

MAY RECALL CONSULS FROM MEXICO

Mexican Garrisons Strengthened With Men; Yankees Arm

WASHINGTON, D. C., June 17.—The state department is seriously considering recalling all American consuls from small Mexican towns.

This follows a note, alleged to have been prepared by General Trevino, threatening to attack the American troops unless they are immediately withdrawn. The Mexican embassy here declares the printed text of the note is undoubtedly false.

The war department has received word from private sources to the effect that notices have been posted in Chihuahua and Juarez urging Mexican civilians to at once secure arms and ammunition.

FOUR MILE LAKE ALIVE WITH 'EM

ADVISABILITY OF PLANTING FISH IN STREAMS IS CONCLUSIVELY PROVEN BY RESULTS IN KLAMATH WATERS

A decided proof of the advantage of the state fish and game commission's policy of stocking streams and lakes with fish is shown by conditions at Four-Mile Lake and Four-Mile Creek. W. Paul Johnson, O. W. Robertson and Game Warden Stout and Ramsby made a trip there a few days ago, and they were astounded by the condition of the fishing.

This lake and creek were planted with fish three years ago by Ramsby and Stout. Today every time a line is thrown into the water a fish quickly grabs it, and there is a lively tussle in store for the angler. It is possible to count myriads of fish from the shore.

Robertson and Johnson caught a beautiful string of gamey rainbows, weighing from two and a half to six pounds each. They say it is just a question of staying there and catching all you wish—but of course Johnson and Robertson are not of the "game hog" class.

The party made the trip partly by auto and partly on foot. The last five miles was made over snow from five to ten feet in depth.

Mrs. Cefer Better.

Mrs. Dorothy Coker, who has been suffering from an attack of acute rheumatic trouble, is reported as much improved today.
