For this reason, and on acount of the republican protective tariff, our dos on the coarser grades has been in the hands of American producers. On the finer grades our chief competitor has been Switzerland.

> A comparative statement of wages in the production of fine files in the United States and in Switzerland ows that the minimum advantage in wage rate in the latter country is, for diplots and die makers, \$1.89 per day: forgers, \$1.19; grinders, 65 cents; blank finishers, 47 cents; cutters by hand, \$1.66; cutters by machine, \$2.06; etchers, \$1.78; straighteners and trimmers, 80 cents; hardeners, \$1.16, and mers, \$1.24. The max vantage varies from \$1.34 to \$2.78 in favor of the Switzerland operatives.

the executive committee of the league to withdraw the measure at this time so as to concentrate their strength gainst the initiative measure proposed by Dan Kellaher and the Independent Retailers Association to repeal all existing Sunday closing laws.

"Our action in deciding not to put the one day rest in seven measure on the ballot does not mean that we have ing measure," said Mr. Tufts recently. "It is simply a difference in pro

cedure. Mr. Kellaher declared recently that he and his associates would file law of the state. The executive committee of the league concluded it would be better to have but one Sunday bill before the voters, so as not to confuse the issue, and to hold our measure in abeyance.

"So we will try out the question in November whether the people want a Sunday law by taking the field against pect to snow his measure under by a heavy vote. In this way we will demonstrate to the legislature that the people of Oregon want a Sunday rest law."
