

WILSON LAUDED IN PLATFORM OF DEMOCRAT PARTY

APPROVES SUFFRAGE IN SMALL MEASURE

While Adopting Suffrage Plank, Democrats insist That This is a Question up to the States Themselves. "Americanism" is Also Injected into This Structure, and Adequate Defenses Are Favored.

United Press Service ST. LOUIS, June 6.—After a session of twenty-four hours, the resolutions committee has finished the democratic platform. This, as presented at the convention, contains twenty-four planks.

There was a long fight on suffrage, but the committee finally adopted a plank approving woman suffrage, holding it to be strictly a state issue. The platform heartily endorses the administration. It reviews the democratic legislation of the last four years and endorses the Underwood tariff schedule. "Americans of divided allegiance" are strongly denounced.

An adequate army and the full development of modern methods in sea coast defenses and maintenance are endorsed. It also suggests an adequate citizens' reserve, and a fixed policy for continuous naval development.

Pan-American unity and increased South American commerce are urged. The idea of intervention in Mexico is called "revolting to the people of the United States." Wilson's Mexican policy is praised.

The pending shipping bill is praised as an effective aid to establishing a merchant marine. Conservation of the nation's resources, and a vigorous prosecution of investigation tending to render agriculture profitable are favored.

Other things endorsed are: Federal aid in building post and military roads; living wage and eight hour day for all government employees; adequate industrial accident compensation; women's act; speedy enactment of child labor laws; development of harbors and inland waterways.

While awaiting the report of the resolutions committee this forenoon, Senator Reed addressed the convention. He declared the republicans had to nominate "a man who has not opened his lips for six years." Senator Stone moved the adoption

of the platform, and then Governor Ferguson of Texas presented the minority report, precipitating one hour's debate.

The minority report affected only the suffrage plank, urging a substitute plank containing no recommendation for suffrage, but urging the states to settle this question individually. Suffragists in the gallery hissed Ferguson.

The platform was adopted as presented by the majority of the resolutions committee. The democratic convention then adjourned sine die at 3:11.

During the platform debate, Delegate L. A. Mooney of Massachusetts demanded recognition. He presented a plank saying the democratic party sympathized with the Irish people's fight for liberty. The delegates hissed, laughed and groaned at this. There were yells of "Raus mit him!"

ATTEMPT IS MADE ON LIFE OF SPRY

BOMB SENT THROUGH MAIL TO GOVERNOR OF UTAH EXPLODES AS MAIL IS TRANSFERRED IN MONTANA

United Press Service BUTTE, Mont., June 16.—A bomb concealed in a sack of mail addressed to Governor Spry of Utah, exploded today, when the sack was tossed from a Northern Pacific train to the mail car of an Oregon Short Line train. The interior of the O. S. L. car was completely wrecked.

The bomb is believed to have been sent by members of the I. W. W., who have repeatedly threatened the life of Spry because he would not commute the death sentence imposed upon Hillstrom, an I. W. W. agitator convicted of murder.

In from Eugene Lawrence W. Mehaffey, who motored north to the Rose Show, came in last night with Miss Maud Newbury, Mrs. Vernon T. Motschenbacher and Donald Newbury as his passengers. The Newburys, who are attending the University, will spend the summer with their mother, Mrs. Wilbur A. Jones.

Here for Summer Melzine Mumaw, who has been attending college in Los Angeles, is here to spend the summer as the guest of Mrs. A. F. Salicky.

Going Camping. Mr. and Mrs. John Siemens and Mrs. Joseph Brett leave Sunday for a fortnight's outing at Odell Lake.

Prohis Prepare for National Convention

United Press Service ST. PAUL, Minn., June 16.—Pledges of prohibitionists to vote against any presidential candidate or party not pledged to the abolition of the liquor traffic, rather than an actual serious attempt to elect a national ticket, seemed the possible keynote today of the national convention to be held here July 19th.

On July 18th, a preliminary meeting will be held of the 5,000,000 voters' league, which seeks to align 5,000,000 voters on the platform of a prohibition pledge, rather than for the prohibition ticket.

It is claimed that 150,000 voters in Minnesota alone will be secured. Eugene N. Foss, former governor of Massachusetts, and William Sulzer, former governor of New York, will be here during the convention, opening July 19th.

College men from the entire nation will hold an oratorical contest as a preliminary to the convention, on July 17th.

KLAMATH USED AS BRIGHT EXAMPLE

MEDFORD IS AWAKENING TO THE FACT THAT A PAYROLL IS MORE POTENT FOR PROSPERITY THAN IS FRUIT RAISING

Good words for Klamath Falls from Medford? Doesn't seem possible, does it?

Yet the fact nevertheless remains that our busy little city is at present being held up as a bright and shining example of what municipalities can do. Witness the following in regulation body type, appearing in a recent article in the Medford Mail Tribune, urging efforts for more industries:

"On account of discriminating freight rates which force up the price on all merchandise and the lack of payrolls which force down the pocketbooks of the local consumers, it is unquestionably hard scratching to make both ends meet in this valley at present. As soon as we secure a railroad to the coast, a lumber mill or two and a box factory, conditions will be as they are in Klamath Falls, for instance.

"Last week Mr. Larned and Mr. Hoke visited Klamath county, and sold in Klamath Falls alone more carloads of goods than this whole valley will consume, according to the present indications. Yet Medford is twice the size of Klamath Falls. What's the answer? They have the payrolls. We have not. The local merchants and consumers appreciate the unexcelled quality of the pack of the local canner, but there can't be much increase in consumption until there is a marked increase in cash."

War Bulletins

United Press Service PARIS, June 16.—The chamber of deputies has met in secret session to interrogate the government regarding French defense preparations at Verdun before the Germans began their attack there.

It is officially announced that, following a two day lull, the Germans yesterday attacked Thiaumont farm. Their assault was fruitless, as French artillery killed the Germans in the trenches before they were able to see.

United Press Service BERLIN, June 16.—The Germans gained ground on the southern slope of Dead Man's Hill and captured several Maxim's yesterday.

United Press Service PETROGRAD, June 16.—The Russians captured 14,000 more Austrians while advancing between Kovel and Pruth. This makes a total of 154,000 prisoners.

Vacuere is Married John Raymond Pickett of Malin and Ethel Donnelly were married here last night. Pickett is well known as a broncho buster and rope artist.

Only One Vote Is Cast in Opposition to the President

Woodrow Wilson

Thomas Marshall

United Press Service ST. LOUIS, June 16.—The democratic national committee last night renominated Woodrow Wilson and Thomas Marshall as democratic candidates for president and vice president.

Wilson was nominated at 11:50 last night by a vote of 1993 to 1. Robert Emmett Burke, of Illinois, attended the convention for the express purpose of voting against Wilson.

The Wilson demonstration was the noisiest ever held in St. Louis. It

lasted for three-quarters of an hour. Four minutes after Wilson was nominated, Marshall was nominated by acclamation. All of the opposition to Marshall heard several days ago had completely vanished last night.

United Press Service WASHINGTON, D. C., June 16.—Many congratulatory telegrams have been received today by President Wilson. Vice President Marshall wired: "In the fight you are to win, I am always yours to command."

WENDLING QUILTS LUMBERING GAME

FORMER HEAD OF WEED LUMBER COMPANY AND KLAMATH DEVELOPING COMPANY IS INTERESTED IN ADDING MACHINE

George X. Wendling, one of the Pacific Coast's best known lumber men, formerly head of the Weed Lumber company, and at one time head of the Klamath Development company, has forsaken lumbering. He has become interested in the Dalton Adding machine company, and is now with that company as vice president and general sales manager.

Wendling has many friends in the Klamath country who wish him well in his new venture.

HONORS HEAPED UPON OUR "CAP"

PRESIDENT OF LOCAL BANK, ALSO HEAD OF COMMERCIAL CLUB, IS GIVEN IMPORTANT PLACES IN STATE WORK

Captain J. W. Siemens has just been notified by C. C. Chapman of his appointment as a member of the committee to prepare a tentative constitution for the State Chamber of Commerce, an organization of all the commercial and booster bodies of the state, for concerted effort for the upbuilding of Oregon. Siemens is now considering two drafts prior to their submission.

The Captain has also been notified of his election as a member of the finance committee of the State Tax League. This statewide organization has started an effective campaign to reduce taxation in Oregon by the elimination of useless expenses and the use of real business principles in the conduct of state, county and municipal affairs.

SUNDAY BOATING TRIPS RESUMED

CALKINS & HAMILTON WILL OPERATE THE SPEEDY MOTOR-BOATS IN SUNDAY EXCURSIONS TO UPPER LAKE POINTS

The most certain indication that this is the gladsome summer time in the Klamath Wonderland is the announcement of the resumption of summer excursion schedules by Calkins & Hamilton, who operate the mail boats Oakland, Curlew and Spray on Upper Klamath Lake. The first excursion will be held Sunday.

Buses will pick up passengers along Main street Sunday morning, and the boats will leave the landing at about 9 o'clock. The different points of interest around the lake will be visited, and a stop will be made at Rocky Point for lunching and fishing. The Sunday excursions have always proven very popular with Klamath people and Klamath visitors.

Teddy's Condition Is Much Worse Today

United Press Service NEW YORK, June 16.—Colonel Roosevelt suffered another severe coughing spell last night. As a result, his condition is much worse today, and his physician refuses to admit visitors.

Roosevelt is unable to speak above a whisper. He appears to be continually suffering great pain.

Yesterday he went to a specialist for a second examination. The X-ray proved the first diagnosis of a torn chest ligament to be correct.

Friends of Roosevelt and Hughes believe the two great republicans will hold a conference as soon as the colonel is sufficiently recovered from his present trouble. It is also declared that Roosevelt intends to take the stump for Hughes.

BALL GAME WILL START EARLIER

UMPS WILL YELL "PLAY BALL." AT 2:00 SHARP, SO MEDFORDITES CAN GET HOME THE SAME DAY

Going to the game Sunday? That's about as astute a question as the one sprung these days by the homeboys: something about, "Is this hot enough for you?" but what we're driving at is that if you are going—and all of us are—you must start early.

Following receipt of a request from Medford, it is announced today that Sunday's game at Medford Park will start promptly at 2 o'clock. This will make it possible for the Medford players and fans to get an early start on their homeward journey.

This game will be a hum-dinger from all the dope. With Hughes here to paste 'em over, the local fans feel a whole lot easier, but they also keep in mind the fact that Medford has a strong team this year.

Dick Nelson will probably be given a tryout in the box Sunday for part of the game, as Manager Watt will need a second pitcher for the July games and the big first bagger is anxious to show what he can do.

Caster will no doubt pitch for Medford, with force behind his throws, and Force also at the receiving end of the battery. In First Sacker Wilson, Second Sacker "Shorty" Miles, Shortstop Scholz, and Moran at the difficult corner, Medford fans claim an exceptionally strong infield, with men equally good at hitting and fielding. The Medford outfield, Coleman, Miller and Pelousis, is also said to be a wee bit speedier than most garden series.

Up from Merrill Dr. J. G. Patterson was here from Merrill yesterday on business.

Here from Malin. B. Ohlsen is here from Malin.

Charles Lenz Jr. is here from the Klamath Marsh.

FOUR INDICTED AND SIX FREED BY GRAND JURY

DOYLE IS HELD ON A MURDER CHARGE

Men Who Were Charged with Killing Steer on Fort Klamath 'Saus Are Freed, as Was Man Held on Charge of Cruelty to an Animal—Grand Jury is Discharged After a Lengthy Service for People of County

At 3:45 this afternoon, the Klamath county grand jury returned the following in the circuit court:

True Bill James Michels, failure to support family.

Francis Krueger, burglary. William Doyle, murder.

C. C. Randolph, larceny of a steer. Not True Bill Dan McCauslin, obstructing an official.

Geo. Bodnar, larceny. J. E. Leach and Elmer Gussow, adultery.

Frank von Hatten and Charles Price, larceny.

Doyle is indicted for the murder of Mrs. Mary Wilson and Mrs. Joseph Jones in Langed Valley last February. Krueger is accused of burglarizing the Will Irwin ranch, and Randolph is held for an alleged steer theft near Crescent.

The grand jury was discharged by Judge Kaykandal after it reported. This grand jury will serve through two terms of the circuit court.

WRECK OF BEAR IS BEING PROBED

ONLY FIVE DEATHS—EXPERTS TODAY BELIEVE IT WILL BE POSSIBLE TO SAVE THE STRANDED LINER

United Press Service BUREKA, June 16.—Survivors from the wrecked steamer Bear started for San Francisco on a special train. The captain and crew remained to testify at the coroner's inquest over the bodies of the five victims. All others of the passenger list still alive have been accounted for.

Experts believe the steamer may be saved. The light crane and hoists are being removed around Bureka as a preliminary to trying to save the vessel from the reef.

Re-Mapping Europe Will Be Some Strenuous Task

United Press Service LONDON, June 16.—Re-mapping Europe after the war is going to be as colossal a diplomatic task as the war has been a military undertaking. European statesmen believe it will take several years. Some say things will begin to adjust themselves gradually while the fighting still progresses and that the struggle will subside by degrees as the readjustments are effected in spots. To show how complicated the situation will be, the following is a summary from good diplomatic authorities, of the change the allies unquestionably will demand if they win decisively over the central powers:

Belgium restored and possibly even possession of Holland as far as the River Waal; Holland, in this case being compensated by a gift of German territory to and including Oldenburg. The French frontier extended to the Rhine from the Swiss to the Belgian or Dutch frontier. The Tyrol, Gorizia and Istria, including Trieste, transferred from Austria to Italy. Vorarlberg possibly transferred from Austria to Switzerland. East Prussia transferred

Porcine Legislation May Delay Crater Lake Roads

Southern Oregon can do a great deal to insure the pavement of the roads in Crater Lake National Park if all of the commercial bodies, county courts, etc. will at once take action to have the Oregon delegation make a stronger fight for the appropriation for this year's work, yet to be passed by congress. The Commercial Club here has already taken up the matter with the Oregon delegation and with other commercial clubs. An appropriation of \$100,000 was asked for the pavement of the highways in the park this year. Lieutenant George E. Goodwin, U. S. Engineer Corps, in charge of the highway construction for the road, ment, came in last night with a number of men to begin paving the highway's work. Goodwin says work will be carried on until the snow melts. Until the snow melts, the highway work by the crew will be held up. Equipment has been damaged and some of the men are suffering from similar work. The equipment has been damaged and some of the men are suffering from similar work. The equipment has been damaged and some of the men are suffering from similar work.
