KLAMATH FALLS, OREGON FRIDAY, MARCH 31, 1916

ON THE HIGH

OREGON has fuel for automobiles in unlimited quantities daily going to waste. Alcohol can be made from sawdust and mill waste, now either burned or dumped into piles to rot. Government experts say this wood alcohol can be made at a cost not to exceed 12 cents a gallon, possibly less.

Engineers have said that it is but a question of time when our tonnage will be moved by alcohol instead of gasoline. The government has been advocating the more extensive use of alcohol for some time.

Other sections, which are not so fortunate in the matter of cheap material from which to produce it, such as mill waste, have other materials which can be handled as cheaply as this waste product of the lumber industry.—Portland Telegram.

WAR A MENACE TO LIVESTOCK

WHETHER the European war ends next year or five years hence the close of the struggle is going to bring many disturbing commercial problems to this country. One of the greatest of these will be the matter of the distribution of the world's meat supply. Hitherto the United States has produced enough stock to feed her own people and have a liberal surplus of meat left for export to Europe. Even at this time considerable pork and more or less beef is being sent abroad, but Europe's chief sources of supply have been South America and Australia. In both of these countries the production and manufacture of meat products has been given a tremendous impetus by the war and when the affairs of the world get back to normal the South American and Australian meat will offer a most serious commercial menace to the live stock producers of the United States. Just at present the consumer views this menace of foreign meat with complacency, if not with relief, but when our cattle, hog and sheep producers are forced to compete with it they are certain to run into all kinds of grief. The war in Europe is compelling the people of the United States to take a world-wide view of these commercial problems whether they want to or not.—Drover's Journal.

Chamberlain Says the U. S. Army "Historically Unfit"

Senator George E. Chamberlain "We are going to organize an army that will not have to delay four or five days before getting started in settling a little border trouble," said Senator Chamberlain of Oregon, chairman of the senate military committee, in opening the debate in the senate on the army increase bill.

"Dogs of War" Desert the Enemy to Follow U.S. Men

By WEBB MILLER (United Press Staff Correspondent) COLUMBUS, N. M., March 31.—"Dogs of war," hundreds of them, of motley breeds, colors and sizes, abandoned by their masters when the troops went into Mexico, inhabit the military base at Columbus. They scamper up and down the camp streets, now frolicking, now fighting, or lazily sunning themselves in the all-day heat.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound so one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrant.

This preparation is a delightful toilet requisite, and is not intended for the cure, mitigation or prevention of disease.—Adv.
