ATTACKED CITY IN THE EARLY MORNING

NOW DOMINATES ENTIRE STATE OF CHIHUAHUA

American Officials Are Anxious About Fate of Americans in Captured Town—Villa Waited Until Trevino Wasted Ammunition Then Attacked in Force—Chinese Are Boldly Seized.

EL PASO, Nov. 29.—Carranzista officials here this morning officially announced that Villa captured Chihuahua City Monday and now dominates the entire State of Chihuahua. The Carranza forces defending the city were cut to pieces and split into two remnants, then routed in the north and south of the city.

American officials are anxious for the fate of the six Americans known to be in Chihuahua City. This morning they made a demand on the Carranza officials at Juarez to obtain news as to the fate of foreigners.

The latest advice concerning the taking of the city says that Villistas rushed into the city at 5 o'clock Monday morning and routed the defenders in a brief hand-to-hand struggle. Details of the fighting are meager.

The indications are that Villa knew the exact number of shells General Trevino had, forced him to use them all, and then attacked in force. It is believed doubtful that Villa will attempt to hold Chihuahua City. The Yaqui Indians in General Murguia's column have deserted.

EL PASO, Nov. 29.—Fearing a wholesale massacre if Villa captures Juarez, three hundred Chinese there are procuring permission to come to El Paso in case of emergency. The Chinese consul there says there are 1,400 Chinese in Chihuahua City and that Villa has threatened to kill all of them.

Miller Says Territory for Railroad Promising

At the request of the Herald, Charles R. Miller, head of the Miller Photo Company and one of the best known landscape photographers in the west, has written of his impressions of the territory to be tapped by the Oregon, California & Eastern railroad. Mr. Miller has just returned from an auto trip over the entire system, excepting the section from Klamath Falls to Sprague river. He has been engaged to make a collection of pictures of the country. His impressions follow:

It has been said by a number of people that it would be impossible to make the Strahorn railroad a paying proposition.

I, myself, was in doubt, but after completing the trip over the entire survey, I am thoroughly convinced that it will be a financial success in a very short time after it is completed.

TEAMS PREPARE FOR BIG GAME

UNIVERSITY OF CALIFORNIA AND UNIVERSITY OF WASHINGTON ELEVEN CLASH TOMORROW ON SEATTLE GRIDIRON

SEATTLE, Wash., Nov. 29.—The finish touches to their training for the big game tomorrow were begun today by the California University football squad when they arrived here from Berkeley. Head Coach Andy Smith and his assistants, A. B. Ziegler and Eddie Mahan, would not make any predictions, but it was clear that they were hopeful of getting at least an even break in Thursday's contest.

The remarkable form shown by the Bears on November 18th, when they held Washington to a 13 to 3 score, is expected to be duplicated Thursday afternoon. In fact, it is pointed out by Berkeley enthusiasts that California's form has probably improved greatly since the game ten days ago.

On the other hand, it is declared that the recent row between the football players and the faculty of Washington University, during which the players threatened to strike has not helped the condition of the men any. Some predict that, as a consequence, and because of the loss of Gromm, one of the Washington stars, the Dobleites will not present as strong a lineup as in the first game.
