FEW FOLKS HAVE GRAY HAIR NOW

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre, and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of dandruff. Advt.

UP IN THE AIR

MR. WILSON is to blame. For three years he has led us in all directions except the right one. And who is there now that is right sure what he will yet do?

Nothing in his past conduct invites confidence in the present crisis. He has been contradictory in almost every move he has made. No longer ago than January of last year he was saying that so far as his influence went, while he was president, nobody should interfere with the Mexicans, least of all the United States. But think of those words in connection with what actually happened before. He had by summary and high-handed interference in Mexican affairs, overthrown the substantial Huerta government and was endeavoring by avowed encouragement and unlimited supplies of arms and ammunition to set up in its place a rebel force.

It is a mistake to speak of patience as having guided the president in his dealings with Mexico. Gross impatience has marked his course, and it has been a course which has seemed to the Mexicans, however mistakenly, to be at once hostile and cowardly.

He has nagged them into hatred without at any time commanding their respect.

BAD WEED MAY BE ERADICATED

TOAD FLAX, ALTHOUGH VERY TROUBLESOE TO RANGERS, CAN BE STAMPED OUT BY SYSTEMATIC EFFORT

(Herald Special Service)

PULLMAN, July 20.—One of the troublesome weeds of the roadsides and meadows, especially upon poorer soils, is the toad flax (*linaria vulgaris*), sometimes also called snapdragon, butter-and-eggs, flax weed and eggs-and-bacon.

Like most of the troublesome weeds, this is not a native of America, but might be called a hyphenated plant, in that it came to us from Europe. The weed is exceedingly prolific, commencing the production of seed in June, and keeping it up until the snow flies. Director Ira D. Cardiff of the state experiment station at Pullman, states, however, that it is not an especially difficult weed to eradicate. Though the plant is a perennial, that is, lives from year to year, it can usually be eradicated if attention is given to keeping it cut off so that it will not produce seeds for several years. If present in not too large numbers, it can best be eradicated by pulling in meadows and pastures, where it frequently gives the most trouble, about the only method of eradication is by bringing this land under cultivation for a few years. A short rotation of cultivated crops will, if well cared for, usually serve to eliminate the weed.

30,000 AUTOS REGISTERED, VALUED AT \$24,000,000

SALEM, July 20.—Since the first of the year about 30,000 automobiles, valued at approximately \$24,000,000, have been registered with Secretary of State Olcott. Of the total number registered about 7,000 are new machines. The average value is estimated at \$800 each, making a total of \$5,600,000 paid out for new automobiles during the year. Last year the total registration was 23,585, and it is estimated that by the end of the year the registration will be between 34,000 and 35,000.

CENTRAL COMMITTEE'S RIGHT TO FILL VACANCIES

SALEM, July 20.—According to an opinion rendered by Attorney General Brown the central committee of a political party cannot fill a vacancy occurring on the ballot through the failure of a candidate to accept a nomination. The committee can only fill a vacancy where a candidate either dies or removes from the state or district, he said.

Broker's Wife Shoots Him to Death

Mrs. Christopher Beutinger with her three children and two friends. Mrs. Christopher Beutinger, wife of a New York coal broker, shot him to death in their expensive home at Caldwell, N. J., the town in which President Grover Cleveland was born. She was arrested, but pleaded self defense.

Lumbermen Oppose the Change Lumber Tariffs

Herald Special Service

CHICAGO, July 19.—Sensational in the extreme is the aggressive fight West Coast lumber interests are making against the proposed re-classification of lumber freight tariffs suggested by the Interstate Commerce Commission. The presentation of the West Coast case which has taken day and night sessions since Wednesday was concluded at noon Saturday.

The Interstate Commerce Commission, in urging a new rate making basis for lumber products, holds that rough lumber and finished products should not be given the same classification. The West Coast Lumbermen's Association, in opposing the commission's attitude, apparently has proven that such a re-classification would wipe the immense mixed car movement of forest products which now amounts to 80 per cent of transcontinental lumber traffic originating in Washington, Oregon, California and the Inland Empire.

Chairman B. H. Meyers of the Interstate Commerce Commission, who has taken personal charge of this important case, in an interview, said:

"When this hearing is over there will be a basis for the first nationwide schedule of rates for any industry, and in attempting this work, the commission has started with the second largest manufacturing industry in the United States instead of one of the smaller industries."

Here in Chicago this interview is taken to mean that other industries are vitally concerned, or should be vitally concerned, in the outcome of the lumber case.

F. G. Donaldson, traffic manager of the West Coast Lumbermen's Association, submitted an immense amount of statistical record supporting the West Coast association's position. He testified that mixed carload traffic on a rough lumber rate was essential to a wide distribution of lumber products at the lowest consistent price; that it gave the consumer the benefit of the most economical manufacture and distribution; gave the railroads a satisfactory revenue for service performed, and, in view of these facts, it was believed that further classification would cause an undue and unnecessary burden on the lumber industry and on the consuming public. In part, Mr. Donaldson told the commission:

"While a uniform classification on lumber and its products throughout the country might be theoretically possible, the West Coast Lumbermen's Association does not believe that, under the varying conditions by which lumber is moved to market, it is either desirable or practical from the viewpoint of the producer, dealer, or consumer that there may be changes from the present classification other than such changes as would give a wider distribution and freer movement of lumber on the present rate basis."

In answering to a direct question, Mr. Donaldson said: "We maintain that lumber classification can and should be uniform from all lumber producing sections to all consuming markets. The position of the association which I represent is that the lumber list should be just as liberal as may be consistent with sound economic principles of transportation and as nearly universal as conditions will permit."

Unlucky Summer Home May Be Lucky for Him

United Press Service

LONG BRANCH, N. J., July 20.—President Wilson will arrive here soon to occupy the summer capital, "Shadow Lawn," and receive formal notification of his nomination. His sojourn in this hitherto unlucky mansion should be lucky if his number is still working, for this is the thirteenth year since the magnificent palace built by the late John A. McCall of the New York Life insurance company in 1903, was opened.

Only misfortune followed the three persons who have previously lived here. McCall, who spared no expense, and who is credited with having spent a million dollars on "Shadow Lawn" and its sixty-five acres of ground, beautified with over \$50,000 worth of shrubbery and trees, and containing an artificial lake and a \$50,000 stable and garage, spent only one season in the big white building on the hill before troubles came thick and fast upon him.

Joseph White, the Texas postage-stamp millionaire, who founded his fortune on a bid for bonds in the second Cleveland administration, made it his home for several years before his financial collapse. J. B. Greenhut, the New York merchant prince, who next purchased it, last year became a bankrupt. But the superstitious say the rule of having been followed to the end, the hoodoo now is broken. Besides, "13" is President Wilson's lucky number, he says.

The hopes of Long Beach and its wealthy summer colony have long centered in the place being the summer White House. It has been regarded as almost too pretentious and dignified for a mere private residence.

"Shadow Lawn" today is a Mecca for motorists, and is visited by hundreds of sight-seers daily. From the upper stories may be seen the summer homes of Presidents Grant and Garfield on the ocean beach, less than a mile away. An idea of the size of the building may be gained from the fact that twenty-five telephones have been installed for the convenience of the president's household.

Last fall former Senator James Smith Jr. made the suggestion that it was ideally located for the president's headquarters in a national campaign.

By Freighters Here.
Charles Young and George Elliott, who haul freight between Klamath Falls and Bly, are in town.

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

HOPES EVERY MAN AND WOMAN ADOPTS THIS SPLENDID MORNING HABIT

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness?

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, seasmic-looking souls with pasty, muddy complexions we would see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out the stomach, liver, kidneys and bowels of the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and refreshing effect upon the system.—Advt.

LEGAL NOTICES

Notice to Creditors
In the County Court of the State of Oregon, for the County of Klamath. In the Matter of the Estate of Elizabeth Wight Nail, Deceased.

Notice is hereby given that the undersigned has been duly appointed administrator of the estate of Elizabeth Wight Nail, deceased, by the above entitled court, and all persons having claims against said estate are required to present same to the undersigned at the law office of H. C. Merrymann, in Klamath Falls, Oregon, within six months from the date of this notice.

Dated this 19th day of July, 1916
JAMES ERNEST NAIL,
Administrator of the Estate of Elizabeth Wight Nail, Deceased.
20-27-3-10-17

Notice of Final Settlement
In the Matter of the Estate of Harriet Roberts, Deceased.

Notice is hereby given that the undersigned as administrator of the estate of Harriet Roberts, deceased, has filed in the county court of the state of Oregon, for Klamath county, the final account of his administration of said estate, and that the court has fixed Saturday, the 22d day of July, 1916, at the hour of 10 o'clock in the forenoon as the time and the Klamath county court room as the place for the hearing of objections to said account, if any, and the settlement thereof.

Dated June 22, 1916.
CHAS. I. ROBERTS,
Administrator of the Estate of Harriet Roberts, Deceased. 22-29-4-15-20

Notice of Bond Sale
Notice Inviting Proposals to Purchase City of Merrill Refunding Bonds and Water Bonds.

Sealed proposals will be received by the Recorder of the City of Merrill, Oregon, until August 12, 1916, at the hour of 8 o'clock p. m. (at which time proposals to purchase will be opened and considered) for the purchase of \$3,800, or any part thereof, city of Merrill refunding bonds, payable July 1, 1931, with the option of the city to pay them, or any of them in numerical order, from and after July 1, 1921; said bonds to be issued in denominations of \$500 and one bond in the sum of \$500. Also for the purchase of \$6,000 or any part thereof of water bonds, payable July 1, 1936, in denominations of \$500.

Said bonds are issued for the purpose of refunding the outstanding warrants of the city, and for the purpose of providing water and fire protection, all under the provisions of section 136 of the charter of the City of Merrill.

Said bonds are to bear interest at the rate designated in the successful bid, not to exceed 6 per cent per annum, payable semi-annually on July 1 and January 1 of each year, at the office of the treasurer of said city, in United States gold coin.

Each proposal to purchase must be accompanied by a check, certified by some responsible banking institution, to the amount of 5 per cent of the proposal, made payable to the Recorder of Merrill. Proposals must be sealed and endorsed "Proposal to Purchase Refunding Bonds" or "Proposal to purchase Water Bonds."

The council reserves the right to reject any and all bids.

Dated at Merrill, Oregon, July 7, 1916.
