OF INTEREST TO WOMEN

By MARGARET MADON
(Written for the United Press)

In the olden days 'twas a wily snake Got the best of Mother Eve;
But the times have changed for that serpent bold
You may well indeed, believe;
For down at her feet, on her dainty boots
And up in the air on her hat,
The modern Eve has the best of him now.
And what do you think of that?

NEW YORK, May 27.—Don't be worried and sign the pledge hastily if you see snakes these days. They are being worn in the best of families and every fair charmer looks like a snake one since the latest fad of serpents has come to light.

Just to turn the tables on the old snake for wearing Eve's nerves, her granddaughters are wearing him on their feet and heads.

It surely is going back some to go back to the Garden of Eden for our fashions. We began by decking ourselves out in apples and now we are up to the snake. Let's hope we stop at that and don't revive the fig leaf for the summer months.

At first glance these new high boots of gray kid appear to have tops of mottled silk, but a second glance confirms your sneaky, shaky suspicions.

They are very stunning, of course, and when worn with a wide brimmed sailor hat with a crown of the same mottled skin, the effect is not garish or bizarre, as you may at first suppose, but conservatively rich and original.

Belts and pocketbooks also are shown in the snake skin.

The summer girl is very keen for beauty patches. Indeed, she seldom appears in a barefooted condition without a tiny black heart, diamond or dot enhancing the dimple in her cheek or the corner of one eye.

However, beauty patches are not the only patches on the 1916 beauty. Altogether, they may well be said to have gone to her head, for the very newest sport hat is a crazy affair made exactly like your grandmother's silk patchwork quilt.

It is a soft, crush hat and the gayest scraps of silk are used in its bit or "miss" construction. They are set to-

gether with fancy long and short stitches, or feather stitching is a decidedly quaint manner.

Nuts on golf or tennis will feel very much at home in one of these new crazy patch head pieces and to designate a fair lady as crazy in the head will imply rather a degree of smartness than a stigma of adjectiveness henceforth.

Do you know how to crochet an edging on wash cloths and bath towels? If so, cease such superfluous embellishment and turn your knowledge to more wearing and wearable adornment.

If you do not care for the crazy

patch sport hats and still desire to be a smartly hatted sport, purchase a broad brimmed hat and a hank of yarn and then get busy with your crochet hook.

Just imagine your hat is a wash cloth and edge it in a vivid shade of green, corise, yellow or purple, and you will have a simply stunning chapeau.

If you are a versatile crocheter you can make a hectic yarn flower with a leaf or two to put on the front of the crown and you will find that you have hooked the most attractive sport hat of the season with your little crochet hook. This is a true little yarn.

The averages for the nine men appearing in the last two games, taken from the games played so far this year, show that the team is stronger in hitting than last year's club.

BERRY BOX STANDARDS IN TWO STATES DIFFERENT

United Press Service
SACRAMENTO, May 27.—The fact that the capacity of California's standard berry boxes is rated by poundage while the rating in Oregon is by cubic measurement explains why a number of California boxes were confiscated by Oregon weights and measures officials recently, according to Deputy W. H. Hendricks of the California weights and measures department.

California and Utah standard berry boxes are the same. Oregon and Washington have a different system of fixing the standard. Until the sealers of all the coast states get together and decide upon a general standard there will be continual confusion, Hendricks says.
