**United Press Service**  
 BURENTO, July 14.—A naturalization school for Italians has been started here. Classes begin for citizenship study at the school three nights a week. No one is admitted to the school unless he first declares his intention of seeking citizenship. Sessions are held in the public school house. Isaac Wells, an attorney, is the instructor. Similar schools were started a few months ago in Wood and McCloud, where there is a large Italian population.

**COMB SAGE TEA**  
**INTO GRAY HAIR**  
 MARKERS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the sage tea and sulphur soap at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 20 cents a bottle, at drug stores, known as "Wright's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening our hair with Wright's Sage and Sulphur Compound, we are not telling lies. It does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. In morning all gray hairs have disappeared. After another application of the new hair becomes beautiful, glossy, soft and luxuriant. It does not appear years younger. Wright's Sage and Sulphur Compound is the only hair restorer. It is not a dye, and does not contain any harmful ingredients. It is not a hair restorer, and does not contain any harmful ingredients. It is not a hair restorer, and does not contain any harmful ingredients.

 HENEY'S "CONVERSION"

FRANCIS J. HENEY of San Francisco has announced that he will support Wilson. It required a telegram of 1,200 words for Henny to convey this pleasing information to the president—and yet we cannot regard Henny's a real "scalp" for the democratic chieftain. Henny is described in his biography in "Who's Who in America" as a "Roosevelt democrat," so that he has merely gone back to his first love. It is somewhat significant that the news dispatches which carry the tidings of Henny's adherence to the Wilson cause add that he will probably be a candidate for United States senator on the democratic ticket. In fact, this is doubtless the one best bet; for Henny's specialty is running for office in whatever party he happens to honor with his presence for the moment. When offices are being passed around Henny is generally to be found on the front seat, and if he does not secure one it is not because he did not stand up and make a long reach for it.

Henny's "conversion," however, furnishes additional evidence that the bull moose are returning to their old-time allegiance. There were some democrats in that band of earnest political crusaders who selected Armageddon as their foothold in 1912—but the great bulk of the army was republican. These latter will vote for Hughes. Those who were democrats will now vote for Wilson. This group is so small in number that the announced adherence of any one of them becomes a matter of moment to the democratic managers. But the hundreds of thousands of those who acted with the republican party prior to 1912 are quietly taking their places again in the ranks with their old associates and no special fuss is being made about it. When the votes are counted, it will be found that this is once more a country of two major political parties—and that the republican preponderance of more than a million has again asserted itself in a sweeping republican victory.

**CLEAN FRUITS BEFORE USING**  
 DR. DIXON GIVES CAUTIONS ON TREATMENT OF RAW FRUITS AND VEGETABLES, SO NECESSARY FOR SUMMER DIET

By SAMUEL G. DIXON, M. D., Pennsylvania Commissioner of Health

Fruits and vegetables are a necessary part of the diet during hot weather. Many of these are more appetizing when eaten raw. Berries, apples, radishes, onions and salads are popular, and have their value as food. Care should be exercised in the preparation and serving of green foods, however, as they are subject to much handling between the garden and the table.

In many market gardens the gathering of the produce is entrusted to a class of labor which is not any too cleanly; and care seldom is exercised to insure cleanliness. Food exposed for sale in markets also is often subject to indiscriminate handling by prospective purchasers.

As a protection berries and food-stuffs eaten raw should be thoroughly washed before being served. It is much better to risk a slight impairment of the flavor than to chance eating unclean foods. Night soil should not be used for fertilizing gardens from which the produce may be eaten raw. Watercourses should not be gathered from streams polluted by sewage. Many cases are on record where typhoid fever has resulted from failure to heed these points.

**AUSTRALIAN GIRLS MARRY AFTER 30**

**SAN FRANCISCO DOCTOR SAYS NERVOUS DISEASES AMONG THE MEN RETURNING FROM WAR WILL CAUSE THIS**

**United Press Service**  
 SAN FRANCISCO, July 14.—Independence bred through the absence of men will keep Australian girls from early marriages for a number of years to come, in the opinion of Dr. T. F. Ryan of Melbourne, one of the most prominent medical men of the antipodes. He has just arrived here from Australia.

"The Australian girl, unlike her American sister, figured little in business life until after the war," he explained. "Now she has been forced to take the place of the clerk, the cashier, the salesman and other positions of responsibility. She has only just discovered that she can be independent."

"Coupled with this will undoubtedly be the prevalence of nervous disease among the men returning from war. Facing cannon, hardships and continual nearness of death will undoubtedly mean nervous trouble later. The result will be young women of the future will not marry before the age of 30."

**21,000,000 Able Bodied Men in the United States**

**United Press Service**  
 WASHINGTON, D. C., July 14.—How many able-bodied citizens of military age have we in the United States?

The bureau of census, while it is unable to make any estimate of the proportion who are able-bodied, estimates that the total number of male citizens and prospective citizens—that is, foreign-born persons who have declared their intentions to become citizens—is to 45 years of age, inclusive, is not far from 21,000,000.

This estimate is based on the assumption that there has been an increase of approximately 10 per cent in the population of the country since the census of 1910. When that census was taken the total number of male citizens and prospective citizens 18 years of age and over, but under 46, was 19,123,000. Of this number 14,234,000 were native whites, 2,857,000 were foreign born whites who had become naturalized or had declared their intention of doing so, 2,952,000 were negroes and 50,000 were Indians. The number of foreign-born citizens is partially an estimate, since the census enumerators were able to obtain information as to citizenship from only about seven-eighths of the total number of foreign born males. Native whites thus represent about 74 per cent of the total, foreign born whites nearly 15 per cent, negroes nearly 11 per cent and Indians about three-tenths of 1 per cent.

During the Civil War, when the population of the country, exclusive of the seceding states, was less than one-fourth as great as the present population of the entire United States, the total number of men serving in the federal armies at one time and another was approximately 2,500,000 (due allowance being made for duplicate enlistments, that is, cases in which men enlisted more than once).
