BEND, Jan. 20.—Thousands of trout in the Deschutes River are being killed by the constant blasting which has been necessitated to free logs from the ice for the big mills located here.

Dynamiting has been resorted to at frequent intervals since Sunday, and it is believed that the fish in the portion of the river used as a millpond are practically exterminated.

Plumbers are working day and night to remedy the damage done by the cold in private dwellings, but declare that they will be unable to finish thawing and mending pipes this week.
