FAIR FOR FIVE COUNTIES MAY BE A REALITY

TALK FOR BIG FAIR NEXT FALL IS STARTED

P. W. Snyder Hears of Talk and Gives Hearty Endorsement—Plan is to Form Association to Back Fair and Not Take Subscriptions From Anybody, But Make It Pay for Itself From Receipts.

A district fair association, made up of stockholders from Klamath, Lake, and Crook counties in Oregon, and Modoc and Siskiyou counties in California, has been proposed by several Klamath Falls citizens and by ranchers of the county. The plan yet is in the nucleus, but may take definite form soon.

P. W. Snyder, raiser of purebred Hereford cattle in Swan Lake Valley, is the latest livestock raiser to take up the movement.

"I have been asked by a number of ranchers if it would be possible to interest the citizens of Klamath and adjoining counties to combine and give a big fair this coming fall," says Mr. Snyder.

"The time is ripe, and I feel assured that the country people in general would lend a helping hand. There appears to be a general desire for such a show this year. Come, let us get together, call a meeting of the citizens, form an association, get everyone interested, and have a great show.

"Let us build an exhibition hall, give premiums, exhibit our pumpkins, chickens, livestock; in fact, everything that will be of interest. Let us become better acquainted, associate our business interests, start the country off on a prosperous wave.

"It can be done. Why not do it? See what we can accomplish. Let us hear from others who are interested in this big fair, and by all means start the good work along."

Although county fairs in Klamath county and small district fairs have not been a howling success in the last few years, nor did the rodeo make much money the last year, yet many people think they can explain these failures. They assert there were not enough people involved and not enough territory embraced.

Crook, Lake, Modoc, Siskiyou and Klamath counties are declared to be in a little group by themselves, with interests very much akin. Each raised about the same products the other does. Each is made up of about the same kind of people. Each has the same character of territory.

The talk is that this big district fair should be handled by an association, controlled by stockholders, who are successful business men and good boosters, and that premiums offered should be large enough to attract exhibitors. Horse races, Wild West stunts, good amusements should be included, it is said. In short, the program of entertainment should be so good that people coming from Bend or Alturas or Yreka would feel well repaid for their time and money spent.
