KLAMATH FALLS, OREGON
FRIDAY, JANUARY 28, 1916

ON THAT FERRIS BILL

FOLLOWING are extracts from Congressman Sinnott's speech against the Ferris bill, recently introduced on the West by congress:

Mr. Chairman, I am not opposed to the main objects of this bill. The people of my state, the state of Oregon, welcome regulation. They have it at the present time. I was a member of the Oregon legislature when we passed the law limiting a water right appropriation for power purposes to forty years. But I am opposed to the rental, to the taxation provision of this bill. I do not think that there should be any federal taxation upon our water powers under the guise and the subterfuge of rental of the United States public land. That is what I am particularly opposed to, because every dollar of rental, every dollar of taxation you euphemistically call rental, must be paid by the residents, by the water users residing in my state and the other states affected by this bill. What will be the result if this provision is left here? I call your attention to the hearings before the committee last year, on page 513, where there is inserted the blank form of the water power contract, form 61, revised December 20, 1913, when the present administration was in power, having the same officials as there are now in the department. The charges are placed, beginning at the first year with 10 cents, the fifth year at 50 cents per horse power; the tenth year and each succeeding year, the charges are to be \$1 per horse power. And then, again, on page 753 of the hearings, under this caption: "Determination of capital values of power sites together with a possible basis for rentals," the department again inserts the rental of \$1 per horse power. Now what does that mean to my state and to the other Western states affected by this bill?

On page 649 of the hearings we have this statement prepared by the geographical survey and the forestry department:

The accompanying tables show the estimated capacity of machinery that may reasonably be expected—

And mind you, "reasonably be expected"—

To be installed in the development of the water power possibilities of power site reserves outside of the national forests. It is estimated by the officials of the forest service that about 12,000,000 horse power can be developed on the national forests on the basis of low water conditions, with consideration, however, to some storage sites. It is roughly estimated therefore, that installation of water wheels aggregating 18,000,000 horse power capacity may reasonably be made on power sites of the public domain on the basis of low water conditions, and this may be increased to 29,000,000 horse power if all storage facilities are utilized.

Now these figures relate only to the eleven Western states. A possibility of developing on the public domain 29,000,000 horse power taxed at \$1 per horse power, the eleven Western states paying into the coffers of the government \$29,000,000 a year when the horse power that may reasonably be expected to be developed is developed.

In the report of the committee accompanying this bill, signed by the chairman, we find on page 11 that the horse power outside of the eleven Western states amounts to about 7,700,000 horse power. Not a dollar of rental, not a dollar taxation can be imposed on these water powers in the North Atlantic, the South Atlantic, the North Central and the South Central states, because they are not upon the public domain.

Therefore, they are offering to us a bait of 50 per cent of this contingent taxation and expect us to swallow it. You want us complacently to submit to this inequality? My own state, on the basis of these figures, prepared by the department, will pay annually over \$2,000,000 into the coffers of the United States government; and yet you tell us that we are on a footing of equality.

And yet you say you are not charging for the power. Why, Mr. Chairman, it is the sheerest sophistry and hypocrisy to say that that is not a charge for our water powers. It is a charge for the water power. Why, I

Starving Mexicans Beg for Soup, a Result of the Revolution

These photographs, recently taken in Mexico, show to what condition the people have come. These Mexicans are waiting for free soup furnished by the government. The top photograph shows a line of them, waiting for a soup kitchen to open, and the others show the soup being doled out.

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

MEAT CAUSE OF KIDNEY TROUBLE

IF BACK HURTS OR BLADDER BOTHERS

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority, who tells us that meat forms uric acid, which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

Too neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful, effervescent lithia water drink.—Adv.

FIRST STATE AND SAVINGS BANK
KLAMATH FALLS, OREGON

heard the same defense made by a man who was arrested for violating the Sunday law, for selling a glass of beer on Sunday and charging for it. His defense was that he sold a sandwich and made a present of the glass of beer; that he made no charge for the beer; that he made the charge for the sandwich. And that is your position here.

Scattered Shots

JUDGING FROM the stories of war prosperity in Japan and Scandinavian countries, it seems barely possible that a democratic administration isn't entirely responsible for "good times" at this period.

BUE LEST WE forget it, and there is death as a result—Feed the Birds!

WE MAY HAVE snow—but no floods.

THERE WILL soon be war in the local churches—a concerted offensive against Satan and Sin.

WE CAN AT LEAST be thankful that our fair city of Klamath Falls will never be subjected to a naval attack.

Following a conference with President Wilson, Representative Hay of Virginia, chairman of the house military affairs committee, said he would not support the president's continental army program, that he would oppose any material increase in the standing army and that he would stand only for a moderate increase in the national guard.

You can believe in the character of any establishment that regularly spends money to create confidence.

TODAY'S ODDER STORY
United Press Service
WINNIPEG, Man., Jan. 28.—
The almost extinct buffalo may roam the northern plains in great herds once more. The Canadian government is today conducting experiments looking toward that. Four bulls and sixteen females of the species catalo, hybrid buffalo, have been placed in Buffalo park, Wainwright, Alberta.

SAGE TEA DANDY TO DARKEN HAIR

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTER TO HAIR

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store. Millions of bottles of this old, famous Sage Tea recipe are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes, and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight, and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

After Five Years

Medford Testimony Remains Unshaken

Time is the best test of truth. Here is a Medford story that has stood the test of time. It is a story with a point which will come straight home to many of us.

M. S. Biden, shoemaker, 614 W. Clark street, Medford, Ore., says: "I suffered from rheumatic pains, caused by too much uric acid in my system. The pain was especially severe in my back. My kidneys were disordered, too, and my health was all run down. I couldn't stoop without getting dizzy. Two boxes of Doan's Kidney Pills removed every sign of kidney trouble."

Over five years later Mr. Biden said: "Kidney trouble and rheumatic pains which Doan's Kidney Pills cured me of, have never returned."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Biden has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. Adv.
