## VISITORS TO U-53 ARE QUESTIONED

BRITISH INTIMATE THAT DIVER OBTAINED VALUABLE INFORMATION THIS WAY BEFORE SHIP DESTRUCTION

United Press Service WASHINGTON, D. C., Oct. 18.—Neutrality experts at Newport are questioning persons visiting the German submarine U-53 following information by the British government that the diver secured valuable information this way before she sank the freight steamer off Nantucket October 8th.

This indicates the intention of the government to prevent unneutral information from reaching future visiting submarines.

Officials of the department of state do not expect international complications to grow out of the submarining, despite the discussion yesterday in the house of lords at London. It is believed the intimations made in this discussion were made to offset the American protest to British mail seizures.

## JURY BELIEVES CRIME HAS BEEN COMMITTED

Only Two Witnesses Are Put on Stand at Coroner's Inquest—Half Sister of Defendant Tells of Shooting of Edwin C. Way, and Harry Mesner Tells of Feeling of Hobbs Toward His Victim.

Edwin C. Way was killed by a gunshot wound in the head inflicted by Henry Hobbs, and, "we believe the said Henry Hobbs to be guilty of a crime thereby" is the substance of the coroner's verdict, returned after the inquest yesterday afternoon over the body of Way.

Only two witnesses, Miss May Atkins, half sister of Hobbs, and Harry Mesner, bookkeeper for the Algoma Lumber company's logging camp, were placed on the stand by Coroner Earl Whitlock. Miss Atkins told of the killing of Way, and Mesner testified regarding alleged trouble between Hobbs and Way.

Miss Atkins' story was substantially as printed in Monday's Herald. She said Way drove within fifty feet of the Hobbs homestead cabin last Saturday afternoon; that Hobbs went down to the car and conversed about ten minutes with Way; that both returned to the house with Way a short distance behind Hobbs; that Hobbs entered his cabin through the kitchen door; that Way approached toward the front door; that Hobbs got a shotgun in the kitchen and went to the front door where Mrs. Hobbs stood; that after some talking by Mr. and Mrs. Hobbs the former shot Way as he stood on the bottom step leading up to the front door. She also swore that Hobbs returned to the homestead from Klamath Falls Friday with a shotgun and revolver.

Mesner testified that the Algoma Lumber company was cutting lumber off the Hobbs homestead, but discontinued this work a week ago; that Hobbs wanted more timber removed but Way wished to cut no more than. The preliminary hearing for Hobbs and wife will be held tomorrow afternoon at 2 o'clock.

## Timber on Reservation To Be Sold Gradually

A plan for selling from the Klamath Indian reservation each year enough timber to yield approximately \$200,000 is announced by Superintendent William B. Freer. The announcement comes following the visit here recently of J. P. Kinney, assistant forester, and really the biggest man in the forestry department of the United States Indian service.

It is expected that within two months advertisements will be published asking for bids on several units of Indian timber.

The timber is to be sold to provide money for the Indians to use in buying breeding stock and implements and generally improving their homes. The Klamath Indians now potentially are very wealthy, but their wealth consists of land and timber. It is the scheme of the Indian service to sell some of this timber for wealth that can be used now by the Indians.

There is no intention of selling any large portion of the timber at once, but enough annually to bring in about \$200,000.
