

OF INTEREST TO WOMEN

By MARGARET MASON

(Written for the United Press)

Oh, she is a rain dear
In oil-silk chapeau
And sleek coat of oil-silk
From neck to her toe.

NEW YORK, July 8.—Ducks aren't the only creatures that love to take a promenade on rainy days. All the dear feminine creatures of the human race are just crazy about summer showers, now that the swagger new rainy day sets of oil silk coat and hat are for sale. No wonder, for they are awfully ducky, too.

Each sweetheart, wife and mother finds she is a little rain dear in these sleek new outfits, but alas, every husband and father finds the rain a little dear for him also.

He disagrees with the soothsayers who advise you to put a little away for a rainy day. Father finds it wiser to put away a lot against the coming of this 1916 rainy season.

These new transparent raincoats of brilliant hued oil silk that look like feigning we had with us in limited quantities last season, but this summer they have burst forth in profusion and variety, and are topped off with the most perky of little slouch hats to match. These hats come in two models, one fashioned solely of the oil silk with a stitched brim and a fold and pump bow of the same around the soft crown. The other is a little soft shaped affair of the oil-silk lined throughout with the same shade of taffeta that pulls down snug on the head and allows the floppy brim to turn up or down or every which way to suit your face or your fancy. A narrow band of the taffeta passing through oil silk straps ties in an adjustable and fetching bow on the left side, and thus regulates the head size.

These desirable rain day outfits that are as serviceable as they are charm-

ing come in all decorative colorings of vivid green, Mediterranean blue, amber, corse, purple and white, as well as sober black and gray—both pearl and Oxford.

When you once glimpse the new umbrellas you'll spend all your time praying for rain. They are chunky and stubby and adorable, and also dear.

They are called sun umbrellas, and can be carried equally well in rain or shine, but they are really more rainy looking. They come in black, purple, green, red and blue, and all have stocky little clubby handles with either a loop of grained leather like a cowhide whip, to slip over your wrist or else they have stunning white ivory rings for the same purpose.

These with the white bracelet effects have their little blunt stub ferules tipped with the white and also the ends of their ribs.

Others not quite so stubby, but most attractive have handles of amber and tortoise, and there are also some with handles of white capped in green or blue, and some with handles of black and white stripes.

Truly the rain is a blessing to bring out not only nature's flowers, but all the fair human roses, Pansys, Myrtles, Daisies and Ivys so smartly hatted, coated and umbrelladed.

CHAMPION RIDER OF LAKE COUNTY

DEL CANNON, WHO WON BUCKING CONTEST AT ASHLAND ROUND-UP, WORKS ON HORSESHOE BAR RANCH IN LAKE COUNTY

Inadvertently the Herald erred yesterday in stating that Del Cannon, the champion bucking horse rider at the Ashland Round-Up, July 3, 4, 5, was from Pendleton. Cannon is from northern Lake county, where he works on the Horseshoe Bar ranch. He is but 16 years old, but knows how to stay on the back of a broncho.

C. C. Couch, head of the Horseshoe Bar ranch, Cannon, and several other contestants in the Ashland celebration, left this morning for home.

According to J. Frank Adams, a judge of the round-up, the show was a real success, many good riders and several bad horses being entered. Adequate accommodations for feeding the visitors were lacking, however, says Mr. Adams.

Back From Ashland. Miss Fernie Hoagland returned last night from a two week's visit with relatives and friends in Ashland and the Rogue River Valley.

MR. AND MRS. CHARLES W. FAIRBANKS.

"It was upon statesman-like qualities that the Charles W. Fairbanks supporters placed emphasis when they placed his name before the Chicago convention."

An extremely tall man, Fairbanks has been termed "The Sycamore of the Wabash." In personal appearance the choice of the Indiana delegation bears a resemblance to Lincoln. Not alone in appearance, but in methods of work, in thinking, and in a sort of dry humor, Fairbanks is said to resemble the Civil War president.

A clean record as United States senator from Indiana and the manner in which he filled the office of vice president are the chief assets in the Fairbanks' claim for fitness for re-election to a high office of the nation.

It has been pointed out that when Fairbanks entered the United States senate in 1897 he did a remarkable thing even in those days by severing every railroad connection which he had formed during his lawyer days, and by selling every public service company security. In his four years as vice president he was absent from the presiding chair in the senate only two days.

"TRENCH MOUTH" LATEST WAR ILL

BOTH THE ALLIES AND TEUTONS SUFFER, AND MEDICAL WORLD IS MYSTIFIED BY THE STRANGE MALADY AFFECTING SOLDIERS

United Press Service LONDON, June 20.—(By mail)—Men with their mouths crammed with cotton to keep their cheeks from touching their teeth or their tongues, are becoming more or less familiar sights in the military hospitals in Europe.

A new, unnamed disease has made its appearance and, though cures for it have been established, its nature is not fully understood. It exists among the Germans as well as among the allies. German prisoners say that the German medical men also are mystified by this latest human ailment. It is believed the trench rats carry the unknown germ, which has not yet been identified.

Major Dr. Sidney McCallin, formerly at Chicago, but recently attached to the British R. A. M. C., has studied the new disease in the laboratory of the Chicago medical unit. The first symptom is the growth of a white lining in the mouth and throat. This resembles diphtheria. The inside of the mouth becomes painfully sensitive, and at the climax of the attack the entire mouth is padded with cotton. After the climax, recovery is rapid. "Trench mouth" is the popular name of the ailment, but the British Tommies call it the "foot and mouth disease," or sometimes, "tumpy jaw."

Returns From College. Miss Ella Dows, who attended Pacific University at Forest Grove last winter, returned yesterday to spend the summer. She has been in Ashland for a few weeks visiting friends.

JOLLY TO CATCH FOR K. F. SUNDAY

DUNSMUIR CATCHER SAID TO BE A GOOD HITTER—TAKES JIMMY CLARKE'S PLACE BECAUSE OF LATTER'S INJURY

Jolly, catcher for the Dunsmuir baseball team, will catch for Klamath Falls tomorrow afternoon against Willows. Jolly was here several weeks ago when Dunsmuir played Klamath Falls, and his work was considered good. He is said to be a good hitter. Jolly will arrive this evening. Jimmy Clarke, who sustained an injured finger in the game at Dorris Wednesday, will be on the bench. Jolly comes for the game tomorrow only.

All the dope indicates a good game tomorrow. Willows defeated Klamath Falls at Dorris Wednesday, but the home boys and fans say there are good alibis to explain the defeat. Bigbee is not in the best of shape, but can be counted on to pitch a good game. Hoover, varsity pitcher for Stanford University, will be on the mound for Willows.

The members of the Willows team, T. G. Ajax, their manager, Mrs. Ajax and Mrs. A. P. Deacon today are enjoying a trip around Upper Klamath Lake in Captain Calkins' boats. The party intended to visit Crater Lake while here, but as there is still considerable snow at the lake, and for some distance this side, this trip was abandoned.

KLAMATH COUNTY BABY IS WINNER

CARRIES OFF THE SILVER CUP IN COMPETITION WITH HUNDREDS OF BABIES AT THE BABY SHOW HELD IN ASHLAND

One of the features in connection with the big celebration in Ashland that attracted more attention among the women visitors—and many of the visitors of the sterner sex, too—was the exhibition of the babies from all sections of the state.

Several hundreds of the future great were exhibited, and, of course, this "first product of the state" was judged by competent judges of humanity in the miniature.

To Mr. and Mrs. Clyde Briggs of the Fort Rock section of Klamath county goes the honor of having the finest baby on exhibition. Their little daughter, Lois, aged 9 months, was declared to be the finest specimen of babyhood, and was awarded a silver cup in token of her superiority.

Mrs. Briggs, by the way, is a sister of Mrs. J. Fred Goeller of this city.

In on Visit. Mr. and Mrs. Earl E. Walker of Bly are in Klamath Falls, returning from the Ashland celebration.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath what a gratifying change would take place. Instead of the thousands of sickly, anaemic looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drugstore, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.
