New Securities Created Britian May Ask Loan Farm Loan Bonds Attractive Again of \$250,000,000

In Third Article on Workings of New Federal Farm Loan Act, Member of Bureau Explains How Capital to Loan is Obtained

By FRANK R. WILSON Of the Federal Farm Loan Bureau Written for United Press WASHINGTON, D. C., Jan. 18.—As explained before in these articles, the operations of the Farm Loan Act are divided into two main classes—a money assembling agency and a money lending agency. The government puts the first nest-egg into the farm loan plan by buying the original capital stock of the twelve Federal Land banks if necessary. When this has been loaned and farm mortgages taken in return for the money loaned, the Federal Land banks may issue bonds against these mortgages.

These bonds will be among the most attractive securities ever offered to American investors. As explained before, farmers are permitted to borrow only up to 50 per cent of the value of their land. This means that every dollar's worth of bonds issued represents \$2 worth of land as security.

The fact that each Federal Land bank guarantees the bonds of all the other banks also puts behind these bonds as security the \$9,000,000 original capital stock of the banks and their required surplus earnings, plus the required annual deduction of the mortgage loan. Besides this, the security constantly increases proportionately by reason of the constantly increasing capital contributed by the Farm Loan Association. So the investment end of the Farm Loan Act is fully as important as the money lending end, because it creates for the benefit of small and large investors a security backed by pooled first mortgages on farm lands, the proceeds being used to increase the productive power, and enhance the value of the mortgaged land. Since the rate of interest to the farmer depends upon the rate of interest at which these bonds will sell, congress went the limit to make these bonds attractive, so they would sell at a low interest rate. The bonds are exempt from all form of taxation. The government will not even collect any income tax upon them. No state or municipality may tax them for any purpose.

In order to make these bonds appeal to investors of all classes, they are issued in denominations of from \$25 to \$1,000. In order to protect them against counterfeiting, they are issued by the United States government bureau of engraving and printing and are

protected from counterfeiters by the whole force of the United States secret service.

Heretofore it has been practically impossible for the small investor to buy real estate securities. A man or woman who wanted to buy \$100 worth of farm securities was not able to find a farm mortgage of just that size.

In addition, the investor would not buy such a mortgage without inspecting the security. The cost and the bother were barriers which made it almost impossible for the small investor to get first mortgage securities.

Hereafter it will be possible for any investor who wants to buy farm securities from \$25 up merely to apply for a Federal Farm Loan bond of the denominations desired.

The investor will know that this bond represents \$2 worth of land appraised under government supervision and the bond was issued under government regulation.

The rate of interest at which these bonds will be issued has not yet been determined by the Federal Farm Loan board. It is safe to predict that in the beginning it will not be less than 4 and not more than 5 per cent.

No the benefits of the Farm Loan Act are not limited to farmers who need the use of cheaper capital, but they include also those persons who have money to invest and are seeking a long time, readily marketable security of undoubted value

NEW YORK, Jan. 18.—Great Britain is expected to ask another \$250,000,000 loan from the United States through J. P. Morgan & Co. within the next few days. This will make approximately \$800,000,000 England has borrowed in the United States since the war began in 1914. This is expected to be a direct government loan, backed by British col-

Boy Says Harry Thaw Whipped Him

Fred Gump, an 18-year-old boy of Kansas City, has sworn out a warrant for Harry Thaw, the slayer of Stanford White, and Oliver Brower, charging that Thaw attacked him with two whips in a New York hotel. He said Brower acted as guardian in Thaw's absence, and he finally escaped and went back to his home in Kansas City. Thaw evaded the police and got away when they took Brower in charge, but was apprehended later.

SILVER FOR YOUR WIFE'S BIRTHDAY PRESENT

She wants a complete Silver Set in one design—and you'd like to gratify that desire. You can—even if it is not convenient to buy the complete set at one time. There are at Upp's many beautiful patterns in fine silver which will be continued for years to come because of their true artistic merit. By selecting such a pattern—or matching some of your "wedding silver"—you can complete the set by purchasing a few pieces at a time. Sterling silver is always welcomed as a wedding gift. If you have a gift to choose for a bride, make it Upp's Sterling Silver of standard weight.

TAKE SALTS TO FLUSH KIDNEYS

EAT LESS MEAT IF YOU FEEL BACKACHY OR HAVE BLADDER TROUBLE Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Reg-

FIRST STATE AND SAVINGS BANK KLAMATH FALLS, OREGON

ular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.
