NATURE'S DOCTOR

A STYLISH, muscle action health boot built on approved anatomical lines that give tired feet, twisted bones and five toes a chance to live, breathe and grow as Nature intended.

Heel. The last is designed to maintain proper balance and throw weight of body on the bony structure on the outside of the foot. Seng heel seat prevents throwing undue weight forward on transverse arch.

Flexible Shank. (No steel stiffening). Allows the foot all the spring and resilience of action Nature intended to strengthen the muscles that support the arch.

Correct Grip Instep Support. The last is whitened out under the arch while the insole and outside are cut in deeply at the shank and the uppers are fitted with "right and left" patterns so the shoe hugs tightly on the instep and a correct grip is produced. When laced over the instep it acts like a bandage for the weak arch, assists in proper distribution of weight and affords a support until the muscles acquire normal strength.

Toe Freedom. Secured by a last built on straight lines on inside from toe to heel. Note Nature's Line illustrated. Comfortable swing on outside to allow toes to expand under pressure.

EMBODYING every essential feature specified by leading surgeons to maintain normal feet and cure incipient cases of fallen arch.

Moving Pictures

"The Adventures of a Madcap" at the Orpheus tonight and Thursday night is a four reel natural colored drama, produced by Balboa for the Pathe company. This is a good drama, and it produces a beautiful effect on the screen.

The "Who Pays" series, the first of which is now showing at the Star, bids fair to be one of the best attractions that have been shown in the line of a series. These three reel dramas are all finished stories in themselves, and portray life in twelve different

episodes. Tonight a good three reel Broadway Star feature dealing with the questions of war will be shown. Also the Hearst Selig News, making a splendid seven reel program.

"The Spoilers," the famous nine-reel Selig production, is to be destroyed. Selig has called the film in, and is making elaborate preparations to stage the production on an even greater scale, making a spectacle of twelve reels or more that will even eclipse Griffith's famous "Birth of a Nation." There is great rivalry between these two wonderful producers, and Selig is determined to regain for his filmatisation of Rex Beach's famous story of the Frosen North the supremacy it held in film-

dom before "The Clansman" appeared.

"The Spoilers" has been shown in Klamath Falls two or three times, and there have always been crowded houses attending. A clamor has been set up for one more exhibition, and Manager J. V. Houston announces that he has succeeded in getting the film for next Wednesday and Thursday nights—positively the last time these films will be shown.
