

**AMERICA'S ONLY MULE CAR LINE IS OLD FOR JUNK**

United Press Service  
MIDDLETOWN, O., June 21.—Middlewest claims it has the only mule car in passenger service in the United States. The car operates between the Big Four depot and the business district. Two mules, one dilapidated car and a few blocks of track are all that is left of the system, which was built in 1879. In 1894 the sale of the line for \$10,000 was stopped on the ground that the price was too low. In 1914 the line was sold as junk to Isaac Silverman for \$450. But Silverman found that carrying passengers was profitable. So the mule car is still doing business.

Fifth breeds flies—flies carry fever.

### Backache Is Discouraging

But Not So Bad If You Know How to Reach the Cause

Nothing more discouraging than a constant backache. Lame when you awake, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Klamath Falls people recommend Dean's Kidney Pills. Read this case:

Bird Lonsley, dairy business, 104 Warden avenue, Klamath Falls, says: "I have been subject to backache and kidney disorders for the past eleven years. At times, I have been in a pretty bad way. My back gets so lame and stiff that I could hardly straighten up when I got down. Sometimes it often caught me in the small of my back, and for a while I could hardly move. I have always found quick relief from Dean's Kidney Pills. A box or two sets me up in fine shape."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Dean's Kidney Pills—the same that Mr. Lonsley had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

## Hughes' Home in Washington and late Picture of Mrs. Hughes

## Even the German Baby's Rations Are Cut Short

To learn at first hand what experience civilians in Germany were having as a result of the food stringency, Shepherd went to Rotterdam and got a set of food stories from travelers from Germany.

By WILLIAM G. SHEPHERD (United Press Staff Correspondent)

ROTTERDAM, Holland, May 26.—(By Mail).—Right into the baby's cradle, at his five daily meal times, reaches the hand of the great German government, in wartime.

It snatches his milk bottle from him, empties out half his milk and fills up the bottle with breakfast food. Twice a day, when bottle time comes, this great hand keeps his bottle away from him, and with spoon feeds him with apple sauce, crushed carrots and seived spinach.

You can't get the babies to talk about it, though their mothers have a great deal to say on the subject. But the fact remains that the babies thrive on their new menus and that perhaps the baby experts of Germany have found a new and better way to fill their baby stomachs.

"Here's my little muchacho," said a Spanish lady from Germany who had, as she said, "brought him out to get some milk." She displayed a little fellow eight months old. "In our town in Germany, if the doctor gives you a certificate, you may have a pint of milk a day for your baby.

"The doctor works with the government, you understand, and he makes every effort to persuade mothers to nurse their children at the breast. "If he considers that a mother is able to do this, he will not issue a milk certificate and the mother will not be able to purchase milk.

"Nurses also are under government control and when they discover that a mother is able to nurse her baby it is her duty to notify the doctor to that effect and it becomes his duty to cancel the milk ticket. "The milk that is issued is not enough for a baby, of course, but the scientists have worked out a way of

mixing it with an oatmeal or wheat broth. This is fed from the bottle three times a day. But he must have food two other times a day and the scientists are busily instructing the physicians and nurses, who in turn instruct mothers how to cook apples, carrots and spinach for the babies.

"We cook the apples or carrots until soft as porridge and serve it to the baby with a spoon. He hasn't a tooth in his head yet, but he has learned to eat from a spoon. We put the boiled spinach through a sieve. "What does he like best of the three?"

"Apples, because we always put a little sugar into the apple sauce. Carrots he likes also, but spinach! He makes faces at it, but when he cries for food, he can't always be silenced even with spinach.

"He grows fat on his war food, too. My other children always had milk five times a day, and as much as they wanted. They liked milk, as all babies do. But this baby is learning to eat things that he doesn't like.

"I don't like to see him have to do it. I feel sorry when I must feed him spinach. Think of it! And so here I am in Holland to give him all the milk he wants for a time. He laughs and coos every time he sees the milk bottle coming. He knows the difference between milk and carrots."

"Doesn't he?" she said, turning to the baby. He said something which was taken for, "Yes."

(Getting a beefsteak for your home in Germany will be the theme of the next Shepherd German food story. It's a task worth reading about.)

The July American Magazine in the July American Magazine is an interesting article by Marie Crowell about "Uncle John" Brashear, astronomer and scientist, considered by Charles M. Schwab to be the most wonderful man he has ever met. There are a number of other articles on timely subjects, and an unusually good assortment of fiction. The fiction includes "The Cinderella Story" by Oscar Graeve, "Men's

**Double Tread Tires**

Your Junk Tires Made to Run 2,500 to 7,000 Miles More

Our method will save you 75 per cent of your tire cost. We will give you a DOUBLE STRENGTH casing practically puncture, blowouts and weather proof. Send us two of your old junk tires and we will combine them into one thoroughly serviceable casing.

The cost is insignificant from point of mileage, especially in view of the fact that new-tire prices are soaring. It figures a small fraction of a cent a mile, whereby you save the price of a new tire. If you have several we will be able to re-tire the four wheels of your car. If you have only one we will furnish the others.

There are many hundred satisfied customers. One trial will number you amongst them.

# DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, nervous days and sleepless nights have become real converts to the morning-inside-out hot water with limestone phosphate will not cost much at drug store, but is well demonstrated to anyone by the sweetening and cleansing effect upon the system.
