#### Driving Away Lonesomeness

Is easy these long winter evenings if you have a player piano. The greatest pleasure in its possession is in being able to play the world's greatest music and putting your own expression into it. It gives you a musical atmosphere during the years some one in the family is taking musical instruction, thus often preventing them from becoming discouraged by monotonous practice.

We have six different makes, from the cheapest reliable model to one of the world's best.

Ten carloads of lambs were sent to Levi & Co., San Francisco, by O. T. McKendree. There were 1,300 head in the shipment, comprising some of the mutton stuff Klamath county ranchers have been feeding during the fall and winter.

### PLOT TO BLOW UP MEXICANS FOILED

**United Press Service**

QUINCY, Tex., Jan. 20.—A plot to avenge the murder of Americans at Santa Ysabel last week was just nipped in the bud last night. A big quantity of dynamite, concealed in gunny sacks, was found in the camp of Mexican railroad laborers employed by the Santa Fe. A partly burned fuse showed how close the scheme came to being a success.

A posse chased the alleged plotters through the hills all night. Fred Hillston, a backwoodsman, was captured. He insisted that the dynamite was for stump blasting.

### Moving Pictures

Mary Pickford, the world's most popular photoplay star, will be presented at the Star theater today only, in her latest success, "The Dawn of a Tomorrow." The picture is of a melodramatic nature, refined by a touch of religious symbolism, and little Mary was well selected as the ideal interpreter of the little girl whose soul rises above the sordidness of the London slums, whose spirit is undaunted by

dingy crimes and poverty. The role, her force and sincerity of acting, will bring back memories of her wonderful portrayal of "Tess," in "Tess of the Storm Country." As the little rag-muffin of the slums, Mary Pickford is seen at her best. "The Dawn of a Tomorrow" comes to the Star as a special feature, and will be shown Thursday night only. A big Paramount comedy feature will be presented on Friday and Saturday.

Flying with a strong wind, the carrier pigeon covers 1,600 yards a minute.
