TODAY'S ODDEST STORY

United Press Service
TOPEKA, Kans., Jan. 4.—Because, railroad officials say, a disastrous slump in local passenger business was occasioned by the vast number of automobiles in Kansas, representatives of the railroads will today ask the State Public Utilities Commission to grant them an increase from 2 cents a mile to 3 cents a mile on passenger rates. They have tabulated heavy statistics to help prove their case against the automobile.

News of Our Neighbors

Nitrate Deposits
A. H. Hammersley of Lakeview came into that city one day last week with a sample of potassium nitrate which assayed over twenty five per cent pure. Mr. Hammersley declared that the sample had been secured in the Goose Lake valley, but refused to give the location of his find. Considerable speculation has been occasioned by the sample.—Chewaucan Press.

Ten Below
Wednesday night and last night Jack Frost was out in force. It kept the plumbers busy today repairing bursted pipes. It is reported that the thermometer registered 10 below last night.—Alturas Platdealer.

Spring Deal Closed
One of the largest transfers of real estate for some months past was recorded at Jacksonville yesterday when deeds from Harry Silver and wife and James S. Bailey and wife to the Pompadour Mineral Springs company were put on record. While the deeds are for a considerable amount revenue stamps fix the value of the holdings at \$79,000. The property consists of the Pompadour Chief and the Ashland Lithia springs with adjacent real estate, all being taken over by the new company which has been formed by Medford, Grants Pass and Ashland people, and of which James A. Bell and M. P. Schmitt of this city are officers and directors.—Medford Sun.

Overalls for Housewives? Why Not?

MRS. E. W. DAVIDSON

"Now, if trouserettes have been introduced for dancing, why should not overalls be used for dusting?" asks Mrs. E. W. Davidson of Atlanta. "I wear them in my housework, and I am able to do far more with less effort than I used to. I think every woman who works ought to try them."

Winter of Ghastly Horror Awaits the Soldiers Who Are Stationed in Serbia

(Continued from Page 1)
The right arm and leg by a bullet, which came from above him. The bullet exploded in the leg, shattering it and the leg was taken off by the doctor. Gas gangrene set in the arm and that too was amputated. The young man thereby gains the doubtful distinction of having lost an arm and a leg by one small bullet. The world is likely to hear little of what is going on in Serbia, because of the fog of war which covers actual fighting grounds and obscures much that the world ought to know. But the Serbians will be suffering incredibly, as will also the invaders who enter the heart of the country.

Mill Enlargement
The directors of the Hawley Pulp & Paper company will meet within the next week to check over the plans for the half million dollar addition to the plant. As soon as the directors approve the plans, they will be made public.—Oregon City Enterprise.

Timber Activity
"Timber holders are going to have opportunities to sell their holdings during the coming year," said W. J. Conrad this morning, for there is already a very surprising inquiry for timber and many sales are now being negotiated. "I look for the biggest activity in timber there has been in Coos county for many years.—Marshfield Record.
