

# CATO SELLS FAVORS OPENING OF RIVERS PARKER SAYS HUGHES AND WILSON NOT ENDORSED

## FEW YEARS AGO GAVE ORDER CLOSING THEM

INTERVIEWED YESTERDAY BY LOCAL BUSINESS MEN

**Says Indians Should Have More Money for Livestock, Machinery and Improvement of Their Farms—Action Along This Line is Expected—Not Definite on the Question of Opening the Reservation.**

Opening of the lower parts of the Williamson and Sprague rivers to logging is favored by United States Indian Commissioner Cato Sells. This was learned yesterday when Captain J. W. Siemens, Robert E. Strahorn, E. B. Hall, C. W. Eberlein and S. O. Johnson and W. A. Deibel motored to Klamath Agency and had a conference with commissioner Sells.

Mr. Sells has been on the reservation for several days, and it is thought that his study of conditions there have caused him to change his mind. About five years ago he gave an order closing the rivers to logging operations. Commissioner Sells also stated yesterday that he believed the Indians on the reservation should have more capital with which to buy livestock and machinery and improve their ranches. While he would make no positive statement to that effect, it is believed that soon after he returns to Washington he will take steps toward getting money into the hands of the Indians for improvement purposes. The details of how this money will be given to the Indians has not been announced, but they probably will receive it as long time loans.

Commissioner Sells would make no definite statement to his interviewers on his attitude toward the movement for opening the reservation for development.

Fried of Portland, Lee Boyer, secretary of the Northwest Grain and Warehouse company, M. Boyer of Tekoa, Wash.; Miss Mildred Myers, Charles S. Cohn and Fred Fleckstein.

All members of the party expressed the opinion that Klamath Falls was one of the most progressive towns they have seen since they left Portland. They spoke well of the free auto camp ground, and said it showed this town was interested in the comforts of its visitors.

Progressives Not to Make Fight Next November, to Endorse Woodrow Wilson, or to Call National Convention and Make Vigorous Fight This Year Against Wilson and Hughes.

United Press Service

## President's Position is "Full of Dynamite"

United Press Service  
WASHINGTON, D. C., Aug. 3.—President Wilson this morning requested a conference with Commissioner Chambers of the federal mediation board, presumably to discuss the threatened railroad strike. The administration is receiving scores of requests for a federal investigation of the trouble.

Prominent members of the administration say a problem "tremendously dangerous in its economical and political aspects" faces President Wilson.

His position is full of dynamite, say aid advisers.

It is not believed that the president will decide on what course to take until the vote of the railroad brotherhoods on the strike is announced.

The board of mediation plans to offer its service immediately if a strike is called. This failing, the president may attempt to prevent a strike. Both the railroad owners and the brotherhood officials are pessimistic regarding the outcome of the mediation, which is scheduled for August 5.
