

Opposition to Wilson Is Found in His Own State

(Herald Special Service)

WASHINGTON, D. C., Jan. 27.—Word comes from New Jersey that a committee of ten democrats—five Wilson and five anti-Wilson men—has been formed to discuss and, if possible, to dispose of the problems which divide the party in that state. The equal division of the committee membership is taken here to indicate that the president's opponents at home are as numerous as his friends, and it bears out the reports which have been coming to Washington from New Jersey for some time past.

This unique arrangement was made by the president's secretary, Mr. Tumulty, who used a part of his Christmas holidays in a trip to Trenton to proclaim the glad tidings of peace among the New Jersey democrats. His words fell on deaf ears. Two factions were full of fight, and would not be pacified—and, in addition, the anti-Wilson party are looking beyond the election of next fall. They frankly express their doubts of democratic success, and they are looking out for number one. Wilson will not be re-elected, they argue; he may not even be re-nominated. After his defeat he will go to New York to live, engaging

in literary work—unless he decides to go into the jewelry business in Washington. At any rate he will be through with New Jersey, but we shall still be here. There will continue to be some local political spoils worth having. There will be some democratic mayors and democratic members of the legislature, some democratic appointments to state boards, the courts, and the like. The plums will go to whoever controls the party organization, and we intend to be those fortunate persons. If we surrender to the Wilson crowd now, they will control the party after Wilson's defeat, and they will enjoy the fruits of political manipulation which may fall to the minority party.

Mr. Tumulty argued diligently to enforce the president's authority, but he was unable to convince the recalcitrants that Wilson is to be a second-time winner. Accordingly, the most he could accomplish was the formation of this unique arrangement of a political "holding company," with the stock split fifty-fifty between Wilson and his political enemies. The New Jersey delegates at St. Louis will be for Wilson, of course, if he is a candidate—but the democratic party in New Jersey is no longer for Wilson.

Military Training Causes Stir in Educational Circle

United Press Service

SACRAMENTO Jan. 27.—Military training in the high schools of California is at present giving rise to much discussion, and Edward Hyatt, state superintendent of schools has a word for both sides of the question.

"Both sides of this controversy about cadet drills have so many good points," says Hyatt, "that one may almost halt on the fence between the two opinions. Neither is wholly good and neither wholly bad. I would not like to chill and discourage the boys of the state who have organized in good faith under a law of the state,

and who are honestly and earnestly working in the way the law directs. There are many good qualities they can get from their drills; good bearing, prompt action, cheerful discipline and physical development.

"On the other hand it is quite possible to carry the military idea too far. It would be bad to carry it to such an extreme that the boys' minds would be filled with professional militarism. It should be only an incident in their lives, not a ruling passion. This is a peaceful nation, and the boys should look forward to the pursuits of peace, not to the destructive works of war."

Lever on Agricultural Extension

HARRISBURG, Pa., Jan. 27.—Congressman A. F. Lever of South Carolina addressed the closing session of the annual meeting of the State Agricultural Association today, speaking of agricultural extension work.

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

WASH POISON FROM SYSTEM EACH MORNING AND FEEL FRESH AS A DAISY

Every day you can clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house your soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anemic looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.
