Two Views of the Little Doctor of Kiukiang

Dr. Mary Stone, "the little doctor of Kiukiang," is a native Chinese, educated in a Methodist mission school in China, and later graduated from the medical school of the University of Michigan. Immediately upon receiving her diploma she hastened to Kiukiang and started a work that within two years necessitated the foundation of the now famous Elizabeth Shelton Danforth memorial hospital, where for sixteen years the little doctor has been quietly at work without interruption. Dr. Stone is at the head of a

staff which is treating nearly 25,000 patients a year. In addition to being a physician and surgeon of remarkable skill, she is famous as a writer, administrator, public speaker, evangelist, home maker and charming hostess.

"The great difficulties encountered in medical work in China," said she, "are public ignorance and procrastination. Many of our patients come to us in the last stages of disease, having patiently waited for self cure before asking for medical attention. We meet a variety of diseases which quite outnumber those to be found even in the most crowded dispensaries of the hospitals of the great American cities."

DEAREST PUBLIC

Just returned after consuming with nature.

This is accomplished by allowing all the different kinds of insects to parade the shape at will and use one for a pasture, and eat a lot of self-cooked grub, not food, and lie around the campfire and groan from sheer misery in bed, and get up so tired that you can hardly walk, and go fishing and get no fish and get wet as the devil, and take a fresh cold, and live in a prohibition state, and come home with a dome filled with sweet reminiscences of fir trees and blue jays and a lot of places partially healed on the chassis.

This is to remind you that we have some reasonable articles that we would like to have you "fall" for before fall. And, Florence, we have still some diamonds, so you had better have this guy get busy, 'cause it won't be long before we will again be fast in the grasp of "Winter's mitts."

Have you the time? We have, in various forms. "Time is money," so sayeth the wise guy, so you can make a trade with us if you have the money.

We got a new batch of Ingersoll watches.

A big new line of Tiffany diamond mountings.

OF INTEREST TO WOMEN

By MARGARET MASON (Written for the United Press)

You must now be all dressed up in Little goldfish in a bowl, Birdies in a cage, For it's quite the rage.

NEW YORK, July 29.—The modern woman, seemingly surfeited with trimming herself, and incidentally trimming her husband, has turned her attention to trimming up the household canary and the family goldfish. At least, if not the canary and the goldfish personally, she has their domiciles all dolled up. Bird cages have become fantastic dreams of beauty and decorative art. No self respecting canary, linnit or thrush can be expected to trill in anything but a cage of rush or willow from the peasant realms of Europe, or a wire and lacquer cage from China's shores. Japanese reed cages also are permissible, but birdie simply must have one of these three decorative influences for surroundings.

Mersey! Just fancy how plebian and inartistic nowadays would be that proverbial bird in a gilded cage. Cages are positively not being worn gilded this season. Of the lovely willow cages, some of which are fashioned by peasant hands in the Black Forest and yet others in Brittany, and probably most over in New Jersey or Brooklyn, there are those in the natural toned willow, those stained grass green and those enameled white or pastel pink or blue. Even these willow cages feel the Chinese influence, however, or at least their owners do, for milady hangs a Chinese jade bracelet to a short string of jade beads suspended from the middle of the cage for the songster to swing on in lieu of a prosaic swing. From the bottom of the cage she fastens with a thumb tack a Chinese tassel green and gold.

The real Chinese cages are gorgeous in their scarlet green or black lacquer, ornate with gold. Round, oblong, square and octagonal they are, and some shaped like pagodas, two or three stories high. In the finest cages the water and feed dishes are of carved jade or ivory, beads and tassels deck the outside, and always there is the bracelet swing.

As for the little fishes, red and gold, their crystal abodes are iridescent bubbles of antique Venetian glass of divers fantastic shapes. Some high hugh goblet shapes, others shallow bowl's poised on slender stems, two handed Grecian urns of rainbow tinted glass, and one, the quaintest of all, is a squat and sturdy crystal elephant.

Many of the round glass aquariums are raised on standards of carved or enameled wood and hand painted in water lilies and deep sea flora on the outside of the glass. Yet others, simple and effective of line, are the oblong and square aquariums, crystal clear. Feathery green water plants and the decorative branches of Chinese "thousand-years-green" make a fairy forest for the fisher and most

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

ENDURANCE

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow, and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels, and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.
