

Germans Take Movies of Sinking Vessels

Raider Sinks Six More Merchantmen

THIRTY-TWO VESSELS HAVE FALLEN VICTIMS

Captain of Sunk Ship Radnorshire Tells How His Ship Was Exploded After Germans Had Taken Cargo of Coffee and All Other Food—Says He Saw Other Freighters Sunk in the Same Manner.

BUENOS AIRES, Jan. 19.—The German raider which has been playing havoc with French and British shipping along the South American coast is still at large. If the reports from Rio de Janeiro are correct, she has captured six more merchantmen. This approximately makes thirty-two vessels which have fallen victims to her raids.

The log of the captain of the British steamer Radnorshire tells a graphic story of the activities of the raider. "On the night of January 7th, about 10 o'clock, we sighted a vessel ahead," says the captain. "We were traveling without lights, and when having sighted the stranger, immediately changed our course."

"Soon we saw another stranger, and shifted again. We were quickly pursued and our crew donned life belts. We dove to the strange ship, and six German officers with twenty men came aboard, seized our cargo of coffee, took all our food and planted several dynamite bombs. We were imprisoned on board the raider."

"The following day I saw two vessels sunk in the same manner, and several more a little while later."

"When any captures occurred in the daytime, a German photographer calmly took moving pictures of the sinking."

NAME COMMITTEE FOR VIGOROUS CAMPAIGN

Subscribers to Passenger Terminal Fund for Strahorn Railroad Hear Details of Situation and Organize to See Those Who Have Not Subscribed—Attitude of the Council is Lauded.

The appointment of two additional committees to carry forward the railroad movement was made at a rousing meeting held by Strahorn railroad enthusiasts at the city hall last evening. A determined lot of men gathered at the call of Chairman W. Paul Johnson of the railroad committee and President O. J. Eskelson of the Klamath Falls Business Men's Association, to devise ways and means for increasing the Strahorn terminal fund.

Frattigued with the strenuous efforts of the past few weeks in securing the funds already secured and the obstacles which have continually arisen to block the progress of the movement, all appeared ready for any further exertion that they might be called upon to make.

Stirring, peppery talks were made by Paul Johnson and Chas. W. Eberlein, which met immediate response from the audience. Eberlein gave definite figures as to the amount now in contracts, the amount paid and amount promised. He gave the sum yet to be secured, and outlined suggestions for going about the work.

Following his talk a committee consisting of Fred Houston, K. Sugarman, Charles Riley, Walter Cofer and E. B. Hall was appointed to work out plans for securing funds from property owners and those not already subscribing. Eberlein asked that a finance committee be appointed to check over the funds received by him, take over the contracts and attend to the collection of same. Percy Evans, J. P. Campbell, O. J. Eskelson, C. A. Flath, Ed Vance were selected for this work.

E. B. Hall of the right of way committee asked for the release of part of the funds subscribed for expense in undertaking the necessary condemnation suits for right of way in the country districts. Subscribers present released over \$2,700 for this purpose if it proved necessary to use it.

Plans were made for the program of the committee which will be selected and sent to San Francisco, Sacramento and Marysville within a few days to seek financial assistance from the wholesale houses and chambers of commerce.

Praiseworthy remarks regarding the effective work of the city council in handling the knotty problems before it tone of the meeting left the impression
