

CRATER LAKE PARK WILL BE IMPROVED SAYS R. B. MARSHALL

SUPERINTENDENT OF PARKS VISITS ITS CRATER LAKE
Says More Trails Should Be Made to Water, Bridge Should Be Built to Wizard Island, Another Hotel Should Be Built, and All Roads in the Park Should Be Completed and Hard Surfaced to Insure Permanency

"Like everyone who visits this country must say, Klamath is a wonderful country, and is bound to become a really great scenic resort," said R. B. Marshall, superintendent of national parks, this morning. Mr. Marshall was out at Crater Lake Sunday evening by W. A. Dettell and Fred Fleet, and tonight to Klamath Falls yesterday. He left on the noon train for California to continue his tour of the national parks of the United States.

"What the national parks of this country need is improvement," said superintendent Marshall. "In Crater Lake Park the road around the rim is to be completed, in time at least two other trails down to the water will be constructed, and I hope to see a pontoon bridge from the shore of the lake to Wizard island. Another hotel should be in the park for the accommodation of visitors; it would be good to have some sort of a place on the island, where people might stay over night if they did not want to walk back to the hotel on the rim the same day they visit to the island.

"Also the roads in Crater Lake Park are to be hard surfaced, so one can walk around the lake without being bothered in dust.
The park-to-park national highway is not such a dream as some people think. The day is not far distant when a splendid road will connect every national park in the United States. People can then see all the parks in one season, stopping a week or ten days at each, and travel in comfort.

"The fact that a very large portion of the people of the United States live in the East, a long distance from most of the national parks, is one of the main reasons why our parks are not visited by more people. This drawback will be overcome as the West is settled by more people and the beauty of our parks becomes more widely known in the East.

"The time will come when most of the \$500,000,000 spent annually abroad by American tourists will be spent at home. This must be so, because no lake in the world compares with Crater Lake, because the Alps do not affect one with the feeling that Mt. Ranier does, and because there is only one Grand Canyon of the Colorado in the world."

FORMER LOCAL MAN ARRESTED SHOOTING MAN

NAME OF THE VICTIM IS NOT KNOWN HERE

Reported Here That the Shooting Took Place at Hansen's Home at Thrall After Hansen Had Refused to Drink With Man—Sought Sheriff's Protection, Is a Report, But This is Later Denied.

According to word received by C. T. Oliver, Ira Hansen, formerly a resident of Klamath county, was arrested Saturday at Thrall for shooting an unknown man.
The story goes that Hansen and his wife met a drunken man between Thrall and Ager Saturday afternoon, that the man stopped them and asked them to have a drink, that Hansen refused, and when the man became insulting that Hansen struck him on the head with the butt end of his buggy whip and drove on, the man throwing threats at him as he drove away. Hansen is said to have asked a deputy sheriff to accompany him home from Ager, but that the deputy refused.

When Hansen and his wife reached home it is said he found the man at his house with a gun. In a melee that followed it is said Hansen grabbed a gun which was in the house and shot the man through the breast. Hansen immediately called up the sheriff at Yreka, it is reported, and the sheriff came to Thrall and arrested both men. The bullet did not kill the man, so far as is known.

Hansen formerly lived near Keno, where he still owns a ranch in partnership with C. T. Oliver.

STRIKE FAVORED MOSTLY IN EASTERN DISTRICT
Strike Believed Improbable—Trouble May Be Arbitrated, Although Brotherhoods Say Decisions of Arbitration Board Usually Are Unsatisfactory—Conference of Owners and Employes Adjourns.
United Press Service
NEW YORK, Aug. 8.—It was formally announced today that 94 per cent of the trainmen of the United States voted to strike, if a strike is necessary to secure the trainmen's demands of the railroads.
Leaders of the employes and of the employers say there is only a small possibility of a strike. The three other brotherhoods are inclined to follow the switchmen and ask for arbitration of the trouble, although they say that the decisions of boards of arbitration are usually dissatisfying.
The brotherhoods announced today that they will oppose the Interstate Commerce Commission as an investigator, saying that the commission is not equipped to handle and has no power to settle disputes between the trainmen and the railroads.
Eighty-four per cent of the trainmen in the Western district favored a strike, according to the official count. Of the trainmen in the Eastern district 85 per cent were for striking and 93 per cent in the Southern district voted the same way.
Following the announcement of the vote, the conference of the brotherhoods and railroad owners adjourned until tomorrow. The railroads are busy among themselves discussing the vote.

The large number of visitors was partly due to the presence of the editors of Oregon newspapers, who came from Medford, where the state convention was held.
