## HORSE IS COOKED IN HOT SPRINGS

FINE ANIMAL BELONGING TO A. C. LEWIS FOUND DEAD IN THE HOT WATER DITCH THIS EARLY THIS MORNING

Slipping into a ditch carrying water from a hot spring, a fine young horse belonging to Arthur C. Lewis of Mills Addition was cooked to death last night. When the animal was discovered this morning it was deep in the mud and water, and its flesh was thoroughly cooked.

It is believed that the horse was grazing on the edge of the bank of the ditch when the bank caved in and let the horse into the water. The ditch is deep and narrow, and its banks steep, which made it impossible for the animal to get out, although it struggled along in the ditch for perhaps twenty feet.

So thoroughly was the flesh cooked that the carcass fell apart when Mr. Lewis tried to remove it. A hole was dug near the ditch, and the carcass rolled into it for burial.

## Moving Pictures

"The Serpent," featuring Theda Bara, will be shown at the Star again tonight, as many look forward to the Fox productions, which are usually shown on Wednesday evenings. This feature shows Theda Bara at her best, and is beyond a doubt one of her best productions, it being of unusual interest throughout the whole six reels. The Peerless Orchestra adds a wonderful tone to the picture.

politics, extended an official and hearty invitation to the 4,000,000 voters who supported the progressive ticket in 1912, and suggested that whatever the technical name of his own party should be upon the official ballot this year, it would be henceforth known as the liberal party of the United States.

Expressing the evidently overwhelming sentiment of the convention, Chairman Poling assailed the campaign of militaristic preparedness, arraigned the republican and democratic parties alike for what he alleged to be an extravagant waste of national funds, eulogized Jane Addams, attacked at length the activities of the navy league, and after advocating unequivocal loyalty to the Monroe doctrine, the establishment of a world court of arbitration, internal reciprocity of trade, radical reform in the treatment of immigrants, the development of a national program for the constructive use of the United States army in time of peace, and the immediate enactment by federal statute and amendment of woman's suffrage and various social reforms, he concluded his plea with the dictum that "Prohibition spells Preparedness," and that the hour had come to change the popular slogan among temperance forces of "National prohibition in 1920" to the campaign battle cry "A National Prohibition President in 1916."

## GLASS OF SALTS CLEANS KIDNEYS

IF YOUR BACK HURTS OF BLADDER BOTHERS YOU, DRINK LOTS OF WATER

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast, each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.
