TIPTON HOME IS BURNED AT NIGHT

5500 INSURANCE ON HOUSE AND 300 ON HOUSEHOLD GOODS WILL NOT COVER LOSS FROM BAD FIRE

Fire which started from sparks lighting on the carpet last night consumed the old John Uerling house on Pine street, near First, occupied by John Y. Tipton. The house and all it contained burned.

The house was covered by \$500 insurance and the household goods by \$300 insurance. This will not cover the loss.

When the firemen broke into the house last night about 8:15 the floor directly in front of the heating stove was burned more than any other part of the house, leading to the opinion that sparks jumped from the opened draft in front of the stove onto the carpet. The opinion that the fire started in the flue is discredited.

SAYS JAPAN DOES NOT SEEK A WAR

JUDGE GARY, WHO RECENTLY VISITED IN LAND OF NIPPON, SAYS THERE WILL NEVER BE CAUSE FOR WAR WITH U. S.

ST. LOUIS, Oct. 30.—There is not now and need not ever be any trouble between Japan and the United States worth going to war over, Judge Elbert H. Gary, chairman of the board of directors of the United States Steel corporation, who has just returned from a tour of the Orient, declared today at the semi-annual meeting of the American iron and steel institutes.

"Whenever either government has decided to provide an additional warship some one in the other country has been prompt in charging that this meant preparation for war between the two countries," he said.

"I told the Japanese the American people did not want and would stubbornly oppose war with Japan except in self defense. The controlling men of Japan, judging from the statements made to me, are anxious for continued peace with the United States. The Japanese speak of the United States as a model government, whose friendly interest they court. They realize the geographical location of the two countries should make them practically allies, though acting independently."

Concerning Japan's intentions to-

VILLA IN CONTROL OF SANTA ROSALIA

ward China, Gary said: "I am confident Japan would like China for a continuous permanent friendly, profitable and satisfied customer, with no political, social or financial difficulties, internal or international."

Judge Gary concluded his address by stating his opinion concerning present business conditions in the United States, saying:

"No one can certainly foretell whether there will be a continuance of large business for many months or years after the war or whether there will be an immediate recession. Obviously the wise man will husband his resources, keep within safe limits, and avoid over-extension."

"At the end of the war foreign countries now buying our products, because compelled, will in large measure withdraw their patronage. Most of the foreign countries will be thoroughly protected by tariff provisions, and we should be on a parity with them in this respect."

MURDER STORY STARTS SEARCH

SCHOOL GIRLS SAY THEY SAW VICTIMS OF AGED FARMER SEVERAL HOURS AFTER MURDER SUPPOSED TO OCCUR.

United Press Service

LOS ANGELES, Oct. 30.—Whether Benton L. Barrett, aged farmer, is guilty of murder or whether, in turn, he is the victim of an alleged powerful hypnotist, is a mystery that may only be solved by a jury trial, in the opinion of District Attorney Woolwine.

A search for Mrs. Barrett and her 17-year-old son Raymond Wright, was started today following statements by two school girls that they saw them several hours after Barrett claims he murdered them and incinerated their bodies.

"We have sufficient evidence to convict Barrett of first degree murder," said Woolwine today. His statement is backed by Dr. Lyman B. Stooker, anatomist, who declares the bones found on the Barrett farm at Santa Monica were those of persons recently dead, and possibly those of Mrs. Benton Barrett and Raymond Wright, her 17-year-old son.

"There is no evidence that Barrett is guilty. We will prove him innocent," declared Lewis D. Collings, defendant's counsel. Collings' statement is supported by Capt. H. R. Kimmmer, expert investigator, who says the bones found in an outhouse on the Barrett farm were those of a person dead for a long time. Collings declares he has information that a skeleton was recently stolen.
