United Press Service
 WASHINGTON, D. C., Feb. 4.—Before the senate committee on military affairs, Senator Works of California branded President Wilson as a confirmed "jingo."
 He declared that the preparedness stumping tour by the president was uncalculated, and denounced Wilson's speech at St. Louis yesterday. In this, Wilson urged the building of the greatest navy in the world.
 "The tour just concluded by Wilson was an unwise attempt to scare the American people into submitting to a program they do not want," said Works, in concluding his tirade.

 The schools are still closed. Damage is estimated at \$200,000.
 Shade, fruit and ornamental trees and all kinds of shrubbery have suffered from the effects of the silver thaw. A wreckage of broken limbs and branches is all that remains of some of the most beautiful shade trees in the residential districts of Portland.

In some cases the weight of snow and ice uprooted large trees, and they have fallen to hinder traffic.
 Reports from suburban districts of the city where there are many fruit trees indicate that large numbers of the trees have been shorn of their limbs and branches.

 This is the unanimous view of officials and newspaper men.
