FRANCHISE ELECTION

DECEMBER 5, 1916

To the Voters of Klamath Falls;

The following are some of the reasons that you should vote for the franchise permitting the Keno Power Co. to enter the local field in competition with the California and Oregon Power Co.:

(1) It will bring to Klamath Falls genuine competition in electric service for at least fifty years, as the franchise of the Keno Power Co. will be non-salable without the consent of the City Council.

(2) It will bring to Klamath Falls a rate for electric service based on actual construction costs and not on a high purchased value which the California and Oregon Power Co. are laboring under.

(3) It will bring to Klamath Falls an additional 1900 horse power for immediate use, while the company has available for future development over ten thousand horse power of water now going to waste. If the franchise is not passed at this election, the City of Klamath Falls will lose forever the use of this cheap power which will be diverted to other fields drawing the users of large blocks of power away from Klamath Falls.

The following is a comparison of the present rates of the Keno Power Company and that of the California and Oregon Power Company for an ideally equipped residence:

Load—	K. P. Co.	Cal.-Ore.
Five 40-watt & two 25-watt Lamps.	\$ 1.37	\$ 1.85

Women Ask for Regulation of Nation's Food

(Continued from Page 1)

prices for the benefit of the people is not living up to its obligations as a democracy.

"Can you imagine a two-pound loaf of break selling in the United States for seven cents? I think not. Yet, that is what the Australian state bakeries do.

"Take a spool of common thread. In Australia the housewife gets 3000 yards for a nickel. The American housewife gets 1000. This is all the

more remarkable when you consider that all our cotton must be shipped from England or America, as we grow none.

"Of course, many of our dealers chafe under the fair price system, just as they would in the United States, but that doesn't stop the regulation. Here, it seems to me, they are permitted to becloud the issue.

"Much might be done by the individual states to solve the price regulation problem."

What are you going to do about the question of Shoes?

IT'S hard to get good leather and good workmanship at a fair cost of price today. Many a manufacturer is tempted to skim where it won't be seen. We are putting our trust in Regal Shoes. The name REGAL represents more than an idea—a standard of value, of service, of responsibility to the wearer. The Regal people have always kept faith with the wearer. Good people to be so—for you and for us. More important than ever this season. Let us show you some of the new Regals. You will find your shoe in your kind of shape, good sound leather, honestly made, good comfortable fit, and at prices you can afford to pay.

You Folks Who Used to Play

Are you getting any particular satisfaction out of your silent piano?
 Are your young folks grown up, left home or have you all given up the study of Music?
 Why not get some real satisfaction and snap into your home life by trading that little used piano as part payment toward a good Player-Piano?

A good Player enables you to play the world's best music and interpret it in just the way that suits you individually, and you can play the same record or roll in so many different ways that you would hardly recognize the music.

The great attraction of the Player is in putting your own soul into the music. What other instrument enables you to do this, gives you all the pleasure and eliminates the drudgery at the same time? We suggest that you at least permit us to give you a demonstration, place a violin on your old piano and tell you the very easy terms.
