TEL.CO. TO MAKE IMPROVEMENTS

CREW TO SOON BEGIN WORK ON PLACING NEW POLES, LAYING CABLES AND STRINGING NEW WIRES

According to announcement just received by County Manager L. R. Robertson, the Pacific Telephone & Telegraph company has authorized extensive work here. This will greatly improve the local phone service, and the work will be completed the latter part of July.

The appropriation for the work is \$7,230. The job includes placing 237 poles, 162 cross arms, 16 anchors, 4,070 feet of aerial cable, 1,365 feet of underground cable, 890 feet of lateral pipe and stringing thirty miles of wire.

Dearest Public:

Pretty today, isn't it? Just to tell you that we have a number of new things for the season. Nearly everything we have can be worn with clothes.

Beautiful line of the latest in brooches, lingerie pins, cuff pins, sport pins, cuff links, stick pins and ice tea spoons and glasses, and the prices are the best.

We have a lot of new things in auto glasses and yellow scientific sun glasses, and they are cheap.

Last night I was in dreamland and I held you close and you picked a woodtick off me collar and I was so happy.

Darling, if you but knew how I have strived to please you by buying reasonable articles you'd not hesitate as you have been doing. If you don't think I am starving just come down here and feel of my—pocket book.

Did you hear the story of the girl whose skirt was so short no one saw her hat?

You should have a set of nested drinking cups, a thermos bottle and a pair of goggles if you go out for an outing.

Gentlemen's belt buckles in sterling silver, the season's newest—\$2.50. We give you a belt with the buckle.

Say, Myrtle, if you are going to be a June bride you'd better get busy, as George hasn't got the diamond yet.

Why don't you marry the girl lagard so she can have some new form of sorrow?

Please to hurry to my aid,
McHATTAN.

German Time Change Is Not Favored by America

United Press Service
WASHINGTON, D. C., May 4.—Whether the example of the German government, which set all the clocks in the empire ahead one hour today, could be followed in this country, is doubted.

It seems impossible that there can be harmony in time relations between nations when, as in the case of Germany, time will be measured by a new standard. It is announced by the Bundesrath that the advancing of time one hour in Germany will result in a vast saving of money, not to speak of the health benefits that will accrue to the workers, who will go to bed an hour

earlier each night and get up an hour earlier than usual.

According to economists in this city the action of the Bundesrath was primarily taken to conserve the nation's resources, two of which are lighting and fuel, and both of which are admittedly growing more scarce.

Under the new standard the nation will be just one hour ahead of the rest of the world. While workmen of other European nations and the United States are spending the hour between five and six snoozing, those of Germany will be hard at work. At the close of their working day the Germans will have an extra hour for recreation.

A woman traveling in Brazil sent cuttings to the United States from which the orange growing industry was developed.

Is your cigarette sensible?

All we say is—make your steady cigarette sensible, whether it is Fatima or some other one.

It's cool and friendly to your throat and tongue? Does it leave you feeling O. K. after a long day of smoking? Fatima certainly makes good on these two points.

The only question is—will they just suit your individual taste? They may or they may not. But it seems reasonable that they should for they cost only a few cents a pack, and you get a lot of pleasure out of them.

So you ought to try them. Do that today.
