lovely voluminous bag of velvet shrir  
red onto Chinese bracelets of jade in

lieu of other handles. These round  
bracelet handles are very practical  
and smart and are also shown in flat  
tortoise shell effects.

Indeed, tortoise shell vies with old  
silver to form the clasps and mounts  
of some of the smartest bags. It is  
particularly stunning combined with  
velvet in brown or golden tones.

Gay linings fill the new velvet bags  
with a splash of color and of course  
mirrors and change purses are an  
inevitable part of their interior make-  
up, as well as divers and sundry other  
articles of makeup. Rhinestone,  
enamel and jet clasps are features of  
the velvet bags, mounted on velvet  
covered tops; and these also usually  
swing on arm straps of the velvet.

The ball fringe of beads is a popu-  
lar finish for many of the bags and an  
exquisite model showing this novelty  
is made of alternate bands of old  
blue velvet and inch wide bands of  
cut steel beads. The ball fringe is  
of cut steel and the bracelet handles  
are of silver.

Truly, with such a bag of tricks at  
her finger tips, milady ought to be  
able to bag big game this open sea-  
son—many a loving hart or some-  
body's dear boy.

The annual bazaar of the Ladies'  
Aid Society of Grace M. E. church is  
to be held Friday, December 3rd, at  
the White building on Main street,  
and already women who find they  
have not the time to prepare all the  
articles they wish for Christmas  
presents are planning on attending  
and purchasing some of the splendid  
needlework to be offered for sale at  
this time. The committee in charge  
will be at the White building Wednes-  
day to receive donated articles, and  
they will also decorate the windows  
with articles for sale. The fancy work  
booth will contain much needlework,  
and it will be in charge of Mrs. H. E.  
Momyer and Mrs. Charles Martin.  
Mrs. H. E. Calkins will be in charge  
of the grab booth, Mrs. Elmer Mills  
will preside over the apron booth,  
the cooked food booth will be under  
the direction of Mrs. W. J. Roberts  
and Mrs. C. V. Fisher will have the  
tea booth. Besides their sale of ar-  
ticles, the ladies will also hold their  
usual luncheon and dinner, beginning  
at noon, and continuing through the  
afternoon and evening.

Mrs. Louis Gerber won the prize at  
the last meeting of the Auction Bridge  
Club, held last Saturday afternoon at  
the home of Mrs. G. A. Krause on  
High street, and which, as is usual  
of meetings of this organization, was  
highly enjoyable. Miss Lamm, Mrs.  
Albert M. Worden and Mrs. George  
Watt were present in addition to the  
club members, Mrs. Fred J. Williams,  
Mrs. William C. Hurn, Mrs. Charles  
I. Roberts, Mrs. Oscar E. Shive, Mrs.  
Silas Oberchain, Mrs. Elbert B. Hall,  
Mrs. Louis Gerber, Mrs. W. P. John-  
son, Mrs. L. F. Willis, Mrs. Gus A.  
Krause, Mrs. E. W. Gowen, and Mrs.  
Geo. I. Wright, and following the  
awarding of the prize, the hostess  
served a collation.

## Says Country Needs Well Settled Men as Teachers

(United Press Correspondence)

WASHINGTON, D. C., Nov. 27.—  
"We need more men teachers for our  
children; men teachers well enough  
paid to own a small farm, for this  
would not only stabilize the profes-  
sion, but also give the teachers an in-  
centive to become actively identified  
with every interest of his community,  
which is imperative."

Such was the statement of United  
States Education Commissioner Dr.  
Fallander P. Claxton, just returned  
from a three months tour of the West.  
He continued:

"In all fairness I must say that the  
West is educationally far ahead of  
the East. There are fewer children  
there, but proportionately speaking,  
the West does not stint in taxation  
for educational purposes. The chil-  
dren there have the benefit of every  
educational advantage that money  
and science can produce.

"For example, Oregon leads all  
states of the Union in giving school  
credit for industrial work done in the  
home. Oregon, therefore, is develop-  
ing thrift and vocation to an unusual  
extent in the pupils of the public  
schools.

"The state of Washington leads the  
country in the number of homes for  
teachers, and as a consequence is giv-  
ing stability to the profession of pub-  
lic school teaching. If to these homes  
school farms of from five to fifty acres  
could be added, men would be glad in  
many instances to make teaching  
their business.

"We must have teachers who will  
become identified with the interest of  
the community. Washington and other  
Western states, particularly Min-  
nesota, are solving these problems by  
their teacher-cottage systems in rural  
communities.

"California pays its teachers better  
than any other state. The average  
salary of public school teachers, in-

cluding rural and urban, throughout  
the country is \$490. California pays  
an average of \$950.

"Special mention should be made  
of the Western farm schools. These  
are not strictly vocational, but they  
aim to industrialize teaching, making  
it not only practical, but by means of  
this kind of teaching preparing pupils  
for community life. Such a school  
plan approaches pretty nearly ideal  
rural conditions."

After remarking the attractive city  
and state showing of New York in the  
exposition's educational section, Dr.  
Claxton praised the growth of the li-  
brary movement in rural communities  
as demonstrated there.

"The latest and most successful  
type of rural educational work is the  
country library system," he said. "The  
method in California particularly has  
been so satisfactory and extensive as  
to excite the interest of the whole  
country. The entire state will soon  
be served by the system. Already  
thirty-two out of the thirty-eight  
counties have been organized—some  
of the most mountainous and sparsely  
settled in the state. The county is  
the unit, and each organizes  
within itself."

Dr. Claxton said that never before  
have parents had such abundant op-  
portunities as today to choose the  
kind of school best fitted for their  
children, that educational opportuni-  
ties are within the reach of all.

#### Going to Move December 1st

There are many things in a furni-  
ture store that are inconvenient to  
move; among them are dressers, chil-  
dren's and dining tables. So next  
week you can find some excellent bar-  
gains in high grade dining and bed-  
room furniture at Virgil & Son's. It

## Prosperity News

More Graftonolas were sold by us in Klamath, Lake and Modoc counties in 1915 than all other makes together. A strong statement, but true, nevertheless.

We are the only dealers outside the principal cities of the Coast who have purchased in more than carload lots.

## Look Pleasant, Please

There are only two ways to get a perfect likeness of yourself. One is to look in your mirror, and the other (the most satisfactory way) is to go to the Henline Photo Shop and have your photograph taken.

Henline has the very best apparatus obtainable for picture making, and has the experience, also.

The electric skylight enables him to work in any kind of weather and at any time of the day with perfect results. His electric flash for the baby is another improvement in photography installed in his studio, and enables him to produce a likeness that is as true as life.

## Oregon's Rural School System Shown at Fair

(Continued from page 1)

ard card is now in every rural school in Monterey county.

Superintendent Harriett S. Lee, of Yolo county, writes: "I am now working to make your standard school plan

it Yolo county, and I wish to thank you for the many excellent pamphlets and cards I have received through the medium of your delightful representative at the P. P. I. E."

Of the club work it is conceded that no other state has the work so well organized. The local and county school fairs with the club winners' work, the organizing and directing of the work by the state school superintendent with the expert bulletins prepared by the state agricultural college for the children, telling them how to select seed and to do their work, are features which are raising the club work of Oregon boys and girls to a high standard. The judges at the state fair this year declared that the corn exhibited by the boys was fully 100 per cent better than last year, while the vegetables and other products were a much higher grade than ever before.

Hundreds of requests have come from all parts of the United States for the Recreation Manual, issued by the state department of education, and every playground expert pronounces it to be the best one published. Every teacher in Oregon is furnished with a copy of this manual, and the attention given to this problem in Oregon during the past two years is developing a happier, healthier lot of school children.

Commissioners from a number of the foreign countries have sent their secretaries to the Oregon Educational Exhibit with instructions to copy every chart shown, in order that they have material for a special report to their countries on our rural schools. What the county and city superintendents of other states say of our work is well summarized by G. E.

Wolfing, superintendent of vocational education, Gary, Ind., who said:

"In Oregon, through your standard for rural schools, your boys' and girls' industrial clubs and your playgrounds you are doing a work equal to that which the federal government is doing for the schools in the Philippine islands, and this work is attracting the attention of educators in all parts of the world."

## Moving Pictures

Undoubtedly one of the best photoplays that Mary Pickford has appeared in is Fanchon the Cricket that was shown at the Star last night, and will be shown again tonight. This production is as human and as tender as any photoplay production as has ever been shown in the history of the screen. The term of America's little sweetheart is a most fitting title for this idolized star and this picture is one that will surely show her deserving of the name. One of the best Chaplin comedies in two reels is shown in addition and together they make one of the best programs that the public has had a chance to see.

Tomorrow night an extraordinary Paramount production, "The Spanish Jade" will be shown. This is a splendid picture in five reels and is something out of the ordinary in the way of plot, scenery and effects, and is one that can be recommended as a pleasing story.
