No Talking Machine Manufacturer Dares to Make this Test

No talking machine manufacturer dares to invite a public comparison between a great artist's voice and the reproduction of that voice by a talking machine. No talking machine could sustain such a test.

The NEW EDISON

has been tested in this manner before two hundred thousand people. Great artists such as Marie Rappold, Anna Case, Alice Voret, Christine Miller, Marie Kaiser, Elizabeth Spencer, Helen Clark, Arthur Middleton, Thomas Chalmers, and numerous others have matched their voices against Mr. Edison's Re-Creations thereof and two hundred thousand music lovers have confessed their inability to distinguish the real voices from Edison's Re-Creation of them. . .

Not a Talking Machine

The New Edison is not a talking machine. It does not re-produce music. It literally re-creates music. It is the world's most wonderful musical instrument.

Come to Our Store

We want to give you an Edison Musical. There will be no obligation on your part. It will be a pleasure to us to demonstrate this wonderful new invention which Mr. Edison has licensed us to sell.

SAVAGE GRAPHITE TUBES
Stand the strain

Savage Graphite Tubes in Savage Casings give maximum service and satisfaction. Pure Para Rubber—Savage Graphite tube is laminated—made of layer on layer of pure gray Para rubber. To test quality of the rubber, put a deflated tube in water—it will float. A still better test, put Graphite Tubes in your casings all around. Graphite Coated—The only tube that has graphite VULCANIZED into its surface. Prevents deterioration, sticking, friction and heating; eliminates necessity for soapstone; lengthens life of tube. A true round at the splice—Vulcanized with the tube in this shape. No chance for trouble as there might be if spliced flat. Savage Graphite Tubes, like Savage Tires, are sold direct from factory. Prices on both very low, quality considered.

GLASS OF SALTS CLEANS KIDNEYS

IF YOUR BACK HURTS OR BLADDER BOTHERS YOU, DRINK LOTS OF WATER
When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

Maxwell

\$595 Maxwell motor cars have demountable rims and the same size tires on both front and rear wheels.

P. O. B. DETROIT

REMEMBER these important features, because they are not to be found on some of the lighter cars. Maxwell cars have 3 1/2 in. tires all around. This is a generous size. The tires are not overtaxed. They last longer and make riding easier. Tires of one size mean that you have to carry only one size casing and one size tube. Demountable rims, of course, are recognized as the best. They are on all good cars. Don't buy any car without demountable rims. If you do, you'll regret it. These two features—along with the other complete and up-to-date equipment; the economy and proved endurance of the Maxwell, make it the greatest automobile value in the world today.
